Outsmart the MBA Clones Dan Herman, 2014

Outsmart the MBA Clones Dan Herman, 2008 Dan Herman's book is not really about M.B.A.s; it's just badly titled. Actually, his subject is the continuing power of product differentiation, and he is challenging how marketers conceptualize their work. He explains how to electrify consumers by developing innovative products and services that your M.B.A.-clone competitors are reluctant to imitate, thereby handing you a monopoly. Herman comes out swinging as a bold strategist, but because his thinking is both nuanced and complex, his book is sometimes difficult to follow. Still, *Abstract* considers it a useful text in marketing strategy and recommends it to marketers of all stripes. Even if you decide not to follow Herman's logic down all its paths, you can harness his clever ideas and out-market all those M.B.A. clones.

Modern Competitive Strategy Gordon Walker, 2015-01-30 *Modern Competitive Strategy*, 4e focuses on what makes firms successful over time, ultimately within industries that are global in scope. It is meant to be comprehensive yet succinct, discipline-based yet practical, highly general yet applicable to currently emerging industries - all of this, we hope, without sacrificing quality of content or style. It is intended to be appropriate for teaching at all levels—undergraduate, MBA, and EMBA - and to be understandable to students both with and without business experience. To this end, it serves as a relatively complete introduction to strategy as an academic and practical discipline. Furthermore, it is flexible in its fit to course length - module, quarter, or semester.

Creating Competitive Advantage Jaynie L. Smith, William G. Flanagan, 2006-04-25 Why should I do business with you... and not your competitor? Whether you are a retailer, manufacturer, distributor, or service provider – if you cannot answer this question, you are surely losing customers, clients and market share. This eye-opening book reveals how identifying your competitive advantages and trumpeting them to the marketplace is the most surefire way to close deals, retain clients, and stay miles ahead of the competition. The five fatal flaws of most companies: ? They don't have a competitive advantage but think they do ? They have a competitive advantage but don't know what it is—so they lower prices instead ? They know what their competitive advantage is but neglect to tell clients about it ? They mistake “strengths” for competitive advantages ? They don't concentrate on competitive advantages when making strategic and operational decisions The good news is that you can overcome these costly mistakes – by identifying your competitive advantages and creating new ones. Consultant, public speaker, and competitive advantage expert Jaynie Smith will show you how scores of small and large companies substantially increased their sales by focusing on their competitive advantages. When advising a CEO frustrated by his salespeople's inability to close deals, Smith discovered that his company stayed on schedule 95 percent of the time – an achievement no one else in his industry could claim. By touting this and other

competitive advantages to customers, closing rates increased by 30 percent—and so did company revenues. Jack Welch has said, “If you don’t have a competitive advantage, don’t compete.” This straight-to-the-point book is filled with insightful stories and specific steps on how to pinpoint your competitive advantages, develop new ones, and get the message out about them. “The biggest marketing flaw in most companies is their failure to fully reap the benefits of their competitive advantages. Either they think they have a competitive advantage but don’t. Or they have one and don’t realize it. Or they know they have a strong competitive advantage but fail to promote it adequately to their customers and prospects. “In my research with middle-market companies, I found only two CEOs out of 1,000 who could clearly name their companies’ competitive advantages. The other 99.8 percent could offer only vague, imprecise generalities. These same CEOs often rely on outside consultants to guide strategic-planning sessions. Yet, in my experience, very few consultants – even seasoned ones – give competitive advantage evaluation more than a superficial glance.... “Ignoring your competitive advantages can be an expensive and even fatal mistake. Because no matter the size of your company or the kind of business you are in, your competitive advantages should be the foundation of all your strategic and operational decisions. They’re the reasons customers choose to buy from you instead of the other guy.” – From *Creating Competitive Advantage*

Strategic Management Robert A. Pitts, David Lei, 2000 This strategic management text focuses on building, extending, organizing and sustaining competitive advantage. Within the context of its advantage-driven focus, five key themes are addressed and reinforced throughout the book: distinctive competence, quality, globalization, change, and ethics. This book has mini-cases within each chapter and is filled with current real-world applications.

Strategy As Action Curtis M. Grimm, Hun Lee, Ken G. Smith, 2005-08-25 Strategy as Action presents an action plan for how firms can build, improve, and defend their competitive advantage at every stage of their life cycle. For start-up firms entering a market, it provides a model for exploiting competitive uncertainty and blind spots; for growth firms who have established some market advantages, it provides an action plan for exploiting relative resources; for mature firms, it explains how to exploit market position; finally, for firms that have no decisive resource advantage, it provides an action plan based on firm co-operative reactions.

Aligning for Advantage Thomas C. Lawton, Jonathan P. Doh, Tazeeb Rajwani, 2013-12 The book outlines how companies should synchronize competitive strategies with extant strategies for social engagement and political and regulatory activism in order to build and sustain business success.
