Sketches of Places Alan Ambuske,2019-08 Sketches of Places is a collection of drawings and sketches that have been completed over the past 50 years. The sketches are arranged by Places.... sketches that were completed in a particular city, state or country. The sketches were completed where we have lived, worked, vacationed or traveled. Creating this collection of sketches started as a simple gathering of drawings that turned into a large adventure.... plus or minus 200 sketches. The collecting of the sketches from various sketch books has been an interesting process that included scanning and photos of sketches that could not be scanned.Enjoy the journey of my life experiences through my Sketches.
