*Conversions* Craig Harline,2011-09-15 The experiences of two families—one in seventeenth-century Holland, the other in America today—and how they coped when a family member changed religions. This powerful and innovative work by a gifted cultural historian explores the effects of religious conversion on family relationships, showing how the challenges of the Reformation can offer insight to families facing similarly divisive situations today. Craig Harline begins with the story of young Jacob Rolandus, the son of a Dutch Reformed preacher, who converted to Catholicism in 1654 and ran away from home, causing his family to disown him. In the companion story, Michael Sunbloom, a young American, leaves his family’s religion in 1973 to convert to Mormonism, similarly upsetting his distraught parents. The modern twist to Michael’s story is his realization that he is gay, causing him to leave his new church, and upsetting his parents again—but this time the family reconciles. Recounting these stories in short, alternating chapters, Harline underscores the parallel aspects of the two far-flung families. Despite different outcomes and forms, their situations involve nearly identical dynamics and heart-wrenching choices. Through the author's deeply informed imagination, the experiences of a seventeenth-century European family are transformed into immediately recognizable terms. “A beautiful and moving book. Harline is a master at narrative and at making the most painstaking research look effortless.” —Carlos Eire, Yale University “An absorbing, creative book . . . it will definitely become a go-to book for readers interested in the history and psychology of conversion.” —Lauren Winner, author of *Girl Meets God: A Memoir* “An unexpected joy. . . . A compelling, insightful examination. . . . *Conversions* is a journey well worth taking.” —Gerald S. Argetsinger, Affirmation.org

**Famous Conversions** Hugh Thomson Kerr,John M. **Conversions** Emma O'Kelly,Corinna Dean,2007 Addresses the growing trend in converting existing structures into a series of ingenious living spaces as it looks at varied projects from around the world in rural, urban, and civic buildings, as well as lofts, industrial spaces, and other unique buildings, examining such topics as what elements of the structure are left intact, what are demolished, how each building was converted into a dwelling, budgets, materials, and impact on the surrounding environment.

The Dearth of Conversions Andrew Murray,1897

The Four Conversions David B. Couturier,2008 For far too many Christians, conversion is reduced to just a personal change of mind and heart. This leaves our relationships and institutions out of the Gospel call to holiness. This book proposes metanoia as four mutually enriching phases of conversion ı personal, interpersonal, ecclesial and structural. The Four Conversions demonstrates the theological and psychological connections between personal change and family development, congregational development and social transformation. Integrating the latest insights from Trinitarian theology, family systems theory, clinical psychology and organizational studies, this work will give readers a deeper appreciation for the Church’s tradition of faith development.

*Everyday Conversions* Attiya Ahmad,2017-03-03 Why are domestic workers converting to Islam in the Arabian Peninsula and Persian Gulf region? In *Everyday Conversions* Attiya Ahmad presents us with an original analysis of this phenomenon. Using extensive fieldwork conducted among South Asian migrant women in Kuwait, Ahmad argues domestic workers’ Muslim belonging emerges from their work in Kuwaiti households as they develop Islamic piety in relation—but not opposition—to their existing religious practices, family ties, and ethnic and national belonging. Their conversion is less a clean break from their preexisting lives than it is a refashioning in response to their everyday experiences. In examining the connections between migration, labor, gender, and Islam, Ahmad complicates conventional understandings of the dynamics of religious conversion and the feminization of transnational labor migration while proposing the concept of everyday conversion as a way to think more broadly about emergent forms of subjectivity, affinity, and belonging.

