

# Dart Pro Mt

W.E. Barnes

Hawaii 501 Wayne Mardle,2006-03 Wayne Hawaii 501' Mardle is the most flamboyant darts player in the world, rekindling the spirit of the 1980s when Eric Bristow, Jocky Wilson and co became working-class heroes. Wayne's natural talent, spectacular stage entrances, extrovert personality and, of course, his trademark tropical shirts, have won the Essex dartist a legion of fans and helped fire the sport's resurgence on Sky TV. After 15 years working as an accounts clerk to support himself in his dream to become a world champion, Wayne gives a candid insight into the fun and gritty reality of life in full-time darts.'

Информационная безопасность финансово-кредитных организаций в условиях цифровой трансформации экономики.  
Монография Коллектив авторов,2021-01-15 В монографии рассматриваются актуальные задачи, поставленные в «Дорожной карте» Программы «Цифровая экономика Российской Федерации» (распоряжение Правительства РФ No1632-р), наиболее значимые рубежи и решения в области информационной безопасности, которые будут обеспечивать безопасное информационное взаимодействие организаций и граждан, определять состояние и развитие защищенной информационной инфраструктуры финансово-кредитных организаций в условиях перехода к цифровой экономике на ближайшие несколько лет. Авторы монографии рассматривают ключевые тренды безопасного развития цифровой экономики в мире и в нашей стране, новые риски информационной безопасности для граждан, общества и государства, возможности российских компаний, работающих в сфере ИТ/ИБ – сопровождения перспективных финансовых технологий, меры необходимой правовой поддержки, а также вопросы технического обеспечения и стандартизации в процессе проведения нового экономического курса и усиления в нем стратегической роли вопросов информационной безопасности в банковской сфере.

Sunbirds Clive F. Mann,Robert A. Cheke,2010-07-30 Sunbirds is the first book since the 19th Century to cover in detail all the world's sunbirds and spiderhunters - the Nectarinidae. It also includes the allied families of flowerpeckers and sugarbirds; a total of 176 species is described and illustrated. The book has been designed to help readers identify all of these species and also their various subspecies, the most distinctive of which are illustrated as well as described. Each species account provides a distribution map, a summary of identification criteria and a description of how the species differs from similar ones. The calls and songs, habitat, geographical distribution, status, movements, food (including a list of known food plants), habits, and breeding biology are also described. Finally, a full description of the species and salient features of each subspecies is given, together with measurements and references. Sunbirds not only aids identification, it provides a wealth of information on the ecology and behaviour of these birds. The authors have carried out extensive fieldwork in Asia and Africa. They have also studied skins, nests and eggs held by museums, analysed tape recordings and critically reviewed the vast amount of material contained in books and scientific journals. The superb plates would not have been possible without the exhaustive study of specimens which, together with the use of photographs of living birds, has resulted in the artist, Richard Allen, capturing the essence of the birds, their 'jizz', and accurately portraying the beautiful, bright, often iridescent, plumages of these spectacular families.
