*Internet Privacy* Johannes Buchmann,2014-02-18 A thorough multidisciplinary analysis of various perspectives on internet privacy was published as the first volume of a study, revealing the results of the achatech project Internet Privacy - A Culture of Privacy and Trust on the Internet. The second publication from this project presents integrated, interdisciplinary options for improving privacy on the Internet utilising a normative, value-oriented approach. The ways in which privacy promotes and preconditions fundamental societal values and how privacy violations endanger the flourishing of said values are exemplified. The conditions which must be fulfilled in order to achieve a culture of privacy and trust on the internet are illuminated. This volume presents options for policy-makers, educators, businesses and technology experts how to facilitate solutions for more privacy on the Internet and identifies further research requirements in this area.

*Digital Whoness* Rafael Capurro,Michael Eldred,Daniel Nagel,2013-05-02 The first aim is to provide well-articulated concepts by thinking through elementary phenomena of today's world, focusing on privacy and the digital, to clarify who we are in the cyberworld — hence a phenomenology of digital whoness. The second aim is to engage critically, hermeneutically with older and current literature on privacy, including in today's emerging cyberworld. Phenomenological results include concepts of i) self-identity through interplay with the world, ii) personal privacy in contradistinction to the privacy of private property, iii) the cyberworld as an artificial, digital dimension in order to discuss iv) what freedom in the cyberworld can mean, whilst not neglecting v) intercultural aspects and vi) the EU context.

**Taking Night** Ashley Bennion,2015-11-17 It's been a decade since the antidote discovered by Shay Andrews' parents stopped the world's deadliest virus. She was only six, too young to remember it, but its darkness lingers in the daily vitalimin boosters - one red, one yellow - and a yearly vaccine that are strictly enforced by Edict law. For Shay, everything is about to change. A side effect of the yearly burn vax is no one dreams anymore, ever. So when Shay starts dreaming again, she's terrified. And rightly so; if anyone found out, she could be mistaken for an Abstainer and thrown into an internment camp for the rest of her life. What if everything you've been taught is a lie? When her dreams become nightmares, she struggles to navigate between her real life and a chilling dream world where nothing is as it seems. As everything she's ever known gets thrown upside down she's left facing the toughest question of all: How far will she go to uncover the truth?

The Cultural Shuttle European Association for American Studies. Conference,2004 'What is whose?' As there develops increasing speculation, in our age, on the nature of 'globalisation', the prodigious flux of ideas, people, ideas, goods and fashions between Europe and the United States over the centuries invites nuanced approaches and a modicum of relativisation. Imports and exports, the endless back and forth movement of political, social, economic, cultural notions and institutions permanently raise the question of reciprocal influences and contributions. 'Facing realities' is both a fact and an indispensable activity. American institutions are indebted to European thought, American culture has to deal with European visions and the variety of the European heritage; American social and political circumstances keep informing and interfering with European choices and decisions. What notions, values and artefacts are indeed 'adopted' by one or the other continent turn out to be selected in the name of idiosyncratic cultural dispositions and thereby undergo subtle modifications. No cultural object or sign ever travels without being profoundly transformed. This volume examines nationhood, citizenship and culture, on both sides of the Atlantic, in the light of such complex exchanges. At a time when Europe is exploring its own political organization, it seeks to profit by the American experience; at a time when American culture is more and more forcefully asserting its presence in Europe, critical evaluations of its real pertinence grow more numerous. What superficially appears to be one-sided imposition turns out to be an intricate and complex dialogue. Resistance, caution, recalcitrance, defiance and rejection are as important for a definition of identity as enthusiastic sharings and the adoption of welcomed influences, however ambiguous and variously motivated. An analysis of misunderstandings is the surest way to mutual comprehension. Climb aboard the cultural shuttle.

The Urban Condition Ghent Urban Studies Team,1999 What does the Western city at the end of the twentieth century look like? How did the modern metropolis of congestion and density turn into a posturban or even postsuburban cityscape? What are edge cities and technoburbs? How has the social composition of cities changed in the postwar era? What do gated communities tell us about social fragmentation? Is public space in the contemporary city being privatized and militarized? How can the urban self still be defined? What role does consumer aestheticism have to play in this? These and many more questions are addressed by this uniquely conceived multidisciplinary study. The Urban Condition seeks to interfere in current debates over the future and interpretation of our urban landscapes by reuniting studies of the city as a physical and material phenomenon and as a cultural and mental (arte)fact. The Ghent Urban Studies Team responsible for the writing and editing of this volume is directed by Kristiaan Versluys and Dirk De Meyer at the University of Ghent, Belgium. It is an interdisciplinary research team of young academics that further consists of Kristiaan Borret, Bart Eeckhout, Steven Jacobs, and Bart Keunen. The collective expertise of GUST ranges from architectural theory, urban planning, and art history to philosophy, literary criticism and cultural theory.

A Hazard of New Fortunes William Dean Howells,2023-03-28T06:39:24Z Basil March jumps at the chance to leave his boring job to become the founding editor of a new magazine. But this also means that he must leave comfortable Boston for the confusion and chaos of 1890s New York. As March and his wife try to find a decent place to live, he also struggles to find contributors and readers. The Marches are quickly drawn into the tangled lives of their fellow New Yorkers: a bitter German socialist who lost his hand fighting for the Union in the Civil War, a colonel nostalgic for slavery, Bohemian artists, increasingly desperate workers on strike, a slick publicist, a starchy society family, and a wealthy farmer-turned-speculator who hurts those he loves most. Born in Ohio, William Dean Howells was a highly successful magazine editor before he became a full-time writer. He believed that this midlife novel, which draws on his own family's experiences moving from Boston to New York, was his "most vital work." Mark Twain, whom Howells helped early in his career, called A Hazard of New Fortunes "the exactest & truest portrayal of New York and New York life ever written ... a great book." This book is part of the Standard Ebooks project, which produces free public domain ebooks.

**Romanticism and Postmodernism** Edward Larrissy,1999-08-28 The persistence of Romantic thought and literary practice into the late twentieth century is evident in many contexts, from the philosophical and ideological abstractions of literary theory to the thematic and formal preoccupations of contemporary fiction and poetry. Though the precise meaning of the Romantic legacy is contested, it remains stubbornly difficult to move beyond. This collection of essays by prominent critics and literary theorists was first published in 1999, and explores the continuing impact of Romanticism on a variety of authors and genres, including John Barth, William Gibson, and John Ashbery, while writers from the Romantic and Victorian period include Wordsworth, Byron and Emily Brontë. Many critics have assumed that the forms and modes of feeling associated with the

Romantic period continued to influence the cultural history of the the first half of the twentieth century. This was the first book to consider the mutual impact of postmodernism and Romanticism.

**The Paradise of Bachelors and The Tartarus of Maids** Herman Melville,2009-04-28 A short story from the Classic Shorts collection: The Happy Failure by Herman Melville  
Unruly Masses , Fin-de-siecle Vienna has become the glorified icon of innovative modernism in the arts and letters. This detailed account of the suburban life-worlds presents a very different image, one of harsh struggles for subsistence and survival, disparities between the social classes resulting in spatial and cultural segregation.
