The New Orleans Voodoo Handbook Kenaz Filan, 2011-08-16 A guide to the practices, tools, and rituals of New Orleans Voodoo as well as the many cultural influences at its origins • Includes recipes for magical oils, instructions for candle workings, and directions to create gris-gris bags and Voodoo dolls to attract love, money, justice, and healing and for retribution • Explores the major figures of New Orleans Voodoo, including Marie Laveau and Dr. John • Exposes the diverse ethnic influences at the core of Voodoo, from the African Congo to Catholic immigrants from Italy, France, and Ireland One of America's great native-born spiritual traditions, New Orleans Voodoo is a religion as complex, free-form, and beautiful as the jazz that permeates this steamy city of sin and salvation. From the French Quarter to the Algiers neighborhood, its famed vaulted cemeteries to its infamous Mardi Gras celebrations, New Orleans cannot escape its rich Voodoo tradition, which draws from a multitude of ethnic sources, including Africa, Latin America, Sicily, Ireland, France, and Native America. In *The New Orleans Voodoo Handbook*, initiated Vodou priest Kenaz Filan covers the practices, tools, and

rituals of this system of worship as well as the many facets of its origins. Exploring the major figures of New Orleans Voodoo, such as Marie Laveau and Dr. John, as well as Creole cuisine and the wealth of musical inspiration surrounding the Mississippi Delta, Filan examines firsthand documents and historical records to uncover the truth behind many of the city's legends and to explore the oft-discussed but little-understood practices of the root doctors, Voodoo queens, and spiritual figures of the Crescent City. Including recipes for magical oils, instructions for candle workings, methods of divination, and even directions to create gris-gris bags, mojo hands, and Voodoo dolls, Filan reveals how to call on the saints and spirits of Voodoo for love, money, retribution, justice, and healing.

I Love Jesus, But I Want to Die Sarah J. Robinson, 2021-05-11 A compassionate, shame-free guide for your darkest days “A one-of-a-kind book . . . to read for yourself or give to a struggling friend or loved one without the fear that depression and suicidal thoughts will be minimized, medicalized or over-spiritualized.”—Kay Warren, cofounder of Saddleback Church What happens when loving Jesus doesn't cure you of depression, anxiety, or suicidal thoughts? You might be crushed by shame over

your mental illness, only to be told by well-meaning Christians to “choose joy” and “pray more.” So you beg God to take away the pain, but nothing eases the ache inside. As darkness lingers and color drains from your world, you’re left wondering if God has abandoned you. You just want a way out. But there’s hope. In *I Love Jesus, But I Want to Die*, Sarah J. Robinson offers a healthy, practical, and shame-free guide for Christians struggling with mental illness. With unflinching honesty, Sarah shares her story of battling depression and fighting to stay alive despite toxic theology that made her afraid to seek help outside the church. Pairing her own story with scriptural insights, mental health research, and simple practices, Sarah helps you reconnect with the God who is present in our deepest anguish and discover that you are worth everything it takes to get better. Beautifully written and full of hard-won wisdom, *I Love Jesus, But I Want to Die* offers a path toward a rich, hope-filled life in Christ, even when healing doesn’t look like what you expect.

In Praise of Copying Marcus Boon, 2010 This book is devoted to a deceptively simple but original argument: that copying is an essential part of being human, that the ability to copy is worthy of celebration, and that, without recognizing how integral copying is to being human, we cannot understand ourselves or the world we live in. In spite of the laws, stigmas, and anxieties attached to it, the word “copying” permeates contemporary culture, shaping discourse on issues from hip hop to digitization to gender reassignment, and is particularly crucial in legal debates concerning intellectual property and copyright. Yet as a philosophical concept, copying remains poorly understood. Working comparatively across cultures and times, Marcus Boon undertakes an examination of what this word means—historically, culturally, philosophically—and why it fills us with fear and fascination. He argues that the dominant legal-political structures that define copying today obscure much broader processes of imitation that have constituted human communities for ages and continue to shape various

subcultures today. Drawing on contemporary art, music and film, the history of aesthetics, critical theory, and Buddhist philosophy and practice, *In Praise of Copying* seeks to show how and why copying works, what the sources of its power are, and the political stakes of renegotiating the way we value copying in the age of globalization.

Scoring the Screen Andy Hill,2017-07-01 **SCORING THE SCREEN: THE SECRET LANGUAGE OF FILM MUSIC** Today, musical composition for films is more popular than ever. In professional and academic spheres, media music study and practice are growing; undergraduate and postgraduate programs in media scoring are offered by dozens of major colleges and universities. And increasingly, pop and contemporary classical composers are expanding their reach into cinema and other forms of

screen entertainment. Yet a search on Amazon reveals at least 50 titles under the category of film music, and, remarkably, only a meager few actually allow readers to see the music itself, while none of them examine landmark scores like *Vertigo*, *To Kill a Mockingbird*, *Patton*, *The Untouchables*, or *The Matrix* in the detail provided by *Scoring the Screen: The Secret Language of Film Music*. This is the first book since Roy M. Prendergast's 1977 benchmark, *Film Music: A Neglected Art*, to treat music for motion pictures as a compositional style worthy of serious study. Through extensive and unprecedented analyses of the original concert scores, it is the first to offer both aspiring composers and music educators with a view from the inside of the actual process of scoring-to-picture. The core thesis of *Scoring the Screen* is that music for motion pictures is indeed a language, developed by the masters of the craft out of a dramatic and commercial necessity to communicate ideas and emotions instantaneously to an audience. Like all languages, it exists primarily to convey meaning. To quote renowned orchestrator Conrad Pope (who has worked with John Williams, Howard Shore, and Alexandre Desplat, among others): "If you have any interest in what music 'means' in film, get this

book. Andy Hill is among the handful of penetrating minds and ears engaged in film music today.”

