**Market Domination!** Stephen G. Hannaford, 2007-06-30 An oligopoly (from the Greek, few sellers) is a market that is dominated by a few large and powerful players. As Steve Hannaford documents with numerous examples, virtually every industry

today—from medical equipment to airlines, toy retailing to oil—is trending in this direction, in the greatest movement toward industry consolidation since the turn of the 20th century. Charting the course of this trend around the world, Hannaford examines the motivations behind consolidation resulting from mergers, acquisitions, buyouts, and alliances; how companies exert political pressure to their advantage; and how the actions of the most dominant players—such as Coca-Cola, Wal-Mart, Viacom, Dell, ExxonMobil, Citigroup, and others—affect the choices we make at the supermarket, the drugs we are prescribed, and the movies we watch. Everyone who reads the newspapers is aware of the dizzying pace of mergers, acquisitions, buyouts, and alliances, between big companies and small companies in every industry. Such deals, along with the growing social and political clout of the biggest companies, are critical issues for the economy and for our future as consumers. Charting the course of this trend around the world, Hannaford examines the motivations behind consolidation into corporate empires, how companies exert political pressure to their advantage, and how the actions of the most dominant players, such as Coca-Cola, Wal-Mart, Viacom, Dell, ExxonMobil, Citigroup, and others, affect the choices we have at the supermarket, the drugs we are prescribed, and the movies we watch. Considering the implications of industry concentration on competition, technological innovation, business management, strategy, consumer behavior, and politics, Hannaford paints a provocative, but ultimately balanced, picture of big business and its impact on society.

**Design Justice** Sasha Costanza-Chock, 2020-03-03 An exploration of how design might be led by marginalized communities, dismantle structural inequality, and advance collective liberation and ecological survival. What is the relationship between design, power, and social justice? “Design justice” is an approach to design that is led by marginalized communities and that aims explicitly to challenge, rather than reproduce, structural inequalities. It has emerged from a growing community of designers in various fields who work closely with social movements and community-based organizations around the world. This book explores the theory and practice of design justice, demonstrates how universalist design principles and practices erase certain groups of people—specifically, those who are intersectionally disadvantaged or multiply burdened under the matrix of domination (white supremacist heteropatriarchy, ableism, capitalism, and settler colonialism)—and invites readers to “build a better world, a world where many worlds fit; linked worlds of collective liberation and ecological sustainability.” Along the way, the book documents a multitude of real-world community-led design practices, each grounded in a particular social movement. Design Justice goes beyond recent calls for design for good, user-centered design, and employment diversity in the technology and design professions; it connects design to larger struggles for collective liberation and ecological survival.

**The Food Lover's Guide to Paris** Patricia Wells, 2014-03-11 The book that cracks the code, from the incomparable Patricia Wells. An acclaimed authority on French cuisine, Ms. Wells has spent more than 30 years in Paris, many as former restaurant critic for The International Herald Tribune. Now her revered Food Lover's Guide to Paris is back in a completely revised, brand-new edition. In 457 entries—345 new to this edition, plus 112 revisited and reviewed classics—The Food Lover's Guide to Paris offers an elegantly written go-to guide to the very best restaurants, cafés, wine bars, and bistros in Paris, as well as where to find the flakiest croissants, earthiest charcuteries, sublimest cheese, most ethereal macarons, and impeccable outdoor markets. The genius of the book is Ms. Wells's meritocratic spirit. Whether you're looking for a before-you-die Michelin three-star experience (Guy Savoy, perhaps, or Restaurant Alain Ducasse au Plaza Athénée) or wanting to sample the new bistronomy (Bistrot Paul Bert, Le Comptoir du Relais) or craving something simple and perfect (L'As du Fallafel, or Breizh Café for crêpes), Patricia

Wells tells you exactly where to go and why you should go there. You no longer have to rely on the iffy “reviews” of Yelp or Trip Advisor. Included are 40 recipes from some of her favorite chefs and purveyors and, of course, all the practical information: addresses, websites, email, hours, closest métro stop, specialties, and more.

