Roll Models Richard Holicky, 2004 I thought life was pretty much over. Paul Herman I was afraid people wouldn't see me for who I still was. Cathy Green I didn't need this to be a better person. Susan Douglas I wasn't sure I wanted to live "this way." Kevin Wolitzky The above four people and 49 more just like them went on to find high levels of success and lead satisfying lives. Together they tell 53 stories of moving forward to meet all the challenges, fears, obstacles, and problems common to the life-altering circumstances after spinal cord injury, and doing it without benefit of wealth, large settlements or solid health coverage. Ranging in age from 21 to 67, disabled from three to 48 years they share 931 years of disability experience. Roll Models is a valuable new resource for recently injured people and their families, and for nurses, therapists, psychologists and all other professionals who treat, work with and care for people with spinal cord injury. Straight from the horse's mouth, survivors explore their experiences with disability and answer many questions those in rehab are asking: Early Thoughts What were your thoughts immediately following injury? What were your initial thoughts and reactions regarding SCI and the future? The First Years What were your biggest fears during that first year or so? How did you get past those early fears? Changes, Obstacles and Solutions How much different are you now, compared to how you were before injury? What's been the biggest obstacle? How did you address these obstacles? Finding What Works What have been the most difficult things for you to deal with since injury? What's the worst thing about having an SCI and using a chair? What's been your biggest loss due to injury? Is SCI the worst thing that ever happened to you? Tell me something about your problem solving skills. How do you deal with stress? What do you do to relieve stress? Salvations, Turning Points and More Was there any one thing that was your salvation or key to your success? Was there a turning point for you when you began to feel things were going to get better? What personal factors, habits and beliefs have helped you the most? SCI and Meaning Do you find any meaning, purpose or lessons in your disability? Did any positive opportunities come your way because of your injury? What's your greatest accomplishment? What are you most proud of? A wonderful roadmap with many alternate routes to living and thriving with SCI. Minna Hong, SCI survivor and Peer Support Coordinator/Vocational Liaison, Shepherd Center Avoids the trap of providing a "one size fits all mentality" and provides solutions as varied as the individuals used as examples. Accentuates the positives while not sugar coating the difficulties. Essential reading. Jeff Cressy SCI survivor and Director of Consumer and Community Affairs, SCI Project, Rancho Los Amigos A great resource for people as they venture out into the world, or search for meaning and a deeper, richer life. Filled with examples of real people and their real experiences. Terry Chase, ND, RN; SCI survivor; Patient & Family Education Program Coordinator, Craig Hospital A wonderful tool for the newly spinal cord injured individual, as well as the therapists and counselors working with them. This certainly hits the mark in capturing important survival strategies. Jack Dahlberg, SCI survivor, Past President of the National Spinal Cord Injury Association Artfully crafted and organized, Roll Models sensitively portrays life following spinal cord injury. Informative, creative, sensitive, as well as infused with humor and a kind heart. Recommended with my highest accolades. Lester Butt, Ph.D., ABPP, Director of the Department of Psychology, Craig Hospital

The Talent Code Daniel Coyle, 2009-04-28 What is the secret of talent? How do we unlock it? This groundbreaking work provides readers with tools they can use to maximize potential in themselves and others. Whether you're coaching soccer or teaching a child to play the piano, writing a novel or trying to improve your golf swing, this revolutionary book shows you how to grow talent by tapping into a newly discovered brain mechanism. Drawing on cutting-edge neurology and firsthand research gathered on journeys to nine of the world's talent hotbeds—from the baseball fields of the Caribbean to a classical-music academy in upstate New York—Coyle identifies the three key elements that will allow you to develop your gifts and optimize your performance in sports, art, music, math, or just about anything.

- **Deep Practice** Everyone knows that practice is a key to success. What everyone doesn't know is that specific kinds of practice can increase skill up to ten times faster than conventional practice.
- **Ignition** We all need a little motivation to get started. But what separates truly high achievers from the rest of the pack? A higher level of commitment—call it passion—born out of our deepest unconscious desires and triggered by certain primal cues. Understanding how these signals work can help you ignite passion and catalyze skill development.
- **Master Coaching** What are the secrets of the world's most effective teachers, trainers, and coaches? Discover the four virtues that enable these “talent whisperers” to fuel passion, inspire deep practice, and bring out the best in their students. These three elements work together within your brain to form myelin, a microscopic neural substance that adds vast amounts of speed and accuracy to your movements and thoughts. Scientists have discovered that myelin might just be the holy grail: the foundation of all forms of greatness, from Michelangelo's to Michael Jordan's. The good news about myelin is that it isn't fixed at birth; to the contrary, it grows, and like anything that grows, it can be cultivated and nourished. Combining revelatory analysis with illuminating examples of regular people who have achieved greatness, this book will not only change the way you think about talent, but equip you to reach your own highest potential.

