Applying MBA Knowledge and Skills to Healthcare Reza Nassab,Vaikunthan Rajaratnam,Michael Loh,2011 Clinicians increasingly need a firm grasp of the fundamental principles of business management, finance and related subjects. Even so, business disciplines are still rarely taught during medical training, while busy practices and complicated accounting tasks mean that gaining business acumen 'on the job' is impractical for many. As a result, increasing numbers of clinicians learn the skills they need by taking an MBA (Masters in Business Administration). While an MBA may be the answer for some, the formidable costs and time commitment it demands leave many busy practitioners seeking more accessible options. This book provides a readable, tightly organised alternative - a primer on MBA principles and their practical application. Twelve compact, carefully structured modules cover the entire gamut of a business education, from basic finance and accounting principles, to strategic management methods and leadership theories. Unlike some similar texts, this book is designed to be light in tone, easy to read and digest, and thoroughly practical. Busy clinicians, academic surgeons, administrative physicians and other healthcare professionals will find this an invaluable resource in understanding the core principles of business management. Allied

medical professionals, and nurses will also find it useful, as will interview candidates who increasingly face management questions as part of selection processes. 'An invaluable resource in understanding the core principles of business management, and in learning how to apply them. For busy clinicians, the value proposition is enormous in terms of the knowledge gained, versus the amount of reading required to capture what the authors have so capably managed to distill between the covers. The authors have done a remarkable task in capturing the latest concepts and thinking in the business management arena [and] the essence of an entire MBA education, and customise it for healthcare professionals. A delight.' From the Foreword by B Sonny Bal

The MBA Distilled for Project & Program Professionals

The 12-Week MBA Bjorn Billhardt, Nathan

Kracklauer, 2024-02-06 Based on award-winning leadership development programs experienced by over 100,000 professionals at Fortune Global 500 companies, The 12-Week MBA offers practical tips for aspiring business leaders while making an impassioned case for a new approach to management education. Getting an MBA takes time and money, making it inaccessible to many people who want to take charge in the

business world. The 12-Week MBA offers an alternative way to learn business essentials by focusing on the skills and knowledge required to succeed as both a manager and a business leader. The 12-Week MBA's unique premise is that business leaders in any industry, any function, and at any level need the same core knowledge, skills, and attitudes to effectively manage and lead. That core consists of working through and with other people to create value while using financial concepts and metrics to maximize the value created for all company stakeholders. The timeless essence of managing numbers and leading people can be learned in less time and at a lower cost than in a traditional two-year MBA, where much of the curriculum may become obsolete by the time students graduate. Authors Bjorn Billhardt and Nathan Kracklauer are senior executives at Abilitie, a global leadership development company that has served over 100,000 learners in fifty countries. Abilitie's clients include some of the world's most recognizable brands such as Coca-Cola, The New York Times, and Dell. Now the key lessons from Abilitie's 12-Week MBA curriculum are available in this accessible and engaging guide.
