*Creating Strategic Value through Financial Technology* Jay D. Wilson, Jr.,2017-04-17 Lessons in innovation from key FinTech trends and successes  
Creating Strategic Value through Financial Technology explores the growing Financial Technology (FinTech) industry to provide insight on how traditional financial institutions and FinTech companies can boost innovation and enhance valuation in a complex regulatory environment. In plumbing the depth and breadth of several niches within the FinTech sector, author Jay Wilson uncovers key themes that have contributed to the industry's success; in this book, he maps them together to provide useful guideposts for investors, entrepreneurs, and traditional institutions looking to facilitate growth as technology and financial services collide. With an expert's perspective on FinTech history and outlook, certain trends and examples of value-enhancing strategies stand out. FinTech niches covered include: payments, crowdfunding, alternative/marketplace lending, the blockchain, and technology solutions in the context of banking, insurance, and investment companies. There is no denying the growing importance of technology in the financial services industry, and the FinTech sector offers valuable solutions for a diverse array of financial services providers and their customers. This book guides you through several niches of the FinTech sector, and highlights the most important takeaways from recent endeavors. Navigate the financial technology sector Enhance customer and product offerings Improve efficiency and cost structure Enhance profitability and company valuation from the intersection of technology and finance Innovation and customer preference is a key driver of FinTech's growth. Customers are demanding better value and convenience, and the organizations that provide it are reaping the rewards of growth. As financial regulations grow more and more complex, and customers are presented with more and more options, it is becoming imperative for traditional institutions to modernize processes and carve out a place in the future of financial services. Creating Strategic Value through Financial Technology provides a handbook for navigating that space, with practical guidance on how FinTech companies and traditional financial institutions can enhance profitability and valuation from the trends.

**Innovative Solutions for Building Community in Academic Libraries** Bonnand, Sheila,2015-05-31 The library has always been an essential part of the collegiate experience, providing students with access to knowledge and literature. However, as virtual services and online learning become more prominent within collegiate environments, the ways students conduct research and access resources has been altered. Innovative Solutions for Building Community in Academic Libraries examines new methods librarians use to engage both on-campus and online users in library services, taking into account the significant impacts of online learning on students' interaction with library resources. Focusing on various outreach practices, techniques of literacy instruction, and the utilization of library spaces, this research-supported book is a pivotal reference source for distance educators, program planners, academics, and library professionals interested in new ways to attract users to library services.

ACCA Paper P6 Advanced Taxation FA2008 Practice and Revision Kit BPP Learning Media,2010-01-01 The Association of Chartered Certified Accountants (ACCA) is the global body for professional accountants. With over 100 years of providing world-class accounting and finance qualifications, the ACCA has significantly raised its international profile in recent years and now supports a BSc (Hons) in Applied Accounting and an MBA.BPP Learning Media is an ACCA Official Publisher. Paper P6, Advanced Taxation, requires you to extend the core tax knowledge that you learnt for Paper F6. As well as widening your knowledge of the core taxes, you will need to study inheritance tax, stamp taxes and trusts for the first time. In this paper you will also be expected to comment on ethical issues.In Paper P6 all of the questions set will be scenario type questions as opposed to the purely computational questions that you met at Paper F6. The emphasis of the questions will be on the interpretation of a given situation. You may need to propose alternative strategies and compare and contrast the results. Marks will be specifically awarded in the examination for the demonstration of effective communication skills. You will also need to demonstrate that you are aware that there may be non-tax matters that should be taken into account.The important point about this paper is that you need to develop your application skills. The best way to do this is to practise as many exam standard questions as possible. BPP Learning Media's P6 FA2008 Practice and Revision kit allows you to do just this. The Practice and Revision kit is new and has been specifically written for this paper. Most of our questions are exam standard, although some are preparation questions which ease you into the topic you are studying. Questions are grouped into topic areas so that you can easily identify those that cover particular areas. Our detailed solutions often provide top tips, advice on how to approach the question or advice on gaining easy marks. There is also a reference so that you know where the topics concerned are covered in the study text.BPP Learning Media is the publisher of choice for many ACCA students and tuition providers worldwide. Join them and plug into a world of expertise in ACCA exams.

*Engaging with Capitalism* Fiona McCormack,Kate Barclay,2013-05-14 The volume addresses how capitalism has been very effective in generating wealth and technological innovation, but has also been associated with social inequity and environmental damage. Its inherent flaws have been highlighted by the escalation of ecological problems arising from growth-oriented capitalism and various economic crises.

**Succession, Wills and Probate** Caroline Sawyer,Miriam Spero,2015-05-15 Succession, Wills and Probate is an ideal textbook for those taking an undergraduate course in this surprisingly vibrant subject, and also provides a clear and comprehensive introduction for professionals. Against an

account of the main social and political themes of succession law, the book gives detailed explanations of core topics such as alternatives to wills and the making, altering and revocation of wills. It also explains personal representatives and how they should deal with a deceased person's estate and interpret and implement the will. Gifts may fail, estates may be insolvent or a person may die intestate, without a will at all. Increasingly relatives and others seek to challenge the will, for example on the grounds of the testator's capacity or under the law of family provision. This third edition is edited, updated and revised to take account of new legislation and case law across all the relevant issues, including a new final chapter dealing with the potentially contentious issues that are becoming more central to professional work in the field of succession.

