Technical Translations ,1966

The Translator's Doubts Julia Trubikhina,2019-08-28 Using Vladimir Nabokov as its "case study," this volume approaches translation as a crucial avenue into literary history and theory, philosophy and interpretation. The book attempts to bring together issues in translation and the shift in Nabokov studies from its earlier emphasis on the "metaliterary" to the more recent "metaphysical" approach. Addressing specific texts (both literary and cinematic), the book investigates Nabokov's deeply ambivalent relationship to translation as a hermeneutic oscillation on his part between the relative stability of meaning, which expresses itself philosophically as a faith in the beyond, and deep metaphysical uncertainty. While Nabokov's practice of translation changes profoundly over the course of his career, his adherence to the Romantic notion of a "true" but ultimately elusive metaphysical language remained paradoxically constant.

The Longest Romance Humberto Fontova,2013-08-13 Fidel Castro jailed political prisoners at a higher rate than Stalin during the Great Terror. He murdered more Cubans in his first three years in power than Hitler murdered Germans during his first six. Alone among world leaders, Castro came to within inches of igniting a global nuclear holocaust. But you would never guess any of that from reading the mainstream American media. Instead we hear fawning accounts of Castro liberating Cuba from the clutches of U.S. robber-barons and bestowing world-class healthcare and education on his downtrodden citizens. "Propaganda is vital—the heart of our struggle," Castro wrote in 1955. Today, the concept is as valid to the Cuban regime as ever. History records few propaganda campaigns as phenomenally successful or enduring as Castro and Che's. *The Longest Romance* exposes the full scope of this deception; it documents the complicity of major U.S. media players in spreading Castro's propaganda and in coloring the world's view of his totalitarian regime. Castro's cachet as a celebrity icon of anti-Americanism has always overshadowed his record as a warmonger, racist, sexist, Stalinist, and godfather of modern terrorism. *The Longest Romance* uncovers this shameful history and names its major accomplices.

Practical 3D Printers Brian Evans,2012-09-25 Desktop or DIY 3D printers are devices you can either buy preassembled as a kit, or build from a collection

of parts to design and print physical objects including replacement household parts, custom toys, and even art, science, or engineering projects. Maybe you have one, or maybe you're thinking about buying or building one. Practical 3D Printers takes you beyond how to build a 3D printer, to calibrating, customizing, and creating amazing models, including 3D printed text, a warship model, a robot platform, windup toys, and arcade-inspired alien invaders. You'll learn about the different types of personal 3D printers and how they work; from the MakerBot to the RepRap printers like the Huxley and Mendel, as well as the whiteAnt CNC featured in the Apress book *Printing in Plastic*. You'll discover how easy it is to find and design 3D models using web-based 3D modeling, and even how to create a 3D model from a 2D image. After learning the basics, this book will walk you through building multi-part models with a steampunk warship project, working with meshes to build your own action heroes, and creating an autonomous robot chassis. Finally, you'll find even more bonus projects to build, including wind-up walkers, faceted vases for the home, and a handful of useful upgrades to modify and improve your 3D printer.

Memorials of the Clayton Family Thomas William Aveling, 2022-02-16 Reprint of the original, first published in 1867.

Sixty Stories Donald Barthelme, 2003-09-30 With these audacious and murderously witty stories, Donald Barthelme threw the preoccupations of our time into the literary equivalent of a Cuisinart and served up a gorgeous salad of American culture, high and low. Here are the urban upheavals reimagined as frontier myth; travelogues through countries that might have been created by Kafka; cryptic dialogues that bore down to the bedrock of our longings, dreams, and angsts. Like all of Barthelme's work, the sixty stories collected in this volume are triumphs of language and perception, at once unsettling and irresistible. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

The Student's Ovid Ovid, 2000 Ideally suited to intermediate to advanced college-level students, *The Student's Ovid* offers twenty-one selections from the *Metamorphoses*, with notes to aid translation and interpretation. The introduction includes an essay on Ovid's life and works, an outline of the structure of the *Metamorphoses*, and tips on Latin poetic forms and usage. Accompanying each Latin passage is an introduction that provides background on the myths and their literary history, both in Ovid and in other classical authors. The detailed notes on each selection are designed to help students read and understand the Latin for themselves. Other special features of this book include: · a glossary of mythological characters · lists of stories grouped by theme to help teachers design courses to suit their students' interests · discussions of the basic concepts of classical meter, Latin pronunciation, and accentuation · reference charts on the declension of Greek nouns to aid the reading of proper names · a select bibliography of translations and secondary studies

