From legendary legal thriller author John Grisham comes a unique collection of stories connected by the life and crimes of Ford County. Stebbins, Jurgen Grotz, 2017-01-18 Written by over 200 leading experts from over seventy countries, this handbook provides a comprehensive, state-of-the-art overview of the latest theory and research on volunteering, civic participation and nonprofit membership associations. The first handbook on the subject to be truly multinational and interdisciplinary in its authorship, it represents a major milestone for the discipline. Each chapter follows a rigorous theoretical structure examining definitions, historical background, key analytical issues, usable knowledge, and future trends and required research. The nine parts of the handbook cover the historical and conceptual background of the discipline; special types of volunteering; the major activity areas of volunteering and associations; influences on volunteering and association participation; the internal structures of associations; the internal processes of associations; the external environments of associations; the scope and impacts of volunteering and associations; and conclusions and future prospects. This handbook provides an essential reference work for third-sector research and practice, including a valuable glossary of terms defining over eighty key concepts. Sponsored by the International Council of Voluntarism, Civil Society, and Social Economy Researcher Associations (ICSERA; [www.icsera.org](http://www.icsera.org)), it will appeal to scholars, policymakers and practitioners, and helps to define the emergent academic discipline of voluntaristics.

*The Use of Force in UN Peace Operations* Trevor Findlay, Stockholm International Peace Research Institute, 2002 One of the most vexing issues that has faced the international community since the end of the Cold War has been the use of force by the United Nations peacekeeping forces. UN intervention in civil wars, as in Somalia, Bosnia and Herzegovina, and Rwanda, has thrown into stark relief the difficulty of peacekeepers operating in situations where consent to their presence and activities is fragile or incomplete and where there is little peace to keep. Complex questions arise in these circumstances. When and how should peacekeepers use force to protect themselves, to protect their mission, or, most troublingly, to ensure compliance by recalcitrant parties with peace accords? Is a peace enforcement role for peacekeepers possible or is this simply war by another name? Is there a grey zone between peacekeeping and peace enforcement? Trevor Findlay reveals the history of the use of force by UN peacekeepers from Sinai in the 1950s to Haiti in the 1990s. He untangles the arguments about the use of force in peace operations and sets these within the broader context of military doctrine and practice. Drawing on these insights the author examines proposals for future conduct of UN operations, including the formulation of UN peacekeeping doctrine and the establishment of a UN rapid reaction force.

**Uncoupling** Diane Vaughan, 1990-09-05 Drawing from extensive research and in-depth interviews, an invaluable guide for anyone who wants to understand—or prevent—the collapse of a relationship. How do relationships end? Why does one partner suddenly become discontented with the other—and why is the onset of that discontentment not so sudden after all? What signals do partners send each other to indicate their doubts? Why do those signals so often go unnoticed? And how do people who saw themselves as part of a couple come to terms not just with absence and abandonment, but with a new, single identity? This groundbreaking book reveals a process that begins in secret but gradually becomes public, implicating not only partners but their social milieu. Enlightening, accessible, and deeply affecting, *Uncoupling* offers a startling vision of what really happens behind the surface when

relationships come apart.

**Religious Complexity in the Public Sphere** Inger Furseth, 2017-08-20 This book is an empirical comparative study of the complexity of religion in the public spheres of the five Nordic countries. The result of a five-year collaborative research project, the work examines how increasingly religiously diverse Nordic societies regulate, debate, and negotiate religion in the state, the polity, the media, and civil society. The project finds that there are seemingly contradictory religious trends at different social levels: a growing secularization at the individual level, and a deprivatization of religion in politics, the media, and civil society. It offers a critique of the current theories of secularization and the return of religion, introducing religious complexity as an alternative concept to understand these paradoxes. This book is for scholars, students, and readers with an interest in understanding the public role of religion in the West.

Grassroots Associations David Horton Smith, 2000-05-11 This volume explores the world of grassroots organizations and outlines their history while differentiating them from the more familiar paid-staff nonprofit organizations.

David Horton Smith, a leading scholar on the nonprofit and voluntary sector, examines the available empirical research on the topic and analyzes the theoretical concepts that have come to define such associations. He affords the reader a complete, detailed description of the nature and characteristics of grassroots organizations, their formation, structure, leadership, life cycle, effectiveness, and their integral role in postmodern societies.

Indian Kāvya Literature A. K. Warder, 1972 This volume on the twelfth and thirteenth centuries starts with Vidyakara's retrospect over anonymous poets (named ones having mostly found their places in earlier volumes). After some smaller anthologies a few novels and Mankhaka's mythological epic we come to a historical epic. History is the most substantial source of matter for literature in the volume. That might seem to contrast with Vol. Vi, but as literature its aim is always art, not facts which narrows the gap.

Big Wild Love Jill Sherer Murray, 2020-05-12 Jill Sherer Murray lived in a dead-end relationship into her forties before she finally let it go. She was like millions of women who struggle with whether to stay in a loveless marriage, a bad relationship, or give up on dating altogether, believing love isn't in the cards. You may be struggling with a similar decision yourself. Perhaps you're terrified of being single, and yet you don't truly feel you're living the life you want. With warmth and honesty, Murray shows you how letting go—of feeling stuck, afraid, and alone, and of believing what you've got is all you deserve—can free you from a life that isn't serving you. She knows this is true, because she did it herself—and ultimately attracted the love and life she wanted. Through her story, other women's stories, surprising facts and statistics, and helpful exercises, Big Wild Love will show you the way back to the self you've lost. It will put you on the path to change and teach you that, wherever you are, it's never too late to start anew and find the Big Wild Love you deserve.

Columbine Dave Cullen,2009-04-06 Ten years in the works, a masterpiece of reportage, this is the definitive account of the Columbine massacre, its aftermath, and its significance, from the acclaimed journalist who followed the story from the outset. The tragedies keep coming. As we reel from the latest horror . . . So begins a new epilogue, illustrating how Columbine became the template for nearly two decades of spectacle murders. It is a false script, seized upon by a generation of new killers. In the wake of Newtown, Aurora, and Virginia Tech, the imperative to understand the crime that sparked this plague grows more urgent every year. What really happened April 20, 1999? The horror left an indelible stamp on the American psyche, but most of what we know is wrong. It wasn't about jocks, Goths, or the Trench Coat Mafia. Dave Cullen was one of the first reporters on scene, and spent ten years on this book-widely recognized as the definitive account. With a keen investigative eye and psychological acumen, he draws on mountains of evidence, insight from the world's leading forensic psychologists, and the killers' own words and drawings-several reproduced in a new appendix. Cullen paints raw portraits of two polar opposite killers. They contrast starkly with the flashes of resilience and redemption among the survivors. Expanded with a New Epilogue

*Lockdown* Daniel Briggs,Luke Telford,Anthony Lloyd,Anthony Ellis,Justin Kotzé,2021-12-10 This book asks whether the decision to lock down the world was justified in proportion to the potential harms and risks generated by the Covid-19 virus. Drawing on global, empirical data, it explores and exposes the social harms induced by lockdowns, many of which are 'hidden', including joblessness, mental health problems and an intensification of societal inequalities and divisions. It offers data-driven case studies on harms such as domestic violence, child abuse, the distress of being ordered to stay at home, and the numerous harms associated with the new wealth industries. It explores why some people weren't compliant with lockdown restrictions and examines the already vulnerable social groups who were disproportionately affected by lockdown including those who were locked in (care home residents), locked up (prisoners), and locked out (migrant workers, refugees). The book closes with a brief discussion on what the future might look like as we enter a post-Covid world, drawing on cutting-edge social theory.
