World Migration Report 2020 United Nations, 2019-11-27 Since 2000, IOM has been producing world migration reports. The World Migration Report 2020, the tenth in the world migration report series, has been produced to contribute to increased understanding of migration throughout the world. This new edition presents key data and information on migration as well as thematic chapters on highly topical migration issues, and is structured to focus on two key contributions for readers: Part I: key information on migration and migrants (including migration-related statistics); and Part II: balanced, evidence-based analysis of complex and emerging migration issues.

World Development Report 2019 World Bank, 2018-10-31 Work is constantly reshaped by technological progress. New ways of production are adopted, markets expand, and societies evolve. But some changes provoke more attention than others, in part due to the vast uncertainty involved in making predictions about the future. The 2019 World Development Report will study how the nature of work is changing as a result of advances in technology today. Technological progress disrupts existing systems. A new social contract is needed to smooth the transition and guard against rising inequality. Significant investments in human capital throughout a person's lifecycle are vital to this effort. If workers are to stay competitive against machines they need to train or retool existing skills. A social protection system that includes a minimum basic level of protection for workers and citizens can complement new forms of employment. Improved private sector policies to encourage startup activity and competition can help countries compete in the digital age. Governments also need to ensure that firms pay their fair share of taxes, in part to fund this new social contract. The 2019 World Development Report presents an analysis of these issues based upon the available evidence.

The State of Social Safety Nets 2015 World Bank, 2015 Over the last decade, a policy revolution has been underway in the developing and emerging world. Country after country is systematically providing non-contributory transfers to poor and vulnerable people, in order to protect them against economic shocks and to enable them to invest in themselves and their children. Social safety nets or social transfers, as these are called, have spread rapidly from their early prominence in the middle-income countries of Latin America and Europe increasingly to nations in Africa, Asia and the Middle East - and today, over 130 developing countries have made investments in social safety nets an important pillar of economic development policies. The statistics and analysis in The State of Social Safety Nets 2015 capture this revolution, and reveal it in many dimensions at the country, regional, and international levels. This latest edition of a periodic series brings together a large body of data that was not previously available, drawing on the World Bank's ASPIRE database and other sources. Why have so many countries made a firm commitment to incorporate social safety nets as part of their social and economic policy architecture? Because social safety nets work. This report also reports on the rigorous evidence that demonstrates their impact, and also points the way to making them even more efficient and effective at meeting their development goals. This latest edition of a periodic series brings together a large body of data that was not previously available, drawing on the World Bank's ASPIRE database and other sources to examine trends in coverage, spending, and safety nets program performance.

Climate Change and Water Intergovernmental Panel on Climate Change / Working Group Technical Support Unit, 2008 The Technical Paper addresses the issue of freshwater. Sealevel rise is dealt with only insofar as it can lead to impacts on freshwater in coastal areas and beyond. Climate, freshwater, biophysical and socio-economic systems are interconnected in complex ways. Hence, a change in any one of these can induce a change in any other. Freshwater-

related issues are critical in determining key regional and sectoral vulnerabilities. Therefore, the relationship between climate change and freshwater resources is of primary concern to human society and also has implications for all living species. -- page vii.

Good Eating: The Short Life of Krill Matt Lilley, 2022-01-11 2022 Cybils Award WINNER for Elementary Nonfiction!!! NYPL best books of 2022 California Eureka Silver Honoree award 2022 To my delight, your average krill is a far stranger story of metamorphosis than anything our butterflies can come up with. - Elizabeth Bird, A Fuse 8 Production A fun exploration of a tiny animal at the base of the ocean food chain Just 2 inches long full-grown, this little guy is the foundation of the Southern Ocean food chain... "Hi. What are you? You appear to be an egg. You are an egg sinking. For many days, you sink. You sink a mile down, and you keep sinking down... down... until..." The unidentified narrator follows one krill among billions as it pursues its brief existence, eating and eating while metamorphosing from one thing into another and trying to avoid being eaten. Questions and advice are hurled at the krill on every page, but the krill never responds--because, after all, krill can't talk, and this is nonfiction. Krill are the largest animals able to catch and eat phytoplankton, and they in turn are eaten by the largest animals ever to live on earth--blue whales--as well as by seals, penguins, and a host of others. In other words, krill are really good at eating, and they make really good eating. And that makes them the most important animals in the high-latitude oceans. As in *The Whale Fall Café*, Dan Tavis's illustrations combine scientific accuracy with Nemo liveliness and humor. Our star krill is so good at gobbling up phytoplankton that he turns green, so we can pick him out from the crowd racing to escape a penguin's beak or a blue whale's gaping maw. The book has been reviewed and endorsed by global krill expert Dr. Stephen Nichol, and the manuscript earned an honorable mention in Minnesota's McKnight Artist Fellowships for Writers. Helpful backmatter is included. The *Good Eating* manuscript won an honorable mention in Minnesota's McKnight Artist Fellowships for Writers. Technical review and endorsement from Dr. Stephen Nichol, adjunct professor at the University of Tasmania and author of *The Curious Life of Krill*.

