In the course of this discussion many techniques are developed which are also needed for a study of more general problems, in which the gravitational field itself plays a dynamical role.

Rituals of the Past Silvana Rosenfeld, Stefanie Bautista, 2017-03-15 Rituals of the Past explores the various approaches archaeologists use to identify ritual in the material record and discusses the influence ritual had on the formation, reproduction, and transformation of community life in past Andean societies. A diverse group of established and rising scholars from across the globe investigates how ritual influenced, permeated, and altered political authority, economic production, shamanic practice, landscape cognition, and religion in the Andes over a period of three thousand years. Contributors deal with theoretical and methodological concerns including non-human and human agency; the development and maintenance of political and religious authority, ideology, cosmologies, and social memory; and relationships with ritual action. The authors use a diverse array of archaeological, ethnographic, and linguistic data and historical documents to demonstrate the role ritual played in prehispanic, colonial, and post-colonial Andean societies throughout the regions of Peru, Chile, Bolivia, and Argentina. By providing a diachronic and widely regional perspective, Rituals of the Past shows how ritual is vital to understanding many aspects of the formation, reproduction, and change of past lifeways in Andean societies. Contributors: Sarah Abraham, Carlos Angiorama, Florencia Avila, Camila Capriata Estrada, David Chicoine, Daniel Contreras, Matthew Edwards, Francesca Fernandini, Matthew Helmer, Hugo Ikehara, Enrique Lopez-Hurtado, Jerry Moore, Axel Nielsen, Yoshio Onuki, John Rick, Mario Ruales, Koichiro Shibata, Hendrik Van Gijseghem, Rafael Vega-Centeno, Verity Whalen

The Chequered Past David Anderson Charters, 2007-01-01 In the forty-year period between 1951 and 1991, Canadian sports car competition underwent a massive change, transforming itself from an amateur recreational pastime to a commercialized profession and from an individual sport to a spectacle for mass consumption. The Chequered Past is the story of the struggle over power and purpose within the Canadian auto sport that led to this transformation. The first comprehensive history of sports car racing and rallying in Canada, The Chequered Past traces the efforts of the national governing body - the Canadian Auto Sport Clubs (CASC) - to bring its sports car competition up to a 'world class' level, and to manage the consequences of those efforts in the second half of the twentieth century. David Charters traces the social origins of the sport and the major trends that shaped it: professionalism, technological change, rising costs, and the influence of commercial sponsors. Charters argues that while early enthusiasts set the sport on a course toward professionalism that would eventually produce world-class Canadian events and racers, that course would also ultimately change the purpose of the sport: from personal recreation to mass entertainment. As technological innovations drove up the costs of competing at the top ranks, racers were forced to rely on sponsors, who commercialized and ultimately gained control of the sport. The end result, Charters argues, was the marginalization of the amateur competitor and of the CASC itself. Based on extensive research into the CASC's records and dozens of interviews with former competitors and officials, The Chequered Past opens a window into the rich but virtually unknown history of the auto sport, and claims for it a place in Canadian sports history.
