The Persian Gulf in Modern Times L. Potter, 2014-12-18 This book explores the historiography, ports, and peoples of the Persian Gulf over the past two centuries, offering a more inclusive history of the region than previously available. Restoring the history of minority communities which until now have been silenced, the book provides a corrective to the 'official story' put forward by modern states.

Everyday Lived Islam in Europe Nathal M. Dassing, Nadia Jeldtoft, Linda Woodhead, 2016-04-22 This book offers a new direction for the study of contemporary Islam by focusing on what being Muslim means in people's everyday lives. It complements existing studies by focusing not on mosque-going, activist Muslims, but on how people live out their faith in schools, workplaces and homes, and in dealing with problems of health, wellbeing and relationships. As well as offering fresh empirical studies of everyday lived Islam, the book offers a new approach which calls for the study of 'official' religion and everyday 'tactical' religion in relation to one another. It discusses what this involves, the methods it requires, and how it relates to existing work in Islamic Studies.

The Annenbergs John E. Cooney, 1982 This is the colorful and dramatic biography of two of America's most controversial entrepreneurs: Moses Louis Annenberg, 'the racing wire king,' who built his fortune in racketeering, invested it in publishing, and lost much of it in the biggest tax evasion case in United States history; and his son, Walter, launcher of TV Guide and Seventeen magazines and former ambassador to Great Britain.--Jacket.

If Britain Had Fallen Norman Longmate, 2012-03-19 What if Germany had invaded the British Isles? "A distinguished contribution to the canon of alternate histories" (Military History). If Britain Had Fallen is a fascinating contemplation of what it would have been like for Britain to live day to day under Nazi occupation. It discusses every phase of the scenario, from the German pre-invasion maneuvering and preparations, to the landing of troops, to the German seizure of power. What would have happened to the king and the government? Would America, Canada, or Australia have come to the rescue? Would the British people have grown to accept the occupation? Would the deportation of friends and the flying of the swastika from Buckingham

Palace incite passive compliance, or brave resistance? All these questions and more are explored in this thought-provoking and chilling pastiche of the twentieth century's most enduring and darkest episodes. Based on a classic television film of the same name, this book includes illustrations and an updated foreword by military historian Norman Longmate.

Moon-face and Other Stories Jack London, 1906 JACK LONDON (1876-1916), American novelist, born in San Francisco, the son of an itinerant astrologer and a spiritualist mother. He grew up in poverty, scratching a living in various legal and illegal ways -robbing the oyster beds, working in a canning factory and a jute mill, serving aged 17 as a common sailor, and taking part in the Klondike gold rush of 1897. This various experience provided the material for his works, and made him a socialist. *The Son of the Wolf* (1900), the first of his collections of tales, is based upon life in the Far North, as is the book that brought him recognition, *The Call of the Wild* (1903), which tells the story of the dog Buck, who, after his master's death, is lured back to the primitive world to lead a wolf pack. Many other tales of struggle, travel, and adventure followed, including *The Sea-Wolf* (1904), *White Fang* (1906), *South Sea Tales* (1911), and *Jerry of the South Seas* (1917). One of London's most interesting novels is the semi-autobiographical *Martin Eden* (1909). He also wrote socialist treatises, autobiographical essays, and a good deal of journalism.