*Creating Books for the Young in the New South Africa* Barbara A. Lehman,Jay Heale,Anne Hill,2014-09-24 This collection of essays analyzes the work of 29 authors and illustrators. South African children's and youth literature has a long history. The country is the most prolific publisher of children's books on the continent, producing perhaps the highest quality literature in Africa. Its traditions resonate within the larger world of children's literature but are solidly grounded in African myth and archetypes. The African diaspora in the U.S. and elsewhere have stories rooted in these oral traditions. Much has changed in South African literature for children since the 1994 transformation of the country. A field once dominated by all white and mostly female writers and illustrators has diversified, adding many new voices.

*Wealth Management Planning* Malcolm James Finney,2010-04-01 Wealth Management Planning addresses the major UK tax issues affecting wealth management planning for both the UK domiciled and non-UK domiciled individual. It explains, with numerous worked practical examples, the principles underpinning the three main taxes: income tax; capital gains tax; and inheritance tax. It is aimed at those involved in providing advice in the field of wealth management planning including solicitors, accountants, financial planners, private bankers, trustees, students of tax and law and the layman seeking in depth knowledge. The recent Finance Acts 2006 and 2008, in particular, have modified significantly the tax rules in key areas applicable to wealth management planning. These new tax rules are all addressed in detail in this book and include the pre and post Finance Act 2006 inheritance tax treatment of trusts; the new post Finance Act 2008 residence rules; and the new Finance Act 2008 rules applicable to non-domiciled individuals and the tax treatment of off shore trusts. In view of the increasingly international nature of wealth management planning the book attempts to place the UK tax rules in an international context addressing such issues as: the role of wills in the international arena; the implications of the EU; the suitability of off shore financial centres; and the role and use of double taxation agreements. Appendices bring together useful material produced by HMRC and a detailed bibliography for the interested reader is also included. " This book gives comprehensive coverage to the complicated subject of taxation for Financial Planners. It will be very valuable to all those Financial Planners who wish to extend their learning and reference and desire to meet the needs of clients". NICK CANN, CHIEF EXECUTIVE OF THE INSTITUTE OF FINANCIAL PLANNING. " In this book, Malcolm Finney presents a comprehensive summary of the UK tax rules in straightforward language and with many practical examples. It is a notable achievement to put incomprehensible tax legislation into such readily understandable terms; anyone advising on wealth management will find this to be an invaluable guide to the subject". MALCOLM GUNN, CONSULTANT, SQUIRE, SANDERS & DEMPSEY " The author demonstrates considerable skill in explaining complicated tax rules in a manner that makes them easy to assimilate and understand. The book contains Chapter summaries, useful Appendices and numerous worked examples, which provide a very clear, helpful explanation of some difficult tax rules. The book's contents cover wide areas of the tax system, and yet provide sufficient technical depth to be a valuable point of reference for those involved in wealth management and financial planning". MARK McLAUGHLIN, MARK McLAUGHLIN ASSOCIATES, MANAGING EDITOR OF TAXATIONWEB " A valuable new text explaining the tax treatment applicable to financial planning products and strategies for UK domiciled persons (UK resident or expats) and non domiciled UK residents. This book will be of interest to a wide readership ranging from students of law and tax, the interested layman seeking in depth knowledge and professionals including solicitors, accountants, financial planners, private bankers and trustees. Malcolm is to be commended on distilling a vast amount of detailed material into a logical and well ordered framework". ANDREW PENNEY, MANAGING DIRECTOR, ROTHSCHILD TRUST CORPORATION LTD " Malcolm Finney's book is stimulating, innovative and refreshingly practical. Anyone wanting either a high-level understanding of tax principles involved in wealth management or a deeper insight should read this book". JACOB RIGG, HEAD OF POLICY, SOCIETY OF TRUST AND ESTATE PRACTITIONERS, ST

*Feminism, Labour and Digital Media* Kylie Jarrett,2015-11-19 There is a contradiction at the heart of digital media. We use commercial platforms to express our identity, to build community and to engage politically. At the same time, our status updates, tweets, videos, photographs and music files are free content for these sites. We are also generating an almost endless supply of user data that can be mined, re-purposed and sold to advertisers. As users of the commercial web, we are socially and creatively engaged, but also labourers, exploited by the companies that provide our communication platforms. How do we reconcile these contradictions? Feminism, Labour and Digital Media argues for using the work of Marxist feminist theorists about the role of domestic work in capitalism to explore these competing dynamics of consumer labour. It uses the concept of the Digital Housewife to outline the relationship between the work we do online and the unpaid sphere of social reproduction. It demonstrates how feminist perspectives expand our critique of consumer labour in digital media. In doing so, the Digital Housewife returns feminist inquiry from the margins and places it at the heart of critical digital media analysis.

*Fragile World* William T. Cavanaugh,2018-05-22 In Fragile World: Ecology and the Church, scholars and activists from Christian communities as far-flung as Honduras, the Philippines, Colombia, and Kenya present a global angle on the global ecological crisis--in both its material and spiritual senses--and offer Catholic resources for responding to it. This volume explores the deep interconnections, for better and for worse, between the global North and the global South, and analyzes the relationship among the physical environment, human society, culture, theology, and economics--the integral ecology described by Pope Francis in *Laudato Si'*. Integral ecology demands that we think deeply about humans and the physical environment, but also about the God who both created the world and sustains it in being. At its root, the ecological crisis is a theological crisis, not only in the way that humans regard creation and their place in it, but in the way that humans think about God. For Pope Francis in *Laudato Si'*, the root of the crisis is that we humans have tried to put ourselves in God's place. According to Pope Francis, therefore, A fragile world, entrusted by God to human care, challenges us to devise intelligent ways of directing, developing, and limiting our power.