The List Karin Tanabe, 2013-02-05 From a former Politico reporter, a fast-paced debut novel about a young journalist at D.C.’s hottest (and most cut-throat) political rag who uncovers a scandal sure to turn the Beltway inside out. Meet Adrienne Brown, a twenty-eight-year-old Wellesley College grad who recently left her glamorous job at Town & Country for a spot at the Capitolist. Known simply as the List to Beltway insiders, it’s the only media outlet in D.C. that’s actually on the rise. Taking the job means accepting a painful pay cut, giving up perks like free Louboutins, and moving back in with her parents, but Adrienne is certain that her new position will be the making of her career. And it is—but not at all in the way that she expects. The Capitolist runs at an insane pace: Adrienne’s up before five in the morning, writing ten stories a day (sometimes on her BlackBerry, often during her commute), and answering every email within three minutes. Just when it seems like the frenetic workload is going to break her, she stumbles upon a juicy political affair, involving a very public senator—and her most

competitive colleague. Discovering that there's much more to the relationship than meets the eye, Adrienne realizes she's got the scoop of a lifetime. But should she go public with the story? Inspired by Washington insider Karin Tanabe's experiences at Politico, *The List* is a riveting debut novel bursting with behind-the-scenes details about what happens when media and politics collide.

Let's Pretend This Never Happened Jenny Lawson, 2013-03-05 The #1 New York Times bestselling (mostly true) memoir from the hilarious author of *Furiously Happy*. "Gaspingly funny and wonderfully inappropriate."—O, The Oprah Magazine When Jenny Lawson was little, all she ever wanted was to fit in. That dream was cut short by her fantastically unbalanced father and a morbidly eccentric childhood. It did, however, open up an opportunity for Lawson to find the humor in the strange shame-spiral that is her life, and we are all the better for it. In the irreverent *Let's Pretend This Never Happened*, Lawson's long-suffering husband and sweet daughter help her uncover the surprising discovery that the most terribly human moments—the ones we want to pretend never happened—are the very same moments that make us the people we are today. For every intellectual misfit who thought they were

the only ones to think the things that Lawson dares to say out loud, this is a poignant and hysterical look at the dark, disturbing, yet wonderful moments of our lives. Readers Guide Inside

The Hyperlinked Society Lokman Tsui, 2009-12-11 Links are among the most basic---and most unexamined---features of online life. Bringing together a prominent array of thinkers from industry and

the academy, *The Hyperlinked Society* addresses a provocative series of questions about the ways in which hyperlinks organize behavior online. How do media producers' considerations of links change the way they approach their work, and how do these considerations in turn affect the ways that audiences consume news and entertainment? What role do economic and political considerations play in information producers' creation of links? How do links shape the size and scope of the public sphere in the digital age? Are hyperlinks bridging mechanisms that encourage people to see beyond their personal beliefs to a broader and more diverse world? Or do they simply reinforce existing bonds by encouraging people to ignore social and political perspectives that conflict with their existing interests and beliefs? This pathbreaking collection of essays will be valuable to anyone interested in the now taken for granted connections that structure communication, commerce, and civic discourse in the world of digital media. This collection provides a broad and deep examination of the social, political, and economic implications of the evolving, web-based media environment. *The Hyperlinked Society* will be a very useful contribution to the scholarly debate about the role of the internet in modern

society, and especially about the interaction between the internet and other media systems in modern society. ---Charles Steinfield, Professor and Chairperson, Department of Telecommunication, Information Studies, and Media, Michigan State University Joseph Turow is Robert Lewis Shayon Professor at the Annenberg School for Communication, University of Pennsylvania. Bunny's McMansion. When Bunny catches Michael smoking in her yard, he discovers that her life is not as perfect as it seems. Tales of a Big Game Guide Russell Annabel, 2019-01-13 “Tall tales of tall ranges. Good reading for any man, for he’ll find his sport, be it fishing, riding, camping, good jokes, fine sportsmanship and hardy company sandwiched in between the big game hunting. Annabel is a guide who certainly knows his trails and game, but far more important he knows what few others do—how to tell a grand story. Brought up in the big game country of Alaska he learned from bitter experience why Tex had wisely refused to let him peruse precocious rams up mountain peaks in winter, how to stalk grizzlies, to manage horses in spring drifts, to bring out heads with 69 inch spreads, and with delicious humor teach adventurous grizzlies a lesson. There are caribou, too, although he makes their hunting sound a bit too easy-dude-ranchey after the he-man stuff which characterizes his usual trips. “It is a book to whet the appetite of any man or woman who has ever longed to stalk big game. Africa is a long way

safely out of reach. But Alaska—by plane? Well, maybe, if times pick up before they're too old for such strenuous adventure. Meanwhile Annabel as guide and all Alaska lies before them. Suggest it as the best possible vacation to take in one's den."—Kirkus Review