Performing Rites Simon Frith, 1998-02-06 Who's better? Billie Holiday or P. J. Harvey? Blur or Oasis? Dylan or Keats? And how many friendships have ridden on the answer? Such questions aren't merely the stuff of fanzines and idle talk; they inform our most passionate arguments, distill our most deeply held values, make meaning of our ever-changing culture. In Performing Rites, one of the most influential writers on popular music asks what we talk about when we talk about music. What's good, what's bad? What's high, what's low? Why do such distinctions matter? Instead of dismissing emotional response and personal taste as inaccessible to the academic critic, Simon Frith takes these forms of engagement as his subject--and discloses their place at the very center of the aesthetics that structure our culture and color our lives. Taking up hundreds of songs and writers, Frith insists on acts of evaluation of popular music as music. Ranging through and beyond the twentieth century, Performing Rites puts the Pet Shop Boys and Puccini, rhythm and lyric, voice and technology, into a dialogue about the undeniable impact of popular aesthetics on our lives. How we nod our heads or tap our feet, grin or grimace or flip the dial; how we determine what's sublime and what's for real--these are part of the way we construct our social identities, and an essential response to the performance of all music. Frith argues that listening itself is a performance, both social gesture and bodily response. From how they are made to how they are received, popular songs appear here as not only meriting aesthetic judgments but also demanding them, and shaping our understanding of what all music means.

Cultivating Music in America Ralph P. Locke, Cyrilla Barr, 1997-01-01 The Victorian cup on my shelf--a present from my mother--reads 'Love the Giver.' Is it because the very word patronage implies the authority of the father that we have treated American women patrons and activists so unlovingly in the writing of our own history? This pioneering collection of superb scholarship redresses that imbalance. At the same time it brilliantly documents the interrelationship between various aspects of gender and the creation of our own culture.--Judith Tick, author of Ruth Crawford Seeger: A Composer's Search for American Music Together with the fine-grained and energetic research, I like the spirit of this book, which is ambitious, bold, and generous minded. Cultivating Music in America corrects long-standing prejudices, omissions, and misunderstandings about the role of women in setting up the structures of America's musical life, and, even more far-reaching, it sheds light on the character of American musical life itself. To read this book is to be brought to a fresh understanding of what is at stake when we discuss notions such as 'elitism, ' 'democratic taste, ' and the political and economic implications of art.--Richard Crawford, author of The American Musical Landscape We all know we are indebted to royal patronage for the music of Mozart. But who launched American talent? The answer is women, this book teaches us. Music lovers will be grateful for these ten essays, sound in scholarship, that make a strong case for the women philanthropists who ought to join Carnegie and Rockefeller as household words as sponsors of music.--Karen J. Blair, author of The Torchbearers: Women and Their Amateur Arts Associations in America

Vinyl Junkies Brett Milano, 2003-11-10 Not too far away from the flea markets, dusty attics, cluttered used record stores and Ebay is the world of the vinyl junkies. Brett Milano dives deep into the piles of old vinyl to uncover the subculture of record collecting. A vinyl junkie is not the person who has a few old 45s shoved in the cuboard from their days in high school. Vinyl Junkies are the people who will travel over 3,000 miles to hear a rare b-side by a German band that has only recorded two songs since 1962, vinyl junkies are the people who own every copy of every record produced by the favorite artist from every pressing and printing in existence, vinyl junkies are the people who may just love that black plastic more than anything else in their lives. Brett Milano traveled the U.S. seeking out the most die-hard and fanatical collectors to capture all that it means to be a vinyl junkie. Includes interviews with Thurston Moore of Sonic Youth, Peter Dinklage from R.E.M and Robert Crumb, creator of Fritz the cat and many more underground comics.
