E. Phillips Oppenheim

The Box Peter Rabe,2012-01-15 Quinn thought he had all the angles figured. After all, taking over the Organization should be a piece of cake for such a smart guy. But what he didn't figure was that boss Ryder would stuff him in a large crate with enough food and water to sustain him – and ship him around the world. When the freighter ports at the North African town of Okar, the captain of the boat decides it's time to unload the box. It's starting to make noises, and it smells bad. What emerges from this wooden coffin looks barely human. But once Quinn recovers, he starts to look around. Is this a new chance at life, or an opportunity to cash in on another racket, halfway around the world?

The Mystery Box ,

The Christ Box M. Rutledge McCall,2020-10-10 FROM THE BACK COVER: There's no history of ownership, no provenance, nothing? Kristy asks.Not verifiably, no, Parker says. Because, first of all, the thing is as old as

dirt, according to my mom, and written records don't go back as far as dirt. And second, the man who threatened her said he has a letter from her confessing to everybody but God that she stole it from a museum. Your mom stole the thing? From a museum? Of course not. She didn't write any confession letter either. I'm pretty sure. Parker had seen and held the mysterious old box a few times when he was a kid. It's made of dark, dense wood, olive or acacia, maybe rosewood. A perfect square, exactly seven inches to each side, about the size of a Bose speaker. Carved into its six surfaces are faded, intricate, Aramaic and Hebrew inscriptions that have been worn almost slick to a rich, oily polish by who knows how many hands and fingers touching it over the centuries. Which is why the wood can't be identified to any certainty. One of its most puzzling features is the dull metallic rattling of something inside it when it's shaken. Parker has always wondered how the things had gotten into the box in the first place, because there are no seams, no joints, no panels or hinges. No way of opening it. If indeed it can be opened without destroying it. Parker is pretty sharp, and adept at solving puzzles, but he gave up long ago trying to coax the box open. He figures it's probably some sort of secretive Rubik's Cube with a precise way of revealing its contents. So, why is this bureaucrat so rabid to get his hands on the thing? All I know is he threatened her life over it, and the police won't do anything unless the threat turns violent. That puts him in my hands.

The Disappeared C. Box, 2018-05-09 Wylie Frye was used to smelling of smoke and that was long before he became a criminal of sorts. Wood smoke permeated his clothing, his hair, and his full black beard to the point that he didn't notice it anymore. He was only reminded of his particular odor when drinkers on the next bar stool or patrons standing in line at the Kum-N-Go convenience store leaned away from him and turned their heads to breathe untainted air. But he didn't mind. He'd smelled worse at times in his life, and wood smoke wasn't so bad. On cold nights like this, after he'd used the front-end loader to deliver bucket after bucket of sawdust to the burner from a small mountain of it near the mill, he could relax in the burner shack and let the warmth of the fire and the sweet blanket of smoke engulf him. Wylie sat at a metal desk under a light fixture mounted in the wall behind him and stared at the dark screen of his cell phone. It was two-forty-five in the morning and his visitor was fifteen minutes late. Wylie was starting to fidget. He watched the screen because he knew he wouldn't hear the phone chime with an incoming text over the roar from the fire outside. In the rusting shack where Wylie sat, fifty feet from the base of the burner, it sounded like he was inside a jet engine. The west wall which was made of corrugated steel and faced the burner radiated enough heat that he couldn't touch it with his hand. In the deep January winter of the Upper North Platte River Valley, Wylie had the warmest blue-collar job of anyone he knew. So there was that. If he had to stink in order to stay warm on the job, it was a trade-off he was willing to make. He still had nightmares about that winter he'd spent working outside on a fracking rig in North Dakota where he'd lost two toes and the tip of his little finger to frostbite. Every minute or so, Wylie looked up from the phone on the desk to the small opaque portal window that faced the road outside, expecting to see headlights approaching. He couldn't see clearly because the smoke left a film on the glass that distorted the view, even though he wiped it clear nightly with Windex.

Houdini's Box Adam Phillips, 2001 Houdini's Box explores four different escape artists. There is the case history of the little girl who is oddly committed to playing her own wayward version of hide-and-seek. There is Harry Houdini, "the greatest magician the world has ever seen," an assimilated Jew and immigrant escapee who compulsively reinvents and re-enacts his own confinement. There is a patient of Phillips's who has come to him after being badgered by his (ex-) girlfriend, who says she wants to help "his next ex." He is a man who has become entranced, not with woman as object of desire, but with flight from woman, a man hypnotized by the infinite

freedom of escape, always arriving at the place from which he is escaping. And finally, there is the poet Emily Dickinson, who for the last twenty years of her life found freedom in self-imposed solitary confinement. Whether we are getting away from something or getting away with something, we cannot describe ourselves without also describing what we need to escape from and what we want to escape to. In this, his most captivating book to date, Adam Phillips reminds us why people often feel most alive in the very moment of escape.