The Theatre of Don Juan Oscar Mandel, 1986-01-01 Many good things are provided for our instruction and delight in this handsome volume. Chief among them perhaps, and most keenly wanted in a collection of this sort . . . are sanity and wit. The Romanic Review A most interesting literary history of the Don Juan theme with the plays or works themselves serving as illustrations. Professor Mandel's general introduction and his shorter introductions and commentaries throughout the book are solid, wise, and engaging. Robert E. Taylor, Renaissance News This anthology is exhaustive and informative, expertly translated, and, by virtue of its subject, damned exciting. Quarterly Journal of Speech [The translations] are lively and . . . quite faithful to the originals. . . . The long introduction could well stand alone: fruitful in original observations on the nature of Don Juan, spirited, argumentative, and quite personal. Armand F. Singer, Hispania The eternal Don Juan, the creation more than 350 years ago of a monk and dramatist known as Tirso de Molina, has appeared on the boards as a thinker and fool, hero and villain, but never as anything less than a great lover. Oscar Mandel's Theatre of Don Juan presents different aspects of the Don's spectacular progress through a half-dozen countries, epochs, and intellectual climates. Here are full-length plays by Molina, Molière, Shadwell, Da Ponte, Grabbe, Moncrieff, Zorrilla, and Rostand; excerpts from plays by Shaw, Montherlant, and Frisch; plus a dozen critical and interpretative essays. In his introduction, Mandel examines the legend of Don Juan.

A Dolphin in the Woods Composite Translation, Paraversing & Distilling Prose Robin D. Gill, 2009-11 Readings combined into a single cluster to English Japanese poems of Joycean density untranslatable as single poems came to be called composite translations. While this book essays the translation of poetry and glances at other books of multiple translation, it is mostly an exhibition of the art not only intended for serious students or scholars of translation but all word-lovers. While the author hates how to books, writing the last chapter, he came to realize that not only translators, but monolingual readers who find it hard to compose poems or do not know how to get other people to do so, might find it instructive. He dreams of millions of people working out their own poems - or variations on others' work - rather than crossword puzzles. A crossword solved ends up in the trash; with a poem, you can have your cake and not only eat it, too, but serve it up for others to eat. --amazon.com.

Literature Now Sascha Bru, 2016-01-19 Introduces the most important terms for understanding literature, past and present. Literature Now argues that modern literary history is currently the main site of theoretical and methodological reflection in literary studies. Via 19 key terms, the book takes stock of recent scholarship and demonstrates how analyses of particular historical phenomena have modified our understanding of crucial notions like archive, book, event, media, objects, style and the senses. The book not only reveals a rich diversity of subjects and approaches but also identifies the most salient traits of literature and literary studies today. Leading literary critics and historians offer thought-provoking arguments as well as authoritative explorations of the key terms of literary studies providing students as well as scholars with a rich resource for exploring theoretical issues from a historically informed perspective. Key Features Organised around the key terms used in literary studies today: archive, book, medium, translation, subjects, senses, animals, objects, politics, time, invention,

event, generation, period, beauty, mimesis, style, popular and genre Puts literary history at the forefront of theoretical and methodological reflection in literary studies Original chapters by leading literary critics, theorists and historians

Women Redefining the Experience of Food Insecurity Janet Page-Reeves, 2014-07-03 *Women Redefining the Experience of Food Insecurity: Life Off the Edge of the Table* is about understanding the relationship between food insecurity and women's agency. The contributors explore both the structural constraints that limit what and how much people eat, and the myriad ways that women creatively and strategically re-structure their own fields of action in relation to food, demonstrating that the nature of food insecurity is multi-dimensional. The chapters portray how women develop strategies to make it possible to have food in the cupboard and on the table to be able to feed their families. Exploring these themes, this book offers a lens for thinking about the food system that incorporates women as agentive actors and links women's everyday food-related activities with ideas about food justice, food sovereignty, and food citizenship. Taken together, the chapters provide a unique perspective on how we can think broadly about the issue of food insecurity in relation to gender, culture, inequality, poverty, and health disparity. By problematizing the mundane world of how women procure and prepare food in a context of scarcity, this book reveals dynamics, relationships and experiences that would otherwise go unremarked. Normally under the radar, these processes are embedded in power relations that demand analysis, and demonstrate strategic individual action that requires recognition. All of the chapters provide a counter to caricatured notions that the choices women make are irresponsible or ignorant, or that the lives of women from low-income, low-wealth communities are predicated on impotence and weakness. Yet, the authors do not romanticize women as uniformly resilient or consistently heroic. Instead, they explore the contradictions inherent in the ways that marginalized, seemingly powerless women ignore, resist, embrace and challenge hegemonic, patriarchal systems through their relationship with food.
