Principles and Practice in Second Language Acquisition Stephen D. Krashen, 1987

The Languages of Africa and the Diaspora Jo Anne Kleifgen, George C. Bond, 2009 This book takes a fresh look at subordinated vernacular languages in the context of African, Caribbean, and US educational landscapes, highlighting the social cost of linguistic exceptionalism for speakers of these languages. Chapters describe contravening movements toward various forms of linguistic diversity and offer a comprehensive approach to language awareness in educative settings.

Da Kine Talk Elizabeth Ball Carr, 2019-03-31 Hawaii is without parallel as a crossroads where languages of East and West have met and interacted. The varieties of English (including neo-pidgin) heard in the Islands today attest to this linguistic and cultural encounter. Da kine talk is the Island term for the most popular of the colorful dialectal forms--speech that captures the flavor of Hawaii's multiracial community and reflects the successes (and failures) of immigrants from both East and West in learning to communicate in English.

Learn German the Fast and Fun Way Paul G. Graves, 1997 In just minutes a day you'll pick up the German you need for everyday situations--from meeting and greeting people to asking directions and handling simple business transactions. You'll learn basic vocabulary for directions, finding your way, introductions, entertainment, dining, shopping, banking, using the telephone and mail services, medical help and emergencies. Includes a

cassette and pronunciation guide plus vocabulary cards and a pull-out bilingual dictionary.

International Advances in Writing Research
Charles Bazerman, Chris Dean, 2012-09-09 The authors report research that considers writing in all levels of schooling, in science, in the public sphere, and in the workplace, as well as the relationship among these various places of writing. The authors also consider the cultures of writing—among them national cultures, gender cultures, schooling cultures, scientific cultures, and cultures of the workplace.

Archaeology Anthropology and Interstellar Communication Douglas A. Douglas A.
Vakoch, 2015-03-24 Addressing a field that has been dominated by astronomers, physicists, engineers, and computer scientists, the contributors to this collection raise questions that may have been overlooked by physical scientists about the ease of establishing meaningful communication with an extraterrestrial intelligence. These scholars are grappling with some of the enormous challenges that will face humanity if an information-rich signal emanating from another world is detected. By drawing on issues at the core of contemporary archaeology and anthropology, we can be much better prepared for contact with an extraterrestrial civilization, should that day ever come.

Blindsight Peter Watts, 2006-10-03 Hugo and Shirley Jackson award-winning Peter Watts stands on the cutting edge of hard SF with his acclaimed

novel, Blindsight Two months since the stars fell... Two months of silence, while a world held its breath. Now some half-derelict space probe, sparking fitfully past Neptune's orbit, hears a whisper from the edge of the solar system: a faint signal sweeping the cosmos like a lighthouse beam. Whatever's out there isn't talking to us. It's talking to some distant star, perhaps. Or perhaps to something closer, something en route. So who do you send to force introductions with unknown and unknowable alien intellect that doesn't wish to be met? You send a linguist with multiple personalities, her brain surgically partitioned into separate, sentient processing cores. You send a biologist so radically interfaced with machinery that he sees x-rays and tastes ultrasound. You send a pacifist warrior in the faint hope she won't be needed. You send a monster to command them all, an extinct hominid predator once called vampire, recalled from the grave with the voodoo of recombinant genetics and the blood of sociopaths. And you send a synthesist—an informational topologist with half his mind gone—as an interface between here and there. Pray they can be trusted with the fate of a world. They may be more alien than the thing they've been sent to find. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The Innovation Stack Jim McKelvey, 2020-03-10 From the cofounder of Square, an inspiring and entertaining account of what it means to be a true entrepreneur and what it takes to build a resilient, world-changing company In 2009, a St.

