The Shadow Man Mark Murphy,2012-07 Savannah surgeon Malcolm King had a perfect life - a loving wife, devoted daughter, and a thriving medical practice. And then it all ended. A chance encounter with a reckless driver in an airport parking lot leads to his first brush with the law. The senseless slaughter of a neighbor's pet soon follows, with Malcolm inexplicably questioned in the matter by the police. An adversary is found decapitated. An acquaintance is chopped into pieces and stuffed into a garbage bag. Malcolm soon finds himself the prime suspect in a serial murder case. But he's not a killer. Or is he? Who is the Thin Man who lurks at the edges of his vision? Are the flocks of ravens that crowd overhead a warning of impending doom? Or do they exist at all? And how can he protect his family from something - or someone - he knows absolutely nothing about? As Malcolm fights to discover the truth, he learns from a mysterious Seminole tracker that he may not be the first victim of a chameleon-like serial killer known as The Shadow Man. Malcolm's quest for justice takes him perilously close to the edge of sanity - and perhaps a little bit over.

A History of Experimental Film and Video A.L. Rees, 2019-07-25 Avant-garde film is almost indefinable. It is in a constant state of change and redefinition. In his highly-acclaimed history of experimental film, A.L. Rees tracks the movement of the film avant-garde between the cinema and modern art (with its postmodern coda). But he also reconstitutes the film avant-garde as an independent form of art practice with its own internal logic and aesthetic discourse. In this revised and updated edition, Rees introduces experimental film and video to new readers interested in the wider cinema, as well as offering a guide to enthusiasts of avant-garde film and new media arts. Ranging from Cézanne and Dada, via Cocteau, Brakhage and Le Grice, to the new wave of British film and video artists from the 1990s to the present day, this expansive study situates avant-garde film between the cinema and the gallery, with many links to sonic as well as visual arts. The new edition includes a review of current scholarship in avant-garde film history and includes updated reading and viewing lists. It also features a new introduction and concluding chapter, which assess the rise of video projection in the gallery since the millennium, and describe new work by the latest generation of experimental film-makers. The new edition is richly illustrated with images of the art works discussed.

The New Farm Brent Preston, 2018-03-27 This “must-read” memoir of human-scale agriculture offers an insider’s view of today’s food system by a leading voice in sustainable farming (Daniel Boulud). After years of working at the ends of the earth in human rights and development, Brent Preston and his wife were die-hard city dwellers. But

when their second child arrived, the shine came off urban living. In 2003 they bought a hundred acres and a rundown farmhouse, determined to build a farm that would sustain their family, nourish their community, heal their environment—and turn a profit. *The New Farm* is Preston's memoir of a decade of toil and perseverance. Farming is a complex and precarious business, and they made plenty of mistakes along the way. But as they learned how to grow food, and to succeed at the business of farming, they also found that a small, sustainable, organic farm could be an engine for change, a path to a more just and sustainable food system. Today, *The New Farm* supplies top restaurants, supports community food banks, hosts events with leading chefs, and grows extraordinary produce. Told with humor and heart, *The New Farm* is a joy, a passionate book by an important new voice.

They Left Us Everything Plum Johnson, 2016-07-26 A warm, heartfelt memoir of family, loss, and a house jam-packed with decades of goods and memories. After almost twenty years of caring for elderly parents—first for their senile father, and then for their cantankerous ninety-three-year old mother—author Plum Johnson and her three younger brothers have finally fallen to their middle-aged knees with conflicted feelings of grief and relief. Now they must empty and sell the beloved family home, twenty-three rooms bulging with history, antiques, and oxygen tanks. Plum thought: How tough will that be? I know how to buy garbage bags. But the task turns out to be much harder and more rewarding than she ever imagined. Items from childhood trigger difficult memories of her eccentric family growing up in the 1950s and '60s, but unearthing new facts about her parents helps her reconcile those relationships, with a more accepting perspective about who they were and what they valued. *They Left Us Everything* is a funny, touching memoir about the importance of preserving family history to make sense of the past, and nurturing family bonds to safeguard the future.
