Flawsome Ryan McDonald-Smith,2013 In 2012 trendwatching.com predicted Flawsome to be one of the top future trends for business. It's a trend companies are using to stand out, engage customers, and be more memorable. Flawsome is when a company is AWESOME despite, and sometimes because of, their flaws. The trend stems from human nature. People have a hard time genuinely connecting with, being close to, or really trusting, others who appear to have no weaknesses or flaws. Consumers don't expect brands to be flawless. In fact, consumers will embrace brands that are Flawsome: brilliant despite having flaws; even being flawed (and being open about it) can be awesome. Brands that show some empathy, generosity, humility, flexibility, maturity, humour, and some character and humanity. Discover how some of the world's fastest growing brands are marketing their flaws, and how, by being authentic, your business can attract a consumer base of advocates who love what you do, and will begin to spread your message for you.

E-Marketing in Developed and Developing Countries: Emerging Practices El-Gohary, Hatem,2013-04-30 While e-marketing has emerged as an aid in allowing businesses to reach a broader audience, evolutions in computer science and technology have made its comprehension a bit more complex. E-Marketing in Developed and Developing Countries: Emerging Practices aims to create a deeper understanding of the policies and practices that are involved in a successful e-marketing environment. This publication highlights the strategies and applications currently being used in both developed and developing countries; proving to be beneficial for entrepreneurs, policy makers, researchers, and students wishing to expand their comprehensive knowledge in this field.

HTML and CSS Jon Duckett,2011-11-08 A full-color introduction to the basics of HTML and CSS! Every day, more and more people want to learn some HTML and CSS. Joining the professional web designers and programmers are new audiences who need to know a little bit of code at work (update a content management system or e-commerce store) and those who want to make their personal blogs more attractive. Many books teaching HTML and CSS are dry and only written for those who want to become programmers, which is why this book takes an entirely new approach. Introduces HTML and CSS in a way that makes them accessible to everyone—hobbyists, students, and professionals—and it's full-color throughout Utilizes information graphics and lifestyle photography to explain the topics in a simple way that is engaging Boasts a unique structure that allows you to progress through the chapters from beginning to end or just dip into topics of particular interest at your leisure This educational book is one that you will enjoy picking up, reading, then referring back to. It will make you wish other technical topics were presented in such a simple, attractive and engaging way! This book is also available as part of a set in hardcover - Web Design with HTML, CSS, JavaScript and jQuery, 9781119038634; and in softcover - Web Design with HTML, CSS, JavaScript and jQuery, 9781118907443.

More Than the Sound of Many Waters Christine Graef,2016-12-01 Within each of us are emotions that scale the heights of praise then sink so deep we are beyond the reach of light. In those depths we hold a notion that we cannot lift ourselves out, but there must be a power that can save. Follow me, Jesus said. From the first

immersion that birthed earth from water, to the Hebrew mikveh that requires baptism in a natural body of water, to the Pentecost immersing believers into the age of the church, water is the signature of God. The ocean is the heartbeat of earth, covering 70 percent of the planet, pulsing warmth to the continents, wearing the moods of the sky, answering only to heaven. As the ocean becomes laden with contaminants and the bonds of family unravel, science and scripture merge in an ongoing conversation about the water that both separates and unites humanity. *More Than the Sound of Many Waters* reflects the challenge for us to let go of the shore, entirely submerge, breathless and weightless, transforming beyond the shallows into the covenant of salt. The water of judgment is held back as the people of God pass through.

Parallel and Distributed Computing: Applications and Technologies K. M. Liew, 2004-12-02 This book constitutes the refereed proceedings of the 5th International Conference on Parallel and Distributed Computing, Applications and Technologies; PDCAT 2004, held in Singapore in December 2004. The 173 papers presented were carefully reviewed and selected from 242 submissions. The papers focus on parallel and distributed computing from the perspectives of algorithms, networking and architecture, software systems and technologies, and applications. Besides classical topics from high performance computing, major recent developments are addressed, such as molecular computing, data mining, knowledge discovery, optical networks, secure computing and communications, wireless networks, mobile computing, component-based systems, Internet computing, and Web Technologies.

System Configuration Management Jacky Estublier, 2003-07-31 This workshop series is now over ten years old, which is a pretty long time for a very focussed topic: Configuration Management. The first conference took place in 1988 (Grassau, Germany) and the topics were focussed on version control and rebuilding. Many people consider that SCM

is one of the few areas of software engineering that can be considered to be really successful. Products, that more or less fulfill their purpose, exist, and everybody agrees that they are now mandatory for a successful software project. Indeed, during the second half of the nineties, SCM has entered a maturation phase, in which good commercial products have been incorporating many of the features - signed and discussed at previous conferences of this workshop. With the generalization of commercial products, the question now is: What are the objectives of a scientific workshop on this topic? Is there any more research to be done in SCM today? This ninth volume in the series reflects pretty well the current state and mood in the CM community. There are an unprecedented number of papers discussing the current state of the art and trying to identify research directions (session 6). On some core topics, like versioning (session 3), and following SCM8 tracks, papers present work on unified models. Versioning models, after years of raging discussions, now seem to have found a consensus.

Supervising and Writing a Good Undergraduate Dissertation Roisin Donnelly, John Dallat, Marian Fitzmaurice, 2013-08-02 The considerable increase in numbers of students required to complete undergraduate dissertations as part of their curricula demonstrates a clear need for supporting academic staff from a wide variety of disciplines in this area. There has been limited research published in the realm of undergraduate supervision. Therefore, supervision of academic dissertations in an undergraduate setting still remains to be addressed in a comprehensive manner. The overarching theme of this reference work is the convergence of shared understandings, strategies and reflections of undergraduate supervisors from around the world, from many different subject disciplines. There is also a need today for a mapping of the current landscape of undergraduate supervision. This text is presented through a series of case studies from a wide variety of subject disciplines in the sciences and arts and is enlightened by research perspectives; it comprises of a focus on development needs for supervisors of undergraduate students, using updated information, modeling exercises and interaction in the form of a series of individual activities, along with a selection geared at programme team development in preparing supervisors for their role, choice key readings, and exploration of online resources. This eBook is intended as a guide for academic staff across various disciplines who are involved with dissertation supervision. It is valuable to those in the early stages of their career who may be supervising for the first time; equally, it provides support, guidance and affirmation to those who have supervised over a number of years.