The Bottom Billion Paul Collier, 2007-05-25 In the universally acclaimed and award-winning *The Bottom Billion*, Paul Collier reveals that fifty failed states--home to the poorest one billion people on Earth--pose the central challenge of the developing world in the twenty-first century. The book shines much-needed light on this group of small nations, largely unnoticed by the industrialized West, that are dropping further and further behind the majority of the world's people, often falling into an absolute decline in living standards. A struggle rages within each of these nations between reformers and corrupt leaders--and the corrupt are winning. Collier analyzes the causes of failure, pointing to a set of traps that ensnare these countries, including civil war, a dependence on the extraction and export of natural resources, and bad governance. Standard solutions do not work, he writes; aid is often ineffective, and globalization can actually make matters worse, driving development to more stable nations. What the bottom billion need, Collier argues, is a bold new plan supported by the Group of Eight industrialized nations. If failed states are ever to be helped, the G8 will have to adopt preferential trade policies, new laws against corruption, new international charters, and even conduct carefully calibrated military interventions. Collier has spent a lifetime working to end global poverty. In *The Bottom Billion*, he offers real hope for solving one of the great humanitarian crises facing the world today. Set to become a classic. Crammed with statistical nuggets and common sense, his book should be compulsory reading. --The Economist If Sachs seems too saintly and Easterly too cynical, then Collier is the authentic old Africa hand: he knows the terrain and has a keen ear.... If you've ever found yourself on one side or the other of those arguments--and who hasn't?--then you simply must read this book. --Niall Ferguson, The New York Times Book Review Rich in both analysis and recommendations.... Read this book. You will learn much you do not know. It will also change the way you look at the tragedy of persistent poverty in a world of plenty. --Financial Times

On her wedding night, however, Sheetal quickly learns that the stranger she married is as cold as the marble floors of the Dhanraj mansion. Forced to smile at family members and cameras and pretend there's nothing wrong with her marriage, Sheetal begins to discover that the family she married into harbors secrets, lies and deceptions powerful enough to tear apart her world. With no one to rely on and no escape, Sheetal must ally with her husband in an attempt to protect her infant son from the tyranny of his family.

On the Turn Bárbara Arizti, Silvia Martínez-Falquina, 2007 *On the Turn: The Ethics of Fiction in Contemporary Narrative in English* is an attempt to listen to the various voices that participate in the current dialogue on the relationship between fiction and ethics. The editors' introduction investigates the current state of affairs on the return to ethics in critical and literary consideration, and it opens up the way for the variety of approaches that follows. Participants include internationally recognized scholars like Andrew Gibson, Patricia Waugh, or Native American fiction writer and poet Gordon Henry, winner of the American Book Award in 1995. All in all, contributors cover a significant geographical diversity, and their approaches also vary from general theory to particular examples, from traditional interpretations to post-deconstruction ethics. Authors analyze texts both mainstream and marginal, colonial and postcolonial; they examine the ethics of race, gender and sexuality; the ethics of self-positioning and orientation; the ethics of style; the ethics of reception; the ethics of mode and genre; the ethics of extreme situations of evil, disease and fascism. In its search for a better understanding of the global/nationalistic world of today, *On the Turn* therefore moves beyond the scope of literary criticism into issues of wider, more urgent relevance. What should I, ought I, may I, must I, do, if anything, on the basis of reading, when I have read a literary work? What does reading a literary work authorize, or even command, me to do? Writing an essay about the work would be one response. *On the Turn* is a wonderfully diverse, learned, challenging, provocative, even sometimes controversial, collection of essays on the ethical dimensions of literature. This book is testimony to the continued lively interest in the ethical turn in literary studies. The authors are, for the most part, concerned with ethical theory and with ethically charged situations in postmodern novels in English, as they shape readers' values and judgments. Poetry and non-print media are, however, also discussed. J. Hillis Miller UCI Distinguished Research Professor of Comparative Literature and English, University of California at Irvine *The Ethics of Fiction* is an important and exciting volume that explores with energy and rigour the connections between ethics and literature. Relating literature to philosophy, neurobiology, politics, religion, deconstruction and psychoanalysis, the twenty two contributors richly advance the ethical turn recently embraced by many critics. Works by authors such as Ian McEwan, A.S. Byatt, Charles Palliser, Hanif Kureishi, J.M. Coetzee, David Malouf, George Orwell, E.L. Doctorow, Flannery O'Connor, Toni Morrison and Paul Auster are presented in a new light and complex topics such as territoriality, the nature of love, Islamophobia and the politics of representation are tackled with imagination and intellectual

integrity. This book is essential reading for anyone interested in the dialogue between ethics and literature. Avril Horner, Professor of English, Kingston University
