Creating Conditions for Student Success Magda Fourie-Malherbe, 2021-12-15 The various chapters of this book have brilliantly provided perspectives on creating conditions for success in higher education from a wide variety of stakeholders within a university environment. The rich content comes from varying fields of study as well as academic development and student affairs directorates within the institution. This is what is exciting about the book. The diversity of focus in chapters makes the book relevant to anyone with interest in higher education matters. From the opening to the closing chapter, students are making a contribution on what the university has done or is doing for them to succeed or what it should consider doing to improve its service to students. This touches on every environment that students find themselves in a university setting, from residences, to the classroom to commuter or off-campus students. The book's extended use of the capabilities approach and critical social theories has enabled it to provide nuances on not only the success of students, but, more importantly, about how the higher education environment can transform itself to practices relevant for the sector today. The various research studies in this book can benefit similar university contexts nationally and internationally.

Handbook of Research on Creating Motivational Online Environments for Students Bilodeau, Julie A., Hughes, Larry W., 2023-08-18 There are many ways to motivate students to achieve their academic and personal goals. Due to the pandemic, more emphasis has been placed on finding alternative approaches to instruct students. Online learning has become the focal point of the educational setting, and new approaches to teaching are necessary. Since the change in delivery from face-to-face to online, teachers have been faced with motivating their students in an environment that is new and foreign to them. The book also provides teaching techniques and technology that will improve motivational success for students in all modalities. Covering topics such as student behavior, online education, and motivational techniques, this premier reference source is ideal for administrators, researchers, academicians, scholars, practitioners, instructors, and students.

Creating Supportive Spaces for Pregnant and Parenting College Students Catherine L. Riley,Katie B. B. Garner,2023-12-01 This volume brings together interdisciplinary research, theoretical perspectives, and detailed explanations of paths and examples to help colleges become supportive spaces for pregnant and parenting students. Expanding the discourse around pregnant and parenting college students to a more interdisciplinary and international arena, this volume follows the ground-breaking disquisition, formerly set forth by 'Title IX and the Protection of Pregnant and Parenting College Students (Riley, Hutchinson, Dix 2022)', to define this cohesive field and bring together separate voices to help colleges become more supportive spaces after the . The chapters explore academia's attitude toward motherhood, families, and care work, the invisibility of pregnant and parenting students, system-wide negligence, the forgotten nature of student-fathers, unacknowledged miscarriages, organized policy change efforts, involved agencies of change, the troubling presence of coercion, and more. While arguing that barriers currently prevent colleges from becoming supportive spaces, the volume asserts that improvements are both feasible and vital for ensuring that institutions of higher education are complying with Title IX, a U.S. federal law. Offering interdisciplinary research, explanations of problems, and paths for progress, this edited volume will be useful to scholars, researchers, administrators, and activists working to support pregnant and parenting students. Various chapters will also interest those working in higher education administration, education policy, reproductive health, gender studies, and health and organizational communication more broadly. Supporting pregnant and parenting college students, however, is a shared responsibility belonging to all members of a campus community; accordingly, this volume is for every institution that plans to comply with Title IX.

How to Make Successful Students in One Year - a Model for the World Nicholas Aggor, 2014-06-23 I wrote the book, *How To Make Successful Students In One Year - A Model For The World*, as a true testament of real world academic success for parents, teachers, students, school districts and governments of the world. Helping Students Make Sense of the World Using Next Generation Science and Engineering Practices Christina V. Schwarz, Cynthia Passmore, Brian J. Reiser , 2017-01-31 When it's time for a game change, you need a guide to the new rules. *Helping Students Make Sense of the World Using Next Generation Science and Engineering Practices* provides a play-by-play understanding of the practices strand of A Framework for K–12 Science Education (Framework) and the Next Generation Science Standards (NGSS). Written in clear, nontechnical language, this book provides a wealth of real-world examples to show you what's different about practice-centered teaching and learning at all grade levels. The book addresses three important questions: 1. How will engaging students in science and engineering practices help improve science education? 2. What do the eight practices look like in the classroom? 3. How can educators engage students in practices to bring the NGSS to life? *Helping Students Make Sense of the World Using Next Generation Science and Engineering Practices* was developed for K–12 science teachers, curriculum developers, teacher educators, and administrators. Many of its authors contributed to the Framework's initial vision and tested their ideas in actual science classrooms. If you want a fresh game plan to help students work together to

generate and revise knowledge—not just receive and repeat information—this book is for you.

