*Recommendations on the Transport of Dangerous Goods* United Nations, 2020-01-06 The Manual of Tests and Criteria contains criteria, test methods and procedures to be used for classification of dangerous goods according to the provisions of Parts 2 and 3 of the United Nations Recommendations on the Transport of Dangerous Goods, Model Regulations, as well as of chemicals presenting physical hazards according to the Globally Harmonized System of Classification and Labelling of Chemicals (GHS). As a consequence, it supplements also national or international regulations which are derived from the United Nations Recommendations on the Transport of Dangerous Goods or the GHS. At its ninth session (7 December 2018), the Committee adopted a set of amendments to the sixth revised edition of the Manual as amended by Amendment 1. This seventh revised edition takes account of these amendments. In addition, noting that the work to facilitate the use of the Manual in the context of the GHS had been completed, the Committee considered that the reference to the Recommendations on the Transport of Dangerous Goods in the title of the Manual was no longer appropriate, and decided that from now on, the Manual should be entitled Manual of Tests and Criteria.

**River of the Gods** Candice Millard, 2023-05-23 NEW YORK TIMES BESTSELLER • The harrowing story of one of the great feats of exploration of all time and its complicated legacy—from the New York Times bestselling author of *The River of Doubt* and *Destiny of the Republic* A BEST BOOK OF THE YEAR:

THE WASHINGTON POST • GOODREADS A lean, fast-paced account of the almost absurdly dangerous quest by [Richard Burton and John Speke] to solve the geographic riddle of their era. –The New York Times Book Review For millennia the location of the Nile River's headwaters was shrouded in mystery. In the 19th century, there was a frenzy of interest in ancient Egypt. At the same time, European powers sent off waves of explorations intended to map the unknown corners of the globe – and extend their colonial empires. Richard Burton and John Hanning Speke were sent by the Royal Geographical Society to claim the prize for England. Burton spoke twenty-nine languages, and was a decorated soldier. He was also mercurial, subtle, and an iconoclastic atheist. Speke was a young aristocrat and Army officer determined to make his mark, passionate about hunting, Burton's opposite in temperament and beliefs. From the start the two men clashed. They would endure tremendous hardships, illness, and constant setbacks. Two years in, deep in the African interior, Burton became too sick to press on, but Speke did, and claimed he found the source in a great lake that he christened Lake Victoria. When they returned to England, Speke rushed to take credit, disparaging Burton. Burton disputed his claim, and Speke launched another expedition to Africa to prove it. The two became venomous enemies, with the public siding with the more charismatic Burton, to Speke's great envy. The day before they were to publicly debate, Speke shot himself. Yet there was a third man on both expeditions, his name obscured by imperial annals,

whose exploits were even more extraordinary. This was Sidi Mubarak Bombay, who was enslaved and shipped from his home village in East Africa to India. When the man who purchased him died, he made his way into the local Sultan's army, and eventually traveled back to Africa, where he used his resourcefulness, linguistic prowess and raw courage to forge a living as a guide. Without Bombay and men like him, who led, carried, and protected the expedition, neither Englishman would have come close to the headwaters of the Nile, or perhaps even survived. In *River of the Gods* Candice Millard has written another peerless story of courage and adventure, set against the backdrop of the race to exploit Africa by the colonial powers.

It seems everyone—even his housekeeper Azalea—has it in for Vera. And at the gala, she gives them good reason, with a public display of rancor aimed at anyone who gets in her way. But those bitter words wind up being her last. When Charlie discovers Azalea standing over Vera's dead body, it's up to him—with a little help from Diesel—to clear Azalea's name, and catch a killer before his last chapter is finished.
