Cases on Formal and Informal E-Learning Environments: Opportunities and Practices Yang, Harrison Hao,2012-07-31 Today, the online sphere is no longer just an information repository or a place to search for resources. It has become instead a place supporting both intentional and non-intentional learning. Intentional, formal learning, often leads to certification, whereas informal learning is unstructured and takes place as part of daily work-related or leisure activities. Cases on Formal and Informal E-Learning Environments: Opportunities and Practices brings together cases outlining the practical aspect of formal, non-formal, and informal online learning. This book introduces conceptual aspects of these types of learning, knowledge-base, new learning paradigms, policy implications, evaluation and concerns, design, and development of online learning.

The Alcalde ,1995-07 As the magazine of the Texas Exes, The Alcalde has united alumni and friends of The University of Texas at Austin for nearly 100 years. The Alcalde serves as an intellectual crossroads where UT's luminaries - artists, engineers, executives, musicians, attorneys, journalists, lawmakers, and professors among them - meet bimonthly to exchange ideas. Its pages also offer a place for Texas Exes to swap stories and share memories of Austin and their alma mater. The magazine's unique name is Spanish for mayor or chief magistrate; the nickname of the governor who signed UT into existence was The Old Alcalde.

Race, Identity, and Representation in Education Warren Crichlow,2013-05-13 This stunning new edition retains the book's broad aims, intended audience, and multidisciplinary approach. New chapters take into account the more current backdrop of globalization, particularly events such as 9/11, and attendant developments that make a reconsideration of race relations in education quite urgent.

The Pedagogical Wallpaper Jeffrey Andrew Weinstock,2003 Charlotte Perkins Gilman's «The Yellow Wall-paper» is one of the most frequently taught short stories in secondary and college classrooms around the world. What is especially unusual about the text is the large variety of academic contexts in which the story is included. The Pedagogical Wallpaper provides educators, students, and researchers with accessible and practical approaches to the story, with an emphasis on the text as a tool for teaching. The classroom contexts address women's studies, freshman composition, literary theory, philosophy, and genre studies. In addition, the text details how to make use of a MOO space to allow students to engage directly with Gilman's story through the use of computer mediation.

Drama Education with Digital Technology Michael Anderson,David Cameron,John Carroll,2011-10-20 Drama Education with Digital Technology explores the rapidly evolving intersections between drama, digital gaming, technology and teaching. It documents the praxis (practice and research) that move beyond anecdotal discussion of approaches and design. The contributors explore the realities of teaching an ancient aesthetic form in classrooms full of technologically able students. It also examines cases from classroom practice to present teaching, with approaches and understandings that are based on evidence and supported by cutting edge learning theory from educational leaders in drama and technology.

Data Strategies to Uncover and Eliminate Hidden Inequities Ruth S. Johnson,Robin Avelar La Salle,2010-08-04 Uncover buried data to close the achievement gap! Standardized test scores only reveal part of the story. Many hidden factors contribute to the achievement gap and chronic low school performance. The authors dramatically illustrate how to mine data from nontraditional sources—disciplinary policies, teacher attendance, special education referrals, and more—to uncover and eliminate systemic inequities. This solution-focused guide helps teachers and leaders: Ask the right questions Verify data that affects graduation rates, special education placement, and the achievement of English learners Effectively analyze data to improve student achievement Challenge the status quo and take action

In Teen Cyberbullying Investigated, Judge Tom Jacobs presents a powerful collection of landmark court cases involving teens and charges of cyberbullying, which includes: sending insulting or threatening emails, text, or instant messages directly to

someone; spreading hateful comments about someone through emails, blogs, or chat rooms; stealing passwords and sending out threatening messages using a false identity; and building a Web site to target specific people. Sacred and Secular Tensions in Higher Education Michael D. Waggoner,2011-03-01 Both sacred and secular worldviews have long held a place in U.S. higher education, although non-religious perspectives have been privileged in most institutions in the modern era. *Sacred and Secular Tensions in Higher Education* illustrates the importance of cultivating multiple worldviews at public, private, and faith-based colleges and universities in the interest of academic freedom, and intellectual and moral dialogue. Contributors to this edited collection argue that sacred perspectives are as integral to contemporary higher education in the United States as the more dominant secular perspectives. The debates and issues addressed in this book attempt to rebalance the dialogue and place an emphasis on pluralism, rather than declare victory of one paradigm over the other. Student affairs administrators, higher education and religious studies faculty, and campus ministers and chaplains will benefit from better understanding the interplay of these sometimes competing and sometimes complementary ideas on campus, and the impact of the debate on the lives of faculty, students, and staff.