Creating a Campus-Wide Culture of Student Success Ronald E. E. Hallett, Adrianna Kezar, Joseph A. A.

Kitchen, Rosemary J. J. Perez, 2023-10-23 Offering a new approach to institutional practices, this book describes evidence-based strategies to create a campus culture conducive to truly supporting all students. We are at a

critical crossroads in higher education, where large numbers of low-income, racially minoritized, and first-generation college students – referred to in this book as at-promise students – are attending college in greater numbers than ever, yet access has not translated to significantly improved retention and graduation rates. This book, therefore, proposes a realignment of existing initiatives to create campus-wide support through a new model of coordination. The ideas presented in this book are the culmination of one of the largest studies of comprehensive college support programs for at-promise students. Chapters include illustrations of the key concepts and promising practices of the Promoting At-promise Student Success (PASS) Project, as well as guiding questions that can be used to facilitate conversations on campus. In this helpful resource, the authors address how student supports are delivered in validating ways, rather than focusing solely on what supports are offered, as has typically been the way institutions address the issues that at-promise students face. This book is intended to provide guidance and support to educators who want to be a part of changing how higher education supports at-promise students toward increased equity.

This unique book promotes a positive framework for navigating the challenging landscape of the Catholic tradition and the LGBT experience as it helps to establish anti-harassment and anti-bullying protocols for school environments and models for developing LGBT student support groups and gay/straight student alliances. The book promotes role-play by students, alumni, teachers, and parents—a hallmark of the ministry work and training methods of the Catholic Pastoral Committee on Sexual Minorities—and is flexible enough to allow each school's individual climate and culture to be respected. Creating Safe Environments for LGBT Students includes: * first-hand stories from students and teachers * realistic, dynamic, and creative role-play scenarios that explore various relationships between students, teachers, parents, administrators, and the school board * opening prayer and meditation rituals * a special foreword by Bishop Thomas J. schools, particularly school administrators, chaplains, campus ministers, psychologists, social workers, and counselors.

101 Ways to Make Studying Easier and Faster for College Students Susan Marie Roubidoux, 2008 Although the average college student spends only between 15 and 18 hours in class in any given week, increasing the amount of free time, there is a correlating increase in the workload. Many college students never learned effective study habits in high school and believe they will be able to make it through college just as easily. However, college and university professors and administrators claim that studying is directly connected to a student's ultimate success or failure. By reading 101 Ways to Make Studying Easier and Faster for College Students, you can improve the effectiveness of your studying. After all, effectiveness is not measured by the length of time spent studying or blankly staring at a textbook but by the level of comprehension. In this new book, you will learn how to make a study schedule, how to design an effective study environment, how to read for comprehension, how to get organized, how to find your learning style, how to take notes during lectures, how to listen better in class, how to use reference sources, how to boost your concentration, how to stay motivated, how to review and edit your notes, and how to increase reading comprehension. You will learn effective note taking strategies, where to study, when to study, time management skills, strategies for reading novels and text books, memorization techniques, and organizational skills. Additionally, you will find out how to stay awake while studying, how to change your current habits, and how to make studying more enjoyable. We will provide you with various studying methods, including flashcards, quizzes, summarizing, outlining, answering study guide questions, and the proven SQ3R method, as well as exercises to help improve your skills. Furthermore, 101 Ways to Make Studying Easier and Faster for College Students is full of tips from students just like you, as well as professors. No two people learn the same way, and no one study method will work for everyone. While this book introduces you to different study methods, the aim is to improve your learning, your understanding, and, ultimately, your grades.
