Human Rights Commissions and Ombudsman Offices Kamel Hossain, Leonard F.M. Besselink, Haile Selassie Gebre Selassie, Edmond Völker, 2021-10-18 This volume reflects the findings of a conference organized in preparation of setting up a national human rights commission and ombudsman institution in the Federal Democratic Republic of Ethiopia. The meeting assembled experts in the field of the protection and promotion of human rights, and of the problems of countries in transition from a non-democratic system, characterized by gross violations of human rights, towards a democratic system based on the rule of law and respect for human rights. The book analyses the functioning of national human rights commissions and ombudsman institutions in 23 different countries, by means of country report written in the main by members of these institutions themselves and containing an assessment of their experience. Many offer relevant constitutional and legislative provisions as well. This volume thus forms a unique collection of materials dealing with national human rights commissions and ombudsman offices.

Challenges of Security Sector Governance Heiner Hänggi, Theodor Winkler, 2003 The war in Iraq in spring 2003 was a further indication of the resecuritization of international relations triggered by the terrorist attacks of September 11, 2001. However, the new (or renewed) primacy of security will be of a rather different nature as compared to the Cold War period. The underlying assumption of the essays in this volume is that security issues will increasingly be approached from a governance perspective and that, in this context, the internal dimension of security governance--security sector governance--is an issue whose rapidly growing importance has not yet been duly recognized. Heiner Hnggi is assistant director of the Geneva Centre for the Democratic Control of Armed Forces. Theodor H. Winkler is director of the Geneva Centre for the Democratic Control of Armed Forces.

Civilizations and Historical Patterns. An Approach to the Comparative Study of History Neagu Djuvara, 2019-06-25 And, in the shadow of the major civilization, before it disappeared in its turn, how many other cultures have perished without a trace? This immense tragedy is being lived now by many cultures, with great intensity. One has to belong to such a culture in course of extinction or dying slowly even before its flourishing, to understand the infinite distress of those who are helplessly watching the inexorable disappearance of their most precious values. With each dying culture, it is a unique flower that is withering never to bloom again, an incomparable fragrance that fades away forever. There is in the smallest idioms, there is in the "Weltanschauung" of the smallest tribe doomed to extinction treasures of wisdom and poetry. Lost...lost for all eternity. In the life of peoples, as in the whole Creation, the most striking thing that actually shocks the mind is the infinite waste of Nature. Those who at present are fortunate enough to belong to the universal cultures, may

still live with the illusion of their perpetuity. But for how long? Indeed what is left of Ancient Egypt, of Mesopotamia, of Crete, of Mexico and of Peru? And how can we be sure that our conceited race that for centuries extends its domination over peoples and things will not also fall one day in torpor and become apathetic? Neagu Djuvara

Public Integrity J. Patrick Dobel, 2002-01-01 In this groundbreaking book, J. Patrick Dobel describes and analyzes the elements that constitute integrity in public office. Drawing on case studies, memoirs, interviews, and fiction (e.g., John Le Carré), Dobel addresses such issues as when to resign and when to stay in office. He examines the temptations of power, the relation between private and public life, and the role of honor and prudence in making personal decisions. He applies not only moral theory but also the insights of history, organizational theory, and psychology. Unlike most political ethics books, Public Integrity puts personal responsibility at the center of public morality, examining not just the responsibilities of office but also the role of personal moral commitments and promises. This timely book reminds us of the importance of public integrity as well as the demands and challenges that often threaten that integrity, especially in a liberal democracy such as the United States.

Human Resource Management in Europe Christian Scholz, Hans Böhm, 2008-07-31 The European Union is expanding. Wide cultural, political and economic differences within the Union have a significant impact on the management of human resources, so crucial to the success of any enterprise. Businesses within the EU have regularly tried to re-evaluate the context in which they work, and for investors from other continents, notably the US and Asia, the potential for expensive mistakes is only too real. In this comprehensive new book, the varied and particular challenges for human resource management in the EU are fully explored. Written in conjunction with the European Association for Personal Management (EAPM), the book offers country-by-country analysis from native authors, assessing the contexts faced by businesses working in thirteen different states: from

founding EU members like France and Germany, to relatively new entrants like Latvia and Poland. The book also includes a chapter on Turkey, an emerging economy currently outside the Union. The key issues are addressed from both theoretical and practical perspectives, whilst each chapter is also complimented by best practice case studies.

It also covers medical treatment and the way disputes can be resolved.