Conversion Katherine Howe,2015-06-16 A chilling mystery based on true events, from New York Times bestselling author Katherine Howe. It’s senior year, and St. Joan’s Academy is a pressure cooker. Grades, college applications, boys’ texts: Through it all, Colleen Rowley and her friends keep it together. Until the school’s queen bee suddenly falls into uncontrollable tics in the middle of class. The mystery illness spreads to the school's popular clique, then more students and symptoms follow: seizures, hair loss, violent coughing fits. St. Joan’s buzzes with rumor; rumor erupts into full-blown panic. Everyone scrambles to find something, or someone, to blame. Pollution? Stress? Are the girls faking? Only Colleen—who’s been reading *The Crucible* for extra credit—comes to realize what nobody else has: Danvers was once Salem Village, where another group of girls suffered from a similarly bizarre epidemic three centuries ago . . . Inspired by true events—from seventeenth-century colonial life to the halls of a modern-day high school—Conversion casts a spell. [Howe] has a gift for capturing the teenage mindset that nears the level of John Green.—USA Today ...this creepy, gripping novel is intimately real and layered, shedding light on the challenges teenage girls have faced throughout history.—The New York Times A chilling guessing game . . . that will leave readers thinking about the power (and powerlessness) of young women in the past and present alike.—Publishers Weekly, Starred Review

**Conversions** Simon Ditchfield,Helen Smith,2017-01-06 *Conversions* is the first collection to explicitly address the intersections between sexed identity and religious change in the two centuries following the Reformation. Chapters deal with topics as diverse as convent architecture and missionary enterprise, the replicability of print and the representation of race. Bringing together leading scholars of literature, history and art history, *Conversions* offers new insights into the varied experiences of, and responses to, conversion across and beyond Europe. A lively Afterword by Professor Matthew Dimmock (University of Sussex) drives home the contemporary urgency of these themes and the lasting legacies of the Reformations.

Deathbed Conversions Karen Edmisten,2013-11-01 W.C. Fields reportedly quipped as he flipped through a Bible on his deathbed: I'm looking for loopholes. Is a last minute conversion really a loophole? Is it fair to the faithful who have toed the line their whole lives? Far from being the easy way out, a deathbed conversion is almost always the culmination of years spent resisting God's patient, persistent call. Each of these journeys to redemption will deepen your faith and encourage you to help others find their way to him. In this book you'll read the compelling stories of thirteen people who finally found peace with the Lord in the last months, weeks, or even hours of their lives, including: Poet/playwright Oscar Wilde Nobel laureate Alexis Carrel Actors John Wayne, Patricia Neal, and Gary Cooper Gangster Dutch Shultz Entertainer Buffalo Bill And more

**Defense Conversion** Jacques S. Gansler,1996-07-25 Jacques Gansler takes a hard look at the need to convert the industry from an inefficient and noncompetitive part of the U.S. economy to an integrated, civilian/military operation. Author of two widely-read books on the defense industry, Jacques Gansler takes a hard look at the need to convert the industry from an inefficient and noncompetitive part of the U.S. economy to an integrated, civilian/military operation. He defines the challenges, especially the influence of old-line defense interests, and presents examples of restructuring. Gansler discusses growing foreign involvement, lessons of prior industrial conversions, the best structure for the next century, current barriers to integration, a three-part transformation strategy, the role of technological leadership, and the critical workforce. He concludes by outlining sixteen specific actions for achieving civil/military integration. In Gansler's view, the end of the Cold War with the former Soviet Union represents a permanent downturn rather than a cyclical decline in the defense budget. He argues that this critical transition period requires a restructuring of the defense acquisitions process to achieve a balance between economic concerns and national security, while maintaining a force size and equipment modernization capable of deterring future conflicts. Gansler argues that for the defense industry to survive and thrive, the government must make its acquisitions process more flexible, specifically by lowering barriers to integration. This includes, among other things, rethinking the production specifications for new equipment and changing bids for contracts from a cost basis to a price basis. Gansler point out that by making primarily political and procedural changes (rather than legislative ones), companies will be able to produce technology for both civilian and military markets, instead of exclusively for one or the other as has been the norm. This dual-use approach would save the government billions of dollars annually and would enable the military to diversify by utilizing state-of-the-art.

