Cursor Translator 31

Jonathan Wolpaw,Elizabeth Winter Wolpaw

Translators and Their Prologues in Medieval England Elizabeth Dearnley,2016 An examination of French to English translation in medieval England, through the genre of the prologue.

The Southern Version of Cursor Mundi, Vol. V Laurence M. Eldredge,Anne L. Klinck,2000-05-03 The medieval poem Cursor Mundi is a biblical verse account of the history of the world, offering a chronological overview of salvation history from Creation to Doomsday. Originating in northern England around the year 1300, the poem was frequently copied in the north before appearing in a southern version in substantially altered form. Although it is a storehouse of popular medieval biblical lore and a fascinating study in the eclectic use of more than a dozen sources, the poem has until now attracted little scholarly attention. This five-part collaborative edition presents the Arundel version of the poem with variants from three others. In addition it provides a discussion of sources and analogues, detailed explanatory notes, and a bibliography.

Expertise and Explicitation in the Translation Process Birgitta Englund Dimitrova,2005-09-22 This book addresses the complexities of the translation process. Informed by theoretical and methodological advances in translation studies, research on writing and the expertise paradigm, it explores translation as a text reproduction task. With triangulation of data from Russian-Swedish translation – think-aloud-methodology and computer logging of the writing process - it makes a cross-sectional comparison of subjects with different amounts of translation experience, highlighting crucial aspects of professional competence and expertise in translation. The book also elaborates a method for a combined product and process analysis, applying it to the study of one type of explicitation: increased cohesive explicitness of the target text. The results have implications for translation theory and pedagogy. This volume will be of interest to translation scholars and translator trainers, irrespective of language combination, as well as to specialists in Russian and Swedish. It will also appeal to researchers on expertise in other domains.

Translation that Openeth the Window David G. Burke,2009 In celebration of the work of the translators of the King James Bible and the fruit of their labors, the authors of this volume, representing a wide range of disciplines and perspectives, examine the cultural and religious monument that is the King James Bible. After David G. Burkes introduction to the volume, Alister McGrath, Benson Bobrick, Lynne Long, and John R. Kohlenberger III explore in part 1 The World of Bible Translation before the King James Version. In part 2, A. Kenneth Curtis, Barclay M. Newman and Charles Houser, and Jack Lewis investigate The Making of the King James Bible. In part 3 Leonard J. Greenspoon, Cheryl J. Sanders, Lamin Sanneh, David Lyle Jeffrey, and James R. White review The World of Bible Translation after the King James Bible. Paperback. 296 pages.

Translator's Workbench Marianne Kugler,Khurshid Ahmad,Gregor Thurmair,2013-11-09 The Translator's Workbench Project was a European Community sponsored research and development project which dealt with issues in multi-lingual communication and docu mentation. This book presents an integrated toolset as a solution to problems in translation and docu mentation. Professional translators and teachers of translation were involved in the proc ess of software development, starting with a detailed study of the user requirements and ending with several evaluation-and-improvement cycles of the resulting toolset. English, German, Greek, and Spanish are addressed in the contributions, however, some of the techniques are inherently language-independent and can thus be extended to cover other languages as well. Translation can be viewed broadly as the execution of three cognitive processes, and this book has been structured along

these lines: • First, the translation pre-process, understanding the target language text at a lexico semantic level on the one hand, and making sense of the source language document on the other hand. The tools for the pre-translation process include access to electronic networks, conversion of documents from one format to another, creation of terminol ogy data banks and access to existing data banks, and terminology dictionaries. • Second, the translation process, rendering sentences in the source language into equiva lent target sentences. The translation process refers to the potential of conventional machine translation systems, like METAL, and of the statistically oriented translation memory.

Chinese Discourses on Translation Martha Cheung Pui Yiu,2014-04-30 Discourse on translation, at once a term referring to any text (works of translation included) that expresses the author's views, ideas and theorizations on translation – on its modes of operation, its dynamics, principles and methods, and/or on the philosophy, epistemology, ontology and hermeneutics of translation – and a term emphasizing the inseparable relation between power and knowledge, is an integral part of all translation traditions.

Time, Space, Matter in Translation Pamela Beattie,Simona Bertacco,Tatjana Soldat-Jaffe,2022-09-28 Time, Space, Matter in Translation considers time, space, and materiality as legitimate habitats of translation. By offering a linked series of interdisciplinary case studies that show translation in action beyond languages and texts, this book provides a capacious and innovative understanding of what translation is, what it does, how, and where. The volume uses translation as a means through which to interrogate processes of knowledge transfer and creation, interpretation and reading, communication and relationship building—but it does so in ways that refuse to privilege one discipline over another, denying any one of them an entitled perspective. The result is a book that is grounded in the disciplines of the authors and simultaneously groundbreaking in how its contributors incorporate translation studies into their work. This is key reading for students in comparative literature—and in the humanities at large—and for scholars interested in seeing how expanding intellectual conversations can develop beyond traditional questions and methods.
