Countdown Deborah Wiles,2016-04-26 The story of a formative year in 12-year-old Franny Chapman's life, and the life of a nation facing the threat of nuclear war. Franny Chapman just wants some peace. But that's hard to get when her best friend is feuding with her, her sister has disappeared, and her uncle is fighting an old war in his head. Her saintly younger brother is no help, and the cute boy across the street only complicates things. Worst of all, everyone is walking around just waiting for a bomb to fall. It's 1962, and it seems that the whole country is living in fear. When President Kennedy goes on television to say that Russia is sending nuclear missiles to Cuba, it only gets worse. Franny doesn't know how to deal with what's going on in the world -- no more than she knows how to deal with what's going on with her family and friends. But somehow she's got to make it through. Featuring a captivating story interspersed with footage from 1962, award-winning author Deborah Wiles has created a documentary novel that will put you right alongside Franny as she navigates a dangerous time in both her history and our history.

The 2030 Spike Colin Mason,2013-06-17 The clock is relentlessly ticking! Our world teeters on a knife-edge between a peaceful and prosperous future for all, and a dark winter of death and destruction that threatens to smother the light of civilization. Within 30 years, in the 2030 decade, six powerful 'drivers' will converge with unprecedented force in a statistical spike that could tear humanity apart and plunge the world into a new Dark Age. Depleted fuel supplies, massive population growth, poverty, global climate change, famine, growing water shortages and international lawlessness are on a crash course with potentially catastrophic consequences. In the face of both doomsaying and denial over the state of our world, Colin Mason cuts through the rhetoric and reams of conflicting data to muster the evidence to illustrate a broad picture of the world as it is, and our possible futures. Ultimately his message is clear; we must act decisively, collectively and immediately to alter the trajectory of humanity away from catastrophe. Offering over 100 priorities for immediate action, The 2030 Spike serves as a guidebook for humanity through the treacherous minefields and wastelands ahead to a bright, peaceful and prosperous future in which all humans have the opportunity to thrive and build a better civilization. This book is powerful and essential reading for all people concerned with the future of humanity and planet earth.

Long Way Down Jason Reynolds,2017-10-24 “An intense snapshot of the chain reaction caused by pulling a trigger.” –Booklist (starred review) “Astonishing.” –Kirkus Reviews (starred review) “A tour de force.” –Publishers Weekly (starred review) A Newbery Honor Book A Coretta Scott King Honor Book A Printz Honor Book A Time Best YA Book of All Time (2021) A Los Angeles Times Book Prize Winner for Young Adult Literature Longlisted for the National Book Award for Young People’s Literature Winner of the Walter Dean Myers Award An Edgar Award Winner for Best Young Adult Fiction Parents’ Choice Gold Award Winner An Entertainment Weekly Best YA Book of 2017 A Vulture Best YA Book of 2017 A Buzzfeed Best YA Book of 2017 An ode to Put the Damn Guns Down, this is New York Times bestselling author Jason Reynolds’s electrifying novel that takes place in sixty potent seconds—the time it takes a kid to decide whether or not he’s going to murder the guy who killed his brother. A cannon. A strap. A piece. A biscuit. A burner. A heater. A chopper. A gat. A hammer A tool for RULE Or, you can call it a gun. That’s what fifteen-year-old Will has shoved in the back waistband of his jeans. See, his brother Shawn was just murdered. And Will knows the rules. No crying. No snitching. Revenge. That’s where Will’s now heading, with that gun shoved in the back waistband of his jeans, the gun that was his brother’s gun. He gets on the elevator, seventh floor, stoked. He knows who he’s after. Or does he? As the elevator stops on the sixth floor, on comes Buck. Buck, Will finds out, is who gave Shawn the gun before Will took the gun. Buck tells Will to check that the gun is even loaded. And that’s when Will sees that one bullet is missing. And the only one who could have fired Shawn’s gun was Shawn. Huh. Will didn’t know that Shawn had ever actually USED his gun. Bigger huh. BUCK IS DEAD. But Buck’s in the elevator? Just as Will’s trying to think this through, the door to the next floor opens. A teenage girl gets on, waves away the smoke from Dead Buck’s cigarette. Will doesn’t know her, but she knew him. Knew. When they were eight. And stray bullets had cut through the playground, and Will had tried to cover her, but she was hit anyway, and so what she wants to know, on that fifth floor elevator stop, is, what if Will, Will with the gun shoved in the back waistband of his jeans, MISSES. And so it goes, the whole long way down, as the elevator stops on each floor, and at each stop someone connected to his brother gets on to give Will a piece to a bigger story than the one he thinks he knows. A story that might never know an END...if Will gets off that elevator. Told in short, fierce staccato narrative verse, Long Way Down is a fast and furious, dazzlingly brilliant look at teenage gun violence, as could only be told by Jason Reynolds.

Presidents and Foreign Policy Edward R. Drachman, Alan Shank, 1997-04-25 Presidents and Foreign Policy examines countdowns to ten important and controversial decisions in the post-World War II period, using the case study approach. The authors include one major controversy for each president from Truman to Clinton. The cases cover central issues of diplomacy, war and peace, and covert action that shaped the Cold War period and its aftermath in all major areas of the world. After reviewing the historical background of each decision, each case examines the foreign and domestic policy context, the effectiveness of presidential decision-making, and results of the decision. The reader is challenged to think about each decision by responding to a unique evaluation scheme the authors developed and tested.

Law, Lawyering and Legal Education Charles Sampford, Hugh Breakey, 2016-10-04 Once a highly cosmopolitan profession, law was largely domesticated by the demands of the Westphalian state. But as the walls between sovereign states are lowered, law is globalizing in a way that is likely to change law, lawyering and legal education as much over the next 30 years – when the students entering law schools today reach the peak of their profession – as it has over the last 300. This book provides a sustained investigation of the theoretical and practical aspects of legal practice and education, synthesizing and developing nearly thirty years of Professor Sampford's critical thought, analysis and academic leadership. The book features two major areas of investigation. First, it explains the significance of the 'critical', 'theoretical' and 'ethical' dimensions of legal education and legal practice in making more effective practitioners – placing ethics and values at the heart of the profession. Second, it explores the old/new challenges and opportunities for ethical lawyers. Challenges include those for lawyers working in large organisations dealing with issues from international tax minimisation to advising governments bent on war. Opportunities range from the capacity to give client's ethical advice to playing a key role in the emergence of an international rule of law as they had to the 'domestic' rule of law. The book should stimulate great interest and occasional passion for legal practitioners, students, teachers and researchers of law, lawyering, legal practice and legal institutions. Its interdisciplinary approaches should be of interest to those with interests in education theory, international relations, political science and government, professional ethics, sociology, public policy and governance studies.
