

Cowboy 21

G. A. Henty

The 21st Century Cowboy ,

The Wild, Wild West (Geronimo Stilton #21) Geronimo Stilton, 2011-11-01 Enter the world of Geronimo Stilton, where another funny adventure is always right around the corner. Each book is a fast-paced adventure with lively art and a unique format kids 7-10 will love. Jumpin' gerbil babies, I was so excited! I was heading to America for the first time ever. Thea, Trap, and Benjamin were all coming with me. And we were going to visit a real ranch and go riding and herding cattle cowboy-style! It was sure to be my most whisker-licking-good adventure yet.***This is the first Geronimo adventure set in the U.S. and written specifically for the U.S. market.***

American Cowboy , 2005-05 Published for devotees of the cowboy and the West, American Cowboy covers all aspects of the Western lifestyle, delivering the best in entertainment, personalities, travel, rodeo action, human interest, art, poetry, fashion, food, horsemanship, history, and every other facet of Western culture. With stunning photography and you-are-there reportage, American Cowboy immerses readers in the cowboy life and the magic that is the great American West.

Postmodern Cowboy Keith Kerr, 2015-11-17 More than 50 years ago, C. Wright Mills heralded a new age for sociology for the 1960s and beyond. Yet his forward-looking vision also foretold some of the social conditions we associate, more recently, with postmodern society. This intellectual biography of Mills emphasizes early life experiences that shaped Mills's expansive vision of the future, just as Kerr develops, from Mills, tools for confronting current and looming problems. Drawing upon little-known documents, Kerr expands our knowledge about this leading 20th-century sociologist, and shows how forward-looking Millsian scholarship can enhance the endeavors of sociology today.

Cowboy Presidents David A. Smith, 2021-02-11 For an element so firmly fixed in American culture, the frontier myth is surprisingly flexible. How else to explain its having taken two such different guises in the twentieth century—the progressive, forward-looking politics of Rough Rider president Teddy Roosevelt and the conservative, old-fashioned character and Cold War politics of Ronald Reagan? This is the conundrum at the heart of *Cowboy Presidents*, which explores the deployment and consequent transformation of the frontier myth by four U.S. presidents: Theodore Roosevelt, Lyndon B. Johnson, Ronald Reagan, and George W. Bush. Behind the shape-shifting of this myth, historian David A. Smith finds major events in American and world history that have made various aspects of the “Old West” frontier more relevant, and more useful, for promoting radically different political ideologies and agendas. And these divergent adaptations of frontier symbolism have altered the frontier myth. Theodore Roosevelt, with his vigorous pursuit of an activist federal government, helped establish a version of the frontier myth that today would be considered liberal. But then, Smith shows, a series of events from the Lyndon Johnson through Jimmy Carter presidencies—including Vietnam, race riots, and stagflation—seemed to give the lie to the progressive frontier myth. In the wake of these crises, Smith’s analysis reveals, the entire structure and popular representation of frontier symbols and images in American politics shifted dramatically from left to right, and from liberal to conservative, with profound implications for the history of American thought and presidential politics. The now popular idea that “frontier American” leaders and politicians are naturally Republicans with conservative ideals flows directly from the Reagan era. *Cowboy Presidents* gives us a new, clarifying perspective on how Americans shape and understand their national identity and sense of purpose; at the same time, reflecting on the essential mutability of a quintessentially national myth, the book suggests that the next iteration of the frontier myth may well be on the horizon.

The Creation of the Cowboy Hero Jeremy Agnew, 2014-11-19 As business interests have commercialized the American West and publishers and studios have created compelling imagery, the expectations of readers and moviegoers have influenced perceptions of the cowboy as a hero. This book describes the evolution of the cowboy hero as a mythic persona created by dime novels, television and Hollywood. Much of our concept of the cowboy

comes to us from movies and the book's main focus is his changing image in cinema. The development of the hero image and the fictional West is traced from early novels and films to the present, along with shifting audience expectations and economic pressures.

The Log of a Cowboy Andy Adams, 2018-02-06