**Digital Performance** Steve Dixon, 2015-01-30 The historical roots, key practitioners, and artistic, theoretical, and technological trends in the incorporation of new media into the performing arts. The past decade has seen an extraordinarily intense period of experimentation with computer technology within the performing arts. Digital media has been increasingly incorporated into live theater and dance, and new forms of interactive performance have emerged in participatory installations, on CD-ROM, and on the Web. In *Digital Performance*, Steve Dixon traces the evolution of these practices, presents detailed accounts of key practitioners and performances, and analyzes the theoretical, artistic, and technological contexts of this form of new media art. Dixon finds precursors to today's digital performances in past forms of theatrical technology that range from the *deus ex machina* of classical Greek drama to Wagner's *Gesamtkunstwerk* (concept of the total artwork), and draws parallels between contemporary work and the theories and practices of Constructivism, Dada, Surrealism, Expressionism, Futurism, and multimedia pioneers of the twentieth century. For a theoretical perspective on digital performance, Dixon draws on the work of Philip Auslander, Walter Benjamin, Roland Barthes, Jean Baudrillard, and others. To document and analyze contemporary digital performance practice, Dixon considers changes in the representation of the body, space, and time. He considers virtual bodies, avatars, and digital doubles, as well as performances by artists including Stelarc, Robert Lepage, Merce Cunningham, Laurie Anderson, Blast Theory, and Eduardo Kac. He investigates new media's novel approaches to creating theatrical spectacle, including virtual reality and robot performance work, telematic performances in which remote locations are linked in real time, Webcams, and online drama communities, and considers the extratemporal illusion created by some technological theater works. Finally, he defines categories of interactivity, from navigational to participatory and collaborative. Dixon challenges dominant theoretical approaches to digital performance—including what he calls postmodernism's denial of the new—and offers a series of boldly original arguments in their place.

*The Burnout Society* Byung-Chul Han, 2015-08-12 Our competitive, service-oriented societies are taking a toll on the late-modern individual. Rather than improving life, multitasking, user-friendly technology, and the culture of convenience are producing disorders that range from depression to attention deficit disorder to borderline personality disorder. Byung-Chul Han interprets the spreading malaise as an inability to manage negative experiences in an age characterized by excessive positivity and the universal availability of people and goods. Stress and exhaustion are not just personal experiences, but social and historical phenomena as well. Denouncing a world in which every against-the-grain response can lead to further disempowerment, he draws on literature, philosophy, and the social and natural sciences to explore the stakes of sacrificing intermittent intellectual reflection for constant neural connection.

Women, Mothers, Subjects Maura Sheehy, 2015-10-14 This collection, drawn from twelve years of the influential journal *Studies in Gender and Sexuality*, offers a groundbreaking advance in thinking and theorizing about what happens to women when they become mothers. It explores how women are changed and shaped by interaction with their children and the cultural constructs about motherhood in which they are embedded. Distinguished psychoanalysts, philosophers, feminists, gender and cultural theorists explore the meeting place of cultural representations of motherhood, maternal theory, and mothers interacting in the clinical setting and with their children, to illuminate how the process of becoming a mother creates and informs female subjectivity, identity, desire, expression, aggression, ambition, shame, envy, and relationships. Contributors find mothers to be complex subjects negotiating rich hybrid identities that explode received notions of maternal and even female subjectivity in their complexity. They create an exciting and very accessible new set of ideas and templates for thinking about mothers and women that will be of value to clinicians, academics, and mothers alike. This book was originally published as a special issue of *Studies in Gender and Sexuality*.

**Human Rights in the Americas** María Herrera-Sobek, Francisco Lomelí, Luz Angélica Kirschner, 2021-02-25 This interdisciplinary book explores human rights in the Americas from multiple perspectives and fields. Taking 1492 as a point of departure, the text explores Eurocentric historiographies of human rights and offer a more complete understanding of the genealogy of the human rights discourse and its many manifestations in the Americas. The essays use a variety of approaches to reveal the larger contexts from which they emerge, providing a cross-sectional view of subjects, countries, methodologies and foci explicitly dedicated toward understanding historical factors and circumstances that have shaped human rights nationally and internationally within the Americas. The chapters explore diverse cultural, philosophical, political and literary expressions where human rights discourses circulate across the continent taking into consideration issues such as race, class, gender, genealogy and nationality. While acknowledging the ongoing centrality of the nation, the volume promotes a shift in the study of the Americas as a dynamic transnational space of conflict, domination, resistance, negotiation, complicity, accommodation, dialogue, and solidarity where individuals, nations, peoples, institutions, and intellectual and political movements share struggles, experiences, and imaginaries. It will be of interest to all scholars and students of InterAmerican studies and those from all disciplines interested in Human Rights.
