Jeremy Davis, Timothy Michael Devinney

The 30 Day MBA Colin Barrow, 2019-01-03 If you want to accelerate your career development and transform your skillset, but without the price tag and two-year commitment of the MBA, this is the book for you. The 30 Day MBA covers the 12 core disciplines of business: accounting, finance, marketing, organizational behaviour, business history, business law, economics, entrepreneurship, ethics and social responsibility, operations management, research and analysis and strategy. It provides the tools and techniques you need to seize business opportunities and implement strategies successfully. Complex concepts are explained in simple and practical terms, helping you to apply high level concepts to the real-life world of business. The 30 Day MBA also contains insightful case studies from leading organizations including IKEA, Cisco, Cobra Beer, Heinz, Shell, Hotel Chocolat and Chilango, to help keep you right up-to-the-minute with current trends and inspire you to explore new concepts. This book equips you with essential hard knowledge, but also helps you understand how business and current thinking is shifting in today's turbulent global markets, and broadens your mind with the knowledge and confidence to excel in a competitive career.

Strategic Management Paul N. Finlay, 2000

Business Strategies in Transition Economies Michael W. Peng, 1999-09-30 This is the first book to comprehensively summarize and extend cutting strategy research with a focus on transition economies. It provides a readable and refreshing overview for seasoned scholars and executives working in this field, as well as valuable insights for newcomers. The book combines theoretical rigor with up-to-date evidence on a highly relevant topic. Mike Peng is already one of the world's leading strategy and management scholars working on transition and emerging economies, and this book adds significantly to his standing. —John Child, Guinness Professor of Management Studies, University

of Cambridge, England and Visiting Professor of International Management, Tel-Aviv University, Israel

The widespread shift from centrally planned to market-based economies has been the most profound change in the world economy since World War II. While a great deal of work has examined the broad economic implications of this transition, far less work has examined its implications for firms and managers. In this seminal work, Professor Peng draws on his extensive experience in transition economics, together with his knowledge of strategic management, to describe how firms in these economies can seize opportunities for growth and success. —Jay Barney, Bank One Professor of Corporate Strategy, Ohio State University

A welcome contribution towards our understanding of firm – level issues in transition economies. A particular strength is the chapter-by-chapter consideration of how strategies vary depending on whether one is a state-owned enterprise, a privatized firm, an entrepreneurial start-up, or a foreign investor. —Paul Beamish, Royal Bank Professor of International Business, University of Western Ontario, Canada

A comprehensive account of transition economies from a firm strategy perspective. Thoroughly researched and thought provoking, this book is a most valuable tool for both academics and business executives seeking to operate in this promising yet uncertain territory. —Oded Shenkar, Ford Motor Professor of Global Management, Ohio State University and Professor of International Management and Tel-Aviv University, Israel

Business Strategies in Transition Economies probes into the workings of business strategies in former socialist countries in East Asia, Central and Eastern Europe, and the newly independent states of the former Soviet Union, which are collectively called transition economies. It provides a rich and in-depth understanding of fundamental strategic issues confronted by domestic and foreign firms competing in these newly opened markets. Written by one of the leading scholars in the field, this timely book is comparative, interdisciplinary, and relevant. Focusing on firm-level issues confronting top executives

acting as organizational strategists in transition economies, this book covers business strategies of 1.) state-owned enterprises, 2.) privatized and reformed firms, 3.) entrepreneurial start-ups, and 4.) foreign companies. Since transition economies, taken together, promise to be the world's largest emerging markets in the 21st century, this book will be an invaluable resource for students, scholars, and managers seeking a better understanding of business challenges and opportunities in these markets.

Corporate Strategy John L. Colley, Jacqueline Doyle, Robert D. Hardie, 2002 THE MCGRAW-HILL EXECUTIVE MBA SERIES Executive education is suddenly every CEO's favorite strategic weapon. -- BusinessWeek Now repackaged in easily transportable paperback editions, these informative titles--written by frontline executive education professors and modeled after the programs of the nation's top business schools--will find new popularity with today's on-the-go, every-second-counts executive.

