River Plants of Western Europe S. M. Haslam, 2014-05-08 Originally published in 1987, this book describes and discusses the vegetation of rivers and other watercourses in Europe with an emphasis upon distributional, community and historical ecology. It was firmly based upon many years of field investigations carried out by the author in various countries in the European Economic Community. The main purpose of the text was to increase the understanding of river vegetation in relation to the varying physical characteristics of the watercourses. The rivers of the EEC are considered in detail, with an emphasis upon the influences of landscape, geology, climate, settlement patterns, water use and management and pollution. This book will be of value to anyone with an interest in river botany.

Talbot Mundy Biblio Various,2022-07-20 This is a bibliography of the works of the author Talbot Mundy (born William Lancaster Gribbon) compiled and edited by Bradford M. Day. Talbot Mundy was born in London in 1879. He served nearly ten years, beginning in 1900, as a government official in Africa and India. While in India, he wandered all over the sub-continent on horseback, and even into Tibet. Fascinated by Eastern occult lore, Mundy absorbed all he could learn of the Indian beliefs. Government service next brought him to Africa where his interest in folk tales on magic continued. Mundy also visited Australia, and Mexico as far south as Yucatan. He first arrived in the United States in 1911, and liked the country so much that he decided to stay and become a citizen. Mundy quickly turned his energies to writing, and an article, Pig Sticking in India, was accepted and published in the April 1911 issue of Adventure Magazine. More articles soon followed. For years thereafter, Adventure had short stories, novelettes, novels, and serials by this master teller of tales in most of the issues that were printed.
