Here it is - the first new Catechism of the Catholic Church in more than 400 years, a complete summary of what Catholics around the world commonly believe. Visual Theology Tim Challies,Josh Byers,2016 We live in a visual culture. Today, people increasingly rely upon visuals to help them understand new and difficult concepts. The rise and stunning popularity of the Internet infographic has given us a new way in which to convey data, concepts and ideas. But the visual portrayal of truth is not a novel idea. Indeed, God himself used visuals to teach truth to his people. The tabernacle of the Old Testament was a visual representation of man's distance from God and God's condescension to his people. Each part of the tabernacle was meant to display something of man's treason against God and God's kind response. Likewise, the sacraments of the New Testament are visual representations of man's sin and God's response. Even the cross was both reality and a visual demonstration. As teachers and lovers of sound theology, Challies and Byers have a deep desire to convey the concepts and principles of systematic theology in a fresh, beautiful and informative way. In this book, they have made the deepest truths of the Bible accessible in a way that can be seen and understood by a visual generation.
