Twelve Years a Slave Solomon Northup,2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US,on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Digital Forensics with Open Source Tools Cory Altheide,Harlan Carvey,2011-03-29 Digital Forensics with Open Source Tools is the definitive book on investigating and analyzing computer systems and media using open source tools. The book is a technical procedural guide, and explains the use of open source tools on Mac, Linux and Windows systems as a platform for performing computer forensics. Both well-known and novel forensic methods are demonstrated using command-line and graphical open source computer forensic tools for examining a wide range of target systems and artifacts. Written by world-renowned forensic practitioners, this book uses the most current examination and analysis techniques in the field. It consists of 9 chapters that cover a range of topics such as the open source examination platform; disk and file system analysis; Windows systems and artifacts; Linux systems and artifacts; Mac OS X systems and artifacts; Internet artifacts; and automating analysis and extending capabilities. The book lends itself to use by students and those entering the field who do not have means to purchase new tools for different investigations. This book will appeal to forensic practitioners from areas including incident response teams and computer forensic investigators; forensic technicians from legal, audit, and consulting firms; and law enforcement agencies. Written by world-renowned forensic practitioners Details core concepts and techniques of forensic file system analysis Covers analysis of artifacts from the Windows, Mac, and Linux operating systems

Overcoming School Refusal Joanne Garfi, 2018-01-31 School refusal affects up to 5% of children and is a complex and stressful issue for the child, their family and school. The more time a child is away from school, the more difficult it is for the child to resume normal school life. If school refusal becomes an ongoing issue it can negatively impact the child's social and educational development. Psychologist Joanne Garfi spends most of her working life assisting parents, teachers, school counsellors, caseworkers, and community policing officers on how best to deal with school refusal. Now her experiences and expertise are available in this easy-to-read practical book. Overcoming School Refusal helps readers understand this complex issue by explaining exactly what school refusal is and provides them with a range of strategies they can use to assist children in returning to school. Areas covered include: • types of school refusers • why children refuse to go to school • symptoms • short term and long term consequences • accurate assessment • treatment options • what parents can do • what schools can do • dealing with anxious high achievers • how to help children on the autism spectrum with school refusal

Every Child Matters Kailash Satyarthi, 2018-01-01 Society has celebrated children even as it has denied fundamental rights and dignity to millions of them. Mass movements and social awareness against injustices like child labour, lack of access to health and education, child sexual abuse and trafficking have been catalysed by reformers like Nobel Peace Laureate Kailash Satyarthi. As a result of his untiring efforts, child labour is now universally considered to be a social evil that has to be abolished. Equally important, societies and governments across the world have accepted that access to quality education is the fundamental right of every child. Even as he has fought for justice and dignity for children, Mr. Satyarthi has found time to provoke, inspire and illuminate young minds by writing about children, their dreams and the power of their humanity. This book is a compilation of columns and interviews which highlight the continuing struggle to create safe childhoods. Readers will find much to introspect after going through this collection.

Teaching with Movies Teresa O'Bannon, Marni Goldenberg, 2008 The book contains a movie finder that categorizes movies by topics and themes for recreation, leisure, tourism, sport management, and physical education curricula. It also has these features: 19 core concepts, such as environmental issues, leadership, diversity, and commercial recreation, so you can easily find movies that reinforce specific themes; guidance in preparing for, teaching, and evaluating movies in your classroom; a strong foundation for justifying the use of movies as educational tools; and tools for effectively teaching each movie, including framing methods, discussion questions, and debriefing activities for further exploration of recreation-related concepts.

Movies and Mental Illness Danny Wedding, Ryan M. Niemiec, 2014 This popular and critically acclaimed text, using movies to help learn about mental illness, has been fully updated with DSM-5 and ICD-10 diagnoses, dozens of evocative and informative frame grabs, a full film index, Authors' Picks, sample syllabus, more international films and shorts... Films can be a powerful aid to learning about mental illness and psychopathology - for students of psychology, psychiatry, social work, medicine, nursing, counseling, literature or media studies, and for anyone interested in mental health. Movies and Mental Illness, written by experienced clinicians and teachers who are themselves movie aficionados, has established a great reputation as a uniquely enjoyable and highly memorable text for learning about psychopathology. The new edition has been fully updated to include DSM-5 and ICD-10 diagnoses. The core clinical chapters each use a fabricated case history and Mini-Mental State Examination along with synopses and discussions about specific movies to explain, teach, and encourage discussion about all the most important mental health disorders. Each chapter also includes: Critical Thinking Questions; Authors' Picks (Top 10 Films); What To Read if You Only Have Time to Read One Book or Article; and Topics for Group Discussions. Other features of the new, expanded edition include: * Full index of films * Sample course syllabus * Ratings of around 1,500 films * Fascinating appendices, such as Top 50 Heroes and Villains, psychotherapists in movies, misconceptions about mental illness in movies, and recommended websites, plus listings of the PRISM Awards for Feature Films and the SAMHSA Voice Awards.

Reading in the Dark John Golden,2001 To believe that students are not using reading and analytical skills when they watch or read a movie is to miss the power and complexities of film--and of students' viewing processes. This book encourages teachers to harness students' interest in film to help them engage critically with a range of media, including visual and printed texts. Toward this end, the book provides a practical guide to enabling teachers to feel comfortable and confident about using film in new and different ways. It addresses film as a compelling medium in itself by using examples from more than 30 films to explain key terminology and cinematic effects. And it then makes direct links between film and literary study by addressing reading strategies (e.g., predicting, responding, questioning, and storyboarding) and key aspects of textual analysis (e.g., characterization, point of view, irony, and connections between directorial and authorial choices). The book concludes with classroom-tested suggestions for putting it all together in teaching units on 11 films ranging from Elizabeth to Crooklyn to Smoke Signals. Some other films examined are E.T.,Life Is Beautiful,Rocky,The Lion King, and Frankenstein. (Contains 35 figures. Appendixes include a glossary of film terms, blank activity charts, and an annotated resource list.) (NKA)
