**Deterritorialisations** ... Mark Dorrian,Gillian Rose,2003 In recent years, landscape has become increasingly recognised as a topic of central importance to a wide variety of disciplines. To a large degree this recognition has been based upon an expanding appreciation of the political aspects of landscape, its ideological character and effects. Landscapes and Politics is an innovative cross-disciplinary volume of new writing which brings together, in a strategic and productive encounter, a broad variety of critical work currently being done in this field. With 28 papers and five photo essays. Landscapes and Politics presents material by scholars and practitioners from anthropology, archaeology, architecture, art history, cultural studies, English and American literature, film studies, fine art, geography, history, landscape architecture, philosophy, political science, and religious studies. As an important marker of current methodologies, research and practice across these different disciplinary areas Landscapes and Politics is an invaluable resource. It will be of interest to all those concerned with current discourses and debates on landscape and its representation.

**Psalms of the Early Buddhists** A F Rhys Davids,A. F. Rhys Davids,2024-01-19 Psalms of the Early Buddhists or The Psalms of the Early Buddhists it is a compilation of verses from the Pali Canon, the oldest collection of Buddhist scriptures. The Pali Canon is the primary religious scripture of Theravada Buddhism, and it contains teachings attributed to Gautama Buddha. In this particular collection, A. F. Rhys Davids has translated and compiled verses that express the thoughts and aspirations of early Buddhists. The term psalms draws a parallel with the Psalms of the Bible, indicating that these verses have a similar devotional and reflective quality. The book provides insight into the spiritual and philosophical aspects of early Buddhism through the words of the Buddha and his

disciples. It offers a glimpse into the practices, beliefs, and ethical principles of the early Buddhist community. If you are interested in Buddhist scriptures and want to explore the foundational teachings of Buddhism, Psalms of the Early Buddhists can be a valuable resource.

Molecules in Superfluid Helium Nanodroplets Alkwin Slenczka, Jan Peter Toennies, 2022-05-28 This open access book covers recent advances in experiments using the ultra-cold, very weakly perturbing superfluid environment provided by helium nanodroplets for high resolution spectroscopic, structural and dynamic studies of molecules and synthetic clusters. The recent infra-red, UV-Vis studies of radicals, molecules, clusters, ions and biomolecules, as well as laser dynamical and laser orientational studies, are reviewed. The Coulomb explosion studies of the uniquely quantum structures of small helium clusters, X-ray imaging of large droplets and electron diffraction of embedded molecules are also described. Particular emphasis is given to the synthesis and detection of new species by mass spectrometry and deposition electron microscopy.

Dare the School Build a New Social Order? George Sylvester Counts, 1978 George S. Counts was a major figure in American education for almost fifty years. Republication of this early (1932) work draws special attention to Counts's role as a social and political activist. Three particular themes make the book noteworthy because of their importance in Counts's plan for change as well as for their continuing contemporary importance: (1) Counts's criticism of child-centered progressives; (2) the role Counts assigns to teachers in achieving educational and social reform; and (3) Counts's idea for the reform of the American economy.