Louis glassblowing artist and recovering computer scientist named Jim McKelvey lost a sale because he couldn't accept American Express cards. Frustrated by the high costs and difficulty of accepting credit card payments, McKelvey joined his friend Jack Dorsey (the cofounder of Twitter) to launch Square, a startup that would enable small merchants to accept credit card payments on their mobile phones. With no expertise or experience in the world of payments, they approached the problem of credit cards with a new perspective, questioning the industry's assumptions, experimenting and innovating their way through early challenges, and achieving widespread adoption from merchants small and large. But just as Square was taking off, Amazon launched a similar product, marketed it aggressively, and undercut Square on price. For most ordinary startups, this would have spelled the end. Instead, less than a year later, Amazon was in retreat and soon discontinued its service. How did Square beat the most dangerous company on the planet? Was it just luck? These questions motivated McKelvey to study what Square had done differently from all the other companies Amazon had killed. He eventually found the key: a strategy he calls the Innovation Stack. McKelvey's fascinating and humorous stories of Square's early days are blended with historical examples of other world-changing companies built on the Innovation Stack to reveal a pattern of ground-breaking, competition-proof entrepreneurship that is rare but repeatable. The Innovation Stack is a thrilling business narrative that's much bigger

than the story of Square. It is an irreverent first-person look inside the world of entrepreneurship, and a call to action for all of us to find the entrepreneur within ourselves and identify and fix unsolved problems--one crazy idea at a time.

Are Some Languages Better Than Others? Robert M. W. Dixon, 2016 This book sets out to answer a question that many linguists have been hesitant to ask: are some languages better than others? Can we say, for instance, that because German has three genders and French only two, German is a better language in this respect? Jarawara, spoken in the Amazonian jungle, has two ways of showing possession: one for a part (e.g. 'Father's foot') and the other for something which is owned and can be given away or sold (e.g. 'Father's knife'); is it thus a better language, in this respect, than English, which marks all possession in the same way? R. M. W. Dixon begins by outlining what he feels are the essential components of any language, such as the ability to pose questions, command actions, and provide statements. He then discusses desirable features including gender agreement, tenses, and articles, before concluding with his view of what the ideal language would look like - and an explanation of why it does not and probably never will exist. Written in the author's usual accessible and engaging style, and full of personal anecdotes and unusual linguistic phenomena, the book will be of interest to all general language enthusiasts as well as to a linguistics student audience, and particularly to anyone with an interest in linguistic typology.

Declining Grammar and Other Essays on the English Vocabulary Dennis E. Baron, 1989 This book contains 25 essays about English words, and how they are defined, valued, and discussed. The book is divided into four sections. The first section, Language Lore, examines some of the myths and misconceptions that affect attitudes toward language--and towards English in particular. The second section, Language Usage, examines some specific questions of meaning and usage. Section 3, Language Trends, examines some controversial trends in English vocabulary, and some developments too new to have received comment before. The fourth section, Language Politics, treats several aspects of linguistic politics, from special attempts to deal with the ethnic, religious, or sex-specific elements of vocabulary to the broader issues of language both as a reflection of the public consciousness and the U.S. Constitution and as a refuge for the most private forms of expression. Sometimes I Act Crazy Jerold J. Kreisman, M.D., Hal Straus, 2006-04-14 A source of hope, expert advice, and guidance for people with borderline personality disorder and those who love them Do you experience frightening, often violent mood swings that make you fear for your sanity? Are you often depressed? Do you engage in self-destructive behaviors such as drug or alcohol abuse, anorexia, compulsive eating, self-cutting, and hair pulling? Do you feel empty inside, or as if you don't know who you are? Do you dread being alone and fear abandonment? Do you have trouble

finishing projects, keeping a job, or forming lasting relationships? If you or someone you love answered yes to the majority of these questions, there's a good chance that you or that person suffers from borderline personality disorder, a commonly misunderstood and misdiagnosed psychological problem afflicting tens of millions of people. Princess Diana was one of the most well-known BPD sufferers. As a source of hope and practical advice for BPD sufferers and those who love them, this new book by Dr. Jerold J. Kreisman and Hal Straus, bestselling authors of *I Hate You, Don't Leave Me*, offers proven techniques that help you:

- * Manage mood swings
- * Develop lasting relationships
- * Improve your self-esteem
- * Keep negative thoughts at bay
- * Control destructive impulses
- * Understand your treatment options
- * Find professional help

Using C-Kermit Frank da Cruz, Christine Gianone, 1996-11-20 Written by the co-managers of the Kermit Project, this is a revised and updated tutorial on data communications, with new material on today's high-speed modems and how to make the best use of them

Marketing Identities Through Language E. Martin, 2005-11-30 Elizabeth Martin explores the impact of globalization on the language of French

advertising, showing that English and global imagery play an important role in tailoring global campaigns to the French market, with media companies undeterred by the attempts through legislation to curb language mixing in the media.
