2020 4th International Conference on Smart Grid and Smart Cities (ICSGSC) IEEE Staff,2020-08-18 For the past few years, smart grids have been the main topic of fervent research and development at both industrial and academic level The smart grid is envisaged to be the next generation electric grid for Smart Cities It enables the smart integration of conventional power generation, renewable generation, distributed generation, energy storage, transmission, distribution and demand management The benefits of smart grid include the enhanced reliability and resilience, higher intelligence and optimized control, decentralized operation, higher operational efficiency, more efficient demand management, and better power quality However, all these prospected transformations also bring with them numerous challenges and opportunities We warmly invite you to participate in the ICSGSC 2020 program and activities and we are confident that you will find the program enriching, enlightening and rewarding

Accounting for Health and Health Care National Research Council,Division of Behavioral and Social Sciences and Education,Committee on National Statistics,Panel to Advance a Research Program on the Design of National Health Accounts,2011-01-05 It has become trite to observe that increases in health care costs have become unsustainable. How best for policy to address these increases, however, depends in part on the degree to which they represent increases in the real quantity of medical services as opposed to increased unit prices of existing services. And an even more fundamental question is the degree to which the increased spending actually has purchased improved health. Accounting for Health and Health Care addresses both these issues. The government agencies responsible for measuring unit prices for medical services have taken steps in recent years that have greatly improved the accuracy of those measures. Nonetheless, this book has several recommendations aimed at further improving the price indices.