The Portable MBA Eliza G. C. Collins, Mary Anne Devanna, 1990 Very Good, No Highlights or Markup, all pages are intact.

The 30 Day MBA Colin Barrow, 2011-08-03 Drawing on the twelve core disciplines of business, including business law, economics, marketing and finance, this second edition of the hugely successful *The 30 Day MBA* shows you to use key business concepts and tools to assess business decisions and implement strategy. You will be able to create your own Management Information Resource Centre, giving you access to business information on markets and competitors, research data and case studies, as well as hundreds of free business tools to help you carry out analyses. Importantly it will equip you with the knowledge and confidence to take part in strategic decisions alongside MBA graduates. Now including a thorough explanation of the 'break-even' analysis - the tool for making cost, volume, pricing and profit decisions - and case studies detailing economically

resilient brands with particular focus on developing countries, The 30 Day MBA, second edition places MBA skills within reach of all professionals and students.

Designing World Class Corporate Strategies Keith Ward, Andrew Kakabadse, Cliff Bowman, 2005-05-12 Designing World Class Corporate Strategies considers the key role of corporate centres within very large, primarily multi-business organisations. At present, these corporate centres are under attack as not creating and value and merely adding cost to their groups. The authors have developed a corporate configurations model which demonstrates four ways in which corporate centres can add significant value. However this requires the centre to act in specific ways depending on the external environment in which the group is operating. Designing World Class Corporate Strategies is highly readable, with a large number of illustrative examples included in the text. Academic references and theoretical underpinnings are placed in the final chapter of the book, so that the book is focused on the professional market for strategy and creating value.

Strategy Bob de Wit, Ron Meyer, 2010 Conventional strategic management education is dominated by a standard formula that uses a misleadingly simplistic step-by-step approach, presents few competing perspectives, glosses over key debates, and is typically biased towards a particular national or regional context. De Wit and Meyer's best-selling *Strategy* takes a strikingly different approach that has helped thousands of students and professionals around the world develop into critical and creative strategic thinkers. By carefully guiding students through diverse perspectives, De Wit and Meyer show how, more than ever, robust strategy requires an open understanding of different ways of looking at strategic issues.

Short Introduction to Strategic Management Torben Juul Andersen, 2013-07-09 The Short

Introduction to Strategic Management provides an authoritative yet accessible account of strategic management and its contemporary challenges. It explains the roots and key rationales of the strategy field, discussing common models, tools and practices, to provide a complete overview of conventional analytical techniques in strategic management. Andersen extends the discussion to consider dynamic strategy making and how it can enable organizations to respond effectively to turbulent and unpredictable global business environments. There is a specific focus on multinational corporate strategy issues relevant to organizations operating across multiple international markets. Written in a clear and direct style, it will appeal to students and practising managers and executives alike.

A rich companion website with downloadable tools, case materials and current examples from the media is also included.

Strategy Synthesis Bob de Wit,Ron Meyer,2014 Now in its fourth edition, *Strategy Synthesis* takes a truly global perspective. Retaining the unique 'paradox' approach of the previous editions whereby a series of contrasting viewpoints are provided to invite student and professional discussion and debate, this new edition takes the approach one step further to acknowledge the developmental role which China and India have had in the business world, and includes strategic thinking philosophies from these countries.Unlike many other books on the subject, the philosophy at the heart of Bob de

Wit's Strategy Synthesis text is that an understanding of the topic of strategy can only be gained by grappling with a wider diversity of insights from many prominent thinkers, and the clear recognition that there is no simple answer to the question of what strategy is. This new edition bridges West and East, North and South, with examples, short cases, quotes, and insights from around the globe.

The Essence of Corporate Strategy Jeremy Davis, Timothy Michael Devinney, 1997 A holistic, comprehensive and applied expression of essential strategic thinking, conceived specially for corporate strategists, advisers and MBA study.

Brilliant Strategy for Business Chris Dalton, 2016-02-10 In Business, strategy is king. Leadership and hard work are all very well and luck is mighty useful, but it is strategy that makes or breaks a business, organisation or team. Of course, it is easier to talk a good strategic game than it is to execute one. This book will help you turn your words into effective and successful actions.