**Migrant Conversions** Erica Vogel,2020-03-10 A free open access ebook is available upon publication. Learn more at [www.luminosoa.org](http://www.luminosoa.org). Peruvian migrant workers began arriving in South Korea in large numbers in the mid 1990s, eventually becoming one of the largest groups of non-Asians in the country. Migrant Conversions shows how despite facing unstable income and legal exclusion, migrants come to see Korea as an ideal destination. Some even see it as part of their divine destiny. Faced with looming departures, Peruvians develop cosmopolitan plans to transform themselves from economic migrants into pastors, lovers, and leaders. Set against the backdrop of 2008's global financial crisis, Vogel explores the intersections of three types of conversions—money, religious beliefs and cosmopolitan plans—to argue that conversions are how migrants negotiate the meaning of their lives in a constantly changing transnational context. At the convergence of cosmopolitan projects spearheaded by the state, churches, and other migrants, Peruvians change the value and meaning of their migrations. Yet, in attempting to make themselves at home in the world and give their families more opportunities, they also create potential losses. As Peruvians help carve out social spaces, they create complex and uneven connections between Peru and Korea that challenge a global hierarchy of nations and migrants. Exploring how migrants, churches and nations change through processes of conversion reveals how globalization continues to impact people's lives and ideas about their futures and pasts long after they have stopped moving, or that particular global moment has come to an end.

**The Oxford Handbook of Religious Conversion** Lewis R. Rambo, Charles E. Farhadian,2014-03-06 The Oxford Handbook of Religious Conversion offers a comprehensive exploration of the dynamics of religious conversion, which for centuries has profoundly shaped societies, cultures, and individuals throughout the world. Scholars from a wide array of religions and disciplines interpret both the varieties of conversion experiences and the processes that inform this personal and communal phenomenon. This volume examines the experiences of individuals and communities who change religions, those who experience an intensification of their religion of origin, and those who encounter new religions through colonial intrusion, missionary work, and charismatic and revitalization movements. The thirty-two innovative essays provide overviews of the history of particular religions, including Hinduism, Buddhism, Confucianism, Taoism, Sikhism, Islam, Christianity, Judaism, indigenous religions, and new religious movements. The essays also offer a wide range of disciplinary perspectives-psychological, sociological, anthropological, legal, political, feminist, and geographical-on methods and theories deployed in understanding conversion, and insight into various forms of deconversion.

With an interdisciplinary approach to the study of conversion, the collection provides an opportunity for a better understanding of lived religion, guilt, shame, hope, forgiveness, narrative identity reconstruction, religious coping, religious conversion and spiritual transformation. This volume will be of interest to scholars and students of lived religion, religious conversion, recovery, homelessness, and substance dependence.

**Narratives of Remarkable Conversions and Revival Incidents** William C. Conant,1858

C in a Nutshell Peter Prinz,Tony Crawford,2005-12-16 Learning a language--any language--involves a process wherein you learn to rely less and less on instruction and more increasingly on the aspects of the language you've mastered. Whether you're learning French, Java, or C, at some point you'll set aside the tutorial and attempt to converse on your own. It's not necessary to know every subtle facet of French in order to speak it well, especially if there's a good dictionary available. Likewise, C programmers don't need to memorize every detail of C in order to write good programs. What they need instead is a reliable, comprehensive reference that they can keep nearby. C in a Nutshell is that reference. This long-awaited book is a complete reference to the C programming language and C runtime library. Its purpose is to serve as a convenient, reliable companion in your day-to-day work as a C programmer. C in a Nutshell covers virtually everything you need to program in C, describing all the elements of the language and illustrating their use with numerous examples. The book is divided into three distinct parts. The first part is a fast-paced description, reminiscent of the classic Kernighan & Ritchie text on which many C programmers cut their teeth. It focuses specifically on the C language and preprocessor directives, including extensions introduced to the ANSI standard in 1999. These topics and others are covered: Numeric constants Implicit and explicit type conversions Expressions and operators Functions Fixed-length and variable-length arrays Pointers Dynamic memory management Input and output The second part of the book is a comprehensive reference to the C runtime library; it includes an overview of the contents of the standard headers and a description of each standard library function. Part III provides the necessary knowledge of the C programmer's basic tools: the compiler, the make utility, and the debugger. The tools described here are those in the GNU software collection. C in a Nutshell is the perfect companion to K&R, and destined to be the most reached-for reference on your desk.
