The Sculptures of Andrea Del Verrocchio Andrew Butterfield,Andrea Del Verrocchio,1997-01-01 Andrea del Verrocchio was the preeminent sculptor in late fifteenth-century Florence and one of the leading artists in Renaissance Europe. In every genre of statuary, Verrocchio made formal and conceptual contributions of the greatest significance, and many of his sculptures, such as the Christ and St. Thomas and the Colleoni Monument, are among the masterpieces of Renaissance art. A favorite artist of Lorenzo de' Medici and the teacher of Leonardo da Vinci, Verrocchio was a key link between the innovations of the fifteenth century and the creations of the High Renaissance. This beautiful catalogue raisonn  is the first comprehensive and detailed study of Verrocchio's extraordinary and innovative sculptures. Andrew Butterfield has combined careful visual analysis of the sculptures with groundbreaking research into their function, iconography, and historical context. In order to explain Verrocchio's contributions to the different genres of Renaissance sculpture, Butterfield provides new and important information on a broad range of issues such as the typology and social history of Florentine tombs, the theoretical problems in the production of perspectival reliefs, and the origins of the Figura serpentinata. Furthermore, Butterfield draws on a spectrum of often overlooked texts to elucidate fundamental iconographical problems, for example, the significance of David in quattrocento Florence. In its scope, depth, and clarity, The Sculptures of Andrea del Verrocchio will rank as one of the finest studies of an Italian sculptor ever published.

Tax and Technology Annika Streicher,Svitlana Buriak,2023-10-13 The challenges and opportunities of new technologies in the tax field Technological developments induced major reforms in the regulatory international and domestic tax landscapes as well as in the developments in the use of technology by tax administrations and taxpayers. New technology, especially the innovations in virtual asset-light cross-border business organizations, data analytics, service and process automation, on one hand, disrupted the well-established legal tax principles and rules and, on the other, stimulated informed data-driven and structured solutions in tax compliance. Technological advances affected nearly every area and each aspect of taxation: Direct tax regulations, indirect tax law, and tax procedures including tax compliance, and tax control functions. International organizations such as the Organization for Economic Co-operation and Development (OECD), the United Nations (UN), and the European Commission as a supranational organization fostered critical legislative reforms and proposals among which are the OECD Two-Pillar Solution to Address the Tax Challenges Arising from Digitalisation of the Economy, Article 12B of the UN Model Tax Convention to tax automated digital services, new rules for tracing transfers of crypto-assets in the EU, as well as the EU's VAT e-commerce package and VAT in the Digital Age package. While these proposals aim to address a wide range of the benefits and challenges of Economy 4.0, certain questions arise concerning the consistency of the legislative developments with their initial objectives, the appropriateness of the legal form for the economic substance of the regulated relations for the effectiveness of the regulations as well as their coherence. This volume contains a collection of scientific chapters on the general topic Tax and Technology that were successfully completed by the 2022/2023 LL.M. graduates of the Institute for Austrian and International Tax Law, WU. The volume is divided into three parts that contain the contributions dealing with the impact of the technology on international tax law, indirect tax law, and procedural law. Each chapter provides an in-depth analysis of a unique research question aiming to innovatively contribute to the current debate and develop a practical approach for implementing the findings.

The Hospitaller Knights of Saint John at Rhodes 1306-1522 Gordon Ellyson Abercrombie,2024-05-16 The first of a series of volumes on the Hospitaller Knights of Saint John, this volume covers the period 1306– 1522. The Hospitaller Knights had developed during the Crusades from a monastic order providing hostels for Christian pilgrims visiting the Holy Land. The need to provide armed escorts to these pilgrims brought about their evolution into a Military Order. An elite component of Crusader armies, Hospitallers were involved in most large-scale Christian-Saracen engagements following the First Crusade. Taking to the sea, the Hospitallers became a major naval power in the Mediterranean. The author draws on the work of the Order’s official historians, Giacomo Bosio and his successor Bartolomeo dal Pozzo. He transcribes their writings for the modern reader, while also presenting new information revealed in the 400 years of scholarship since Bosio’s death in 1627. This volume opens with Hospitaller relocation from Cyprus to Rhodes during the years 1306 to 1309 while introducing other entities wielding power in the Eastern Mediterranean, including Mamluk Egypt, Turkish beyliks emerging from disintegration of the Seljuk Empire, the Eastern Roman or Byzantine Empire, Cyprus itself, and not least, the Republic of Venice controlling most Aegean islands. The book brings to light the contributions of Hospital leaders (Grand Masters) as well as of lieutenants, allies and opponents, including those of Philippe Villiers de L’Isle-Adam, who became Grand Master in 1521. Complete with an extensive glossary of notable figures, this volume is believed to be the only continuous history since Bosio of the Hospitallers during the period 1306 through 1522, and is certainly the only such history in the English language.

The Complete Introduction to Magic Julius Evola,The UR Group,2023-10-31 All three volumes of the occult classic available together as a deluxe boxed set for the first time • Volume I includes translations of rare texts alongside rites, practices, and magical knowledge, including instructions for creating an etheric double, speaking words of power, interacting with entities, and creating a “magical chain” • Volume II offers studies of mystery traditions throughout history and shares authentic initiatic wisdom and a rigorous selection of initiatory exercises • Volume III explores esoteric practices for individual development and realization of immortal and divine potential, handed down from a primordial tradition In 1927 Julius Evola and other leading Italian esotericists formed the mysterious UR group. The purpose of this group was to study and practice ancient rituals from the mystery traditions of the world, both East and West, in order to attain a state of superhuman consciousness and power to allow them to act magically on the world. They produced a monthly journal containing techniques for spiritual realization, accounts of personal experiences, translations of ancient texts, and original essays on the occult. Many years later, in 1971, Evola gathered these essays into three volumes. Volume I collects rites, practices, and magical knowledge, including instructions for creating an etheric double, speaking words of power, using fragrances, interacting with entities, and creating a “magical chain.” It also includes translations of rare texts such as the Tibetan teachings of the Thunderbolt Diamond Path, the Mithraic mystery cult’s “Grand Papyrus of Paris,” and the Greco-Egyptian magical text De Mysteriis. Volume II shares authentic initiatic wisdom and a rigorous selection of initiatory exercises, including instructions for creating the diaphanous body of the Opus magicum, and establishing initiatic consciousness after death. It also offers studies of mystery traditions throughout history. Volume III, more than the others, bears the personal stamp of Julius Evola. It explores esoteric practices for individual development, handed down from a primordial tradition and discernable in alchemy, Hermetism, religious doctrines, Tantra, Taoism, Buddhism, Vedanta, and the pagan mysteries of the West. Available together as a deluxe boxed set for the first time in English, these volumes present the steps necessary to purify the soul with the light of knowledge and the fire of dedication, as well as allowing the reader to be liberated from conventional dogmas—religious, political, scientific, and psychological—and see with the clearer eye of realization.