Mama Rose's Turn Carolyn Quinn, 2013-10-17 Hers is the show business saga you think you already know--but you ain't seen nothin' yet. Rose Thompson Hovick, mother of June Havoc and Gypsy Rose Lee, went down in theatrical history as The Stage Mother from Hell after her immortalization on Broadway in *Gypsy: A Musical Fable*. Yet the musical was 75 percent fictionalized by playwright Arthur Laurents and condensed for the stage. Rose's full story is even more striking. Born fearless on the North Dakota prairie in 1891, Rose Thompson had a kind father and a gallivanting mother who sold lacy finery to prostitutes. She became an unhappy teenage bride whose marriage yielded two entrancing daughters, Louise and June. When June was discovered to be a child prodigy in ballet, capable of dancing en pointe by the age of three, Rose, without benefit of any theatrical training, set out to create onstage opportunities for her magical baby girl--and succeeded. Rose followed her own star and created two more in dramatic and colorful style: Baby June became a child headliner in vaudeville, and Louise grew up to be the well-known burlesque star Gypsy Rose Lee. The rest of Mama Rose's remarkable story included love affairs with both men and women, the operation of a lesbian pick-up joint where she sold homemade bathtub gin, wild attempts to extort money from Gypsy and June, two stints as a chicken farmer, and three allegations of cold-blooded murder--all of which was deemed unfit for the script of *Gypsy*. Here, at last, is the rollicking, wild saga that never made it to the stage.

Measure Their Feet John Schuler, 2019 Schuler Shoes, the oldest family-owned and operated shoe retailer west of the Mississippi, is a surprising success story. Now one of the top independent shoe retailers in the country by sales volume, the company recovered from near bankruptcy to grow and thrive during an era when the majority of the country's independent shoe retailers went out of business. This growth has been built on the foundations of measuring feet in detail, spectacular customer service, depth of inventory, a conservative financial approach, and taking care of employees.. John Schuler took over Schuler Shoes in 1973, when Big Box stores and enclosed shopping malls were driving many small retailers out of business. After facing bankruptcy in the late '70s, he helmed a turn-around which led to rapid growth into the 21st century, increasing sales by a factor of fifty. Along the way, Schuler also established several initiatives focused on giving back to the community. This is his first book.

Africa from the Twelfth to the Sixteenth Century Unesco. International Scientific Committee for the Drafting of a General History of Africa, 1984 The result of years of work by scholars from all over the world, The UNESCO General History of Africa reflects how the different peoples of Africa view their civilizations and shows the historical relationships between the various parts of the continent. Historical connections with other continents demonstrate Africa's contribution to the development of human civilization. Each volume is lavishly illustrated and contains a comprehensive bibliography. The period covered in Volume IV constitutes a crucial phase in the continent's history, in which Africa developed its own culture and written records became more common. Major themes include the triumph of Islam; the extension of trading relations, cultural exchanges, and human contacts; and the development of kingdoms and empires.

The Girls Are Gone Michael Brodkorb, Allison Mann, 2018-10-23 On the evening of April 19, 2013, Samantha and Gianna Rucki disappeared. Two of five children born to David Rucki and Sandra Grazzini-Rucki, the teenage sisters vanished in the midst of their parents' divorce. The girls' father, David Rucki, worked tirelessly with law enforcement to search day and night for his two missing daughters, following every lead while raising three remaining children at home. Their mother, Sandra Grazzini-Rucki, used her newfound freedom to vacation around the world, abandoning her children. And as the investigation intensified, catching the attention of the media, Sandra also disappeared. *The Girls Are Gone* is the true story of two sisters who went missing, the father who kept searching, and the adults who conspired to keep the truth hidden. AUTHOR BIOGRAPHY: Michael Brodkorb's reporting on the Samantha and Gianna Rucki case began with the Star Tribune in 2015. He is currently a columnist with MinnPost. A lifelong resident of Minnesota, Michael is also an experienced communication, public affairs, and research consultant. He lives in Eagan, Minnesota, with his family. Allison Mann is a paralegal and has worked on the Samantha and Gianna Rucki case since 2012. She lives in Lakeville, Minnesota, with her family. AUTHOR HOME: Minneapolis, MN

World Migration Report 2018 United Nations Publications, 2018-01-15 This report is the ninth in the world migration report series which is designed as a substantive contribution to increasing the understanding of current and strategic migration issues throughout the world. It presents key data and information on migration as well as thematic chapters on highly topical migration issues. It is structured to focus on two key contributions for readers: Part I: key information on migration and migrants (including migration-related statistics); and Part II: balanced, evidence-based analysis of complex and emerging migration issues. The two parts are intended to provide both overview information that helps to explain migration patterns and processes globally and regionally, as well as insights and recommendations on major issues that policymakers are - or soon - will be grappling with.

A system of health accounts 2011 World Health Organization, European Union, Organisation for Economic Co-operation and Development, 2022-05-31 A System of Health Accounts 2011 provides a systematic description of the financial flows related to the consumption of health care goods and services. As demands for information increase and more countries implement and institutionalise health accounts according to the system, the data produced are expected to be more comparable, more detailed and more policy relevant. This publication summarises the System of Health Accounts 2011 (SHA 2011) Manual, which was jointly produced by OECD, the European Commission and WHO. The SHA 2011 Manual itself draws inspiration from and builds on the original manual, published in 2000, and the Guide to Producing National Health Accounts (2003) to create a single global framework for producing health expenditure accounts that can help track resource flows from sources to uses. The manual is the result of a four-year collaborative effort between OECD, Eurostat and WHO, and sets out in more detail the boundaries, the definitions

and the concepts responding to health care systems around the globe - from the simplest to the more complicated.

A Dog Named King Andrew C Revering, 2020-08-04 Anoka Minnesota Police Dog King was the first police dog to be use effectively in the Minneapolis/St. Paul Metropolitan Area in the 1960's. His success led to the development of police dog units in a five state area surrounding Minnesota. He received numerous awards for his criminal apprehensions, and a local newspaper reporter referred to him as the Rin Tin Tin of the Anoka Police Department. Upon his death the City of Anoka named a park after him (King Memorial Park), and a lifesize was placed there in his honor. In 2018 he was inducted as an honoree in the National Law Enforcement Museum in Washington DC.
