The Last Lecture Randy Pausch, 2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of

everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

Copyright Law in an Age of Limitations and Exceptions Ruth L. Okediji, 2017-03-30 Copyright Law in an Age of Limitations and Exceptions brings together leading copyright scholars and the field's foremost authorities to consider the critical role of copyright law in shaping the complex social, economic, and political interaction critical for cultural productivity and human flourishing. The book addresses defining issues facing copyright law today, including justifications for copyright law's limitations and exceptions (L&Es), the role of authors in copyright, users' rights, fair use politics and reform, the three-step test in European copyright law, the idea/expression principle with respect to functional works, limits on the use of L&Es in scientific innovation, and L&Es as a tool for economic development in international copyright law. The book also presents case studies on the historical development of the concept of 'neighboring rights' and on Harvard Law School's pioneering model of global copyright education, made possible by the exercise of L&Es across national borders.

The Secret Thoughts of an Unlikely Convert Rosaria Champagne Butterfield, 2014 Rosaria, by the standards of many, was living a very good life. She had a tenured position at a large university in a field for which she cared deeply. She owned two homes with her partner, in which they provided hospitality to students and activists that were looking to make a difference in the world. In the community, Rosaria was involved in volunteer work. At the university, she was a respected advisor of students and her department's curriculum. And then, in her late 30s, Rosaria encountered something that turned her world upside down -- the idea that Christianity, a religion that she had regarded as problematic and sometimes downright damaging, might be right about who God was. That idea seemed to fly in the face of the people and causes that she most loved. What follows is a story of what she describes as a train wreck at the hand of the supernatural. These are her secret thoughts about those events, written as only a reflective English professor could.--Back cover.
