

Data Tracker For Libraries

Tabatha Farney,Nina McHale

Using Web Analytics in the Library Kate Marek, 2011-12 Libraries are delivering an ever-increasing proportion of their services through the web, a trend that seems certain to continue. In order to guide purchases and appropriately distribute services and staff time, it's essential that libraries and librarians accurately track the usage of their websites and online resources.

Usage and Usability Assessment Denise Troll Covey, 2002 This report offers a survey of the methods that are being deployed at leading digital libraries to assess the use and usability of their online collections and services. Focusing on 24 Digital Library Federation member libraries, the study's author, Distinguished DLF Fellow Denise Troll Covey, conducted numerous interviews with library professionals who are engaged in assessment. The report describes the application, strengths, and weaknesses of assessment techniques that include surveys, focus groups, user protocols, and transaction log analysis. Covey's work is also an essential methodological guidebook. For each method that she covers, she is careful to supply a definition, explain why and how libraries use the method, what they do with the results, and what problems they encounter. The report includes an extensive bibliography on more detailed methodological information, and descriptions of assessment instruments that have proved particularly effective.

Library Analytics and Metrics Ben Showers, 2015-04-30 This book will inform and inspire librarians, archivists, curators and technologists to make better use of data to help inform decision-making, the development of new services and the improvement of the user experience. With the wealth of data available to library and cultural heritage institutions, analytics are the key to understanding their users and improving the systems and services they offer. Using case studies to provide real-life examples of current developments and services, and packed full of practical advice and guidance for libraries looking to realize the value of their data, this will be an essential guide for librarians and information professionals. Library Analytics and Metrics brings together a group of internationally recognized experts to explore some of the key issues in the exploitation of data analytics and metrics in the library and cultural heritage sectors, including: The role of data in helping inform collections management and strategy Approaches to collecting, analyzing and utilizing data Using analytics to develop new services and improve the user experience Using ethnographic methodologies to better understand user behaviours The opportunities of library data as 'big data' The role of 'small data' in delivering meaningful interventions for users Practical advice on managing the risks and ethics of data analytics How analytics can help uncover new types of impact and value for institutions and organizations. Readership: This book will be an invaluable resource for librarians and library directors interested in developing a data-driven approach to their service provision and decision making; students on library and information science courses; and managers and practitioners in other cultural heritage sectors such as museums, archives and galleries.

Big Data Shocks Andrew Weiss, 2018-03-15 Big Data Shocks examines the roots of big data, the current climate and rising stars in this world. The book explores the issues raised by big data and discusses theoretical as well as practical approaches to managing information whose scope exists beyond the human scale.

#MakeoverMonday Andy Kriebel, Eva Murray, 2018-10-02 Explore different perspectives and approaches to create more effective visualizations #MakeoverMonday offers inspiration and a giant dose of perspective for those who communicate data. Originally a small project in the data visualization community, #MakeoverMonday features a weekly chart or graph and a dataset that community members reimagine in order to make it more effective. The results have been astounding; hundreds of people have contributed thousands of makeovers, perfectly illustrating the highly variable nature of data visualization. Different takes on the same data showed a wide variation of theme, focus, content, and design, with side-by-side comparisons throwing more- and less-effective techniques into sharp relief. This book is an extension of that project, featuring a variety of makeovers that showcase various approaches to data communication and a focus on the analytical, design and storytelling skills that have been developed through #MakeoverMonday. Paging through the makeovers ignites immediate inspiration for your own work, provides insight into different perspectives, and highlights the techniques that truly make an impact. Explore the many approaches to visual data communication Think beyond the data and consider audience, stakeholders, and message Design your graphs to be intuitive and more communicative Assess the impact of layout, color, font, chart type, and other design choices Creating visual representation of complex datasets is tricky. There's the mandate to include all relevant data in a clean, readable format that best illustrates what the data is saying—but there is also the designer's impetus to showcase a command of the complexity and create multidimensional visualizations that "look cool." #MakeoverMonday shows you the many ways to walk the line between simple reporting and design artistry to create exactly the visualization the situation requires.

Usage Statistics of E-Serials David Fowler, 2007-11-30 What are the potentials—and limitations—of usage statistics in libraries? As libraries increase their use of electronic resources, the value of quality evaluation of usage statistics has gained greater importance. Usage Statistics of E-Serials tackles this difficult issue by exploring in detail the proper evaluation of the level of usage of electronic resources. Noted experts discuss their own experiences in the field from multiple viewpoints and backgrounds, providing the reader with a well-rounded view of the entire topic. Issues comprehensively examined include the gathering and processing of statistics, costs and benefits of e-journals, evaluation and interpretation of data, and the comparison of different types of data collection methods. Usage Statistics of E-Serials reviews a range of situations and experiences of librarians and administrators in several different academic libraries. These authorities offer approaches and strategies to help readers more fully understand how to best manage those crucial resources. Multiple perspectives shine a needed spotlight on various challenges still facing academic librarians who attempt to measure and manage their library's electronic resources. This resource includes helpful screen captures, tables, and figures to fully explain ideas and data. Topics in Usage Statistics of E-Serials include: processing, standardizing, and dissemination of usage statistics a case study examining the cost of selection, acquisition, maintenance, and renewal of subscription of e-journals cost savings of canceling print journals evaluation and interpretation of data about the content and use of databases in decision-making the MaxData Project results of the Council of Connecticut Academic Library Directors (CCALD) e-resource management survey in-house current-awareness module MyCLICAPS statistics options provided by Serials Solutions the influence of usage statistics on collection development decisions the tracking of electronic resources by San Jose State University from the Federal depository program usage statistics as the basis for a usage-based pricing system more! Usage Statistics of E-Serials is a must-have resource for every academic librarian, particularly those in technical services, public services, and administration involved in gathering and utilizing usage statistics.

Measuring the Validity of Usage Reports Provided by E-Book Vendors: Emerging Research and Opportunities Chen-Gaffey, Aiping, Getsay, Heather, 2017-10-31 Electronic publications are proving to be a popular resource for many consumers. It is imperative that the credibility of vendor-supplied usage data is analyzed in order to present the most accurate, non-biased information on these up-and-coming products. Measuring the Validity of Usage Reports Provided by E-Book Vendors: Emerging Research and Opportunities is a pivotal scholarly source that examines the current practices and trends in usage reporting and offers recommendations for further refinement of this system. Featuring pertinent topics including COUNTER standardization, usage data, data consolidation, and report formatting, this publication is an ideal resource for academicians, students, and researchers that are interested in the latest evaluations in vendor-submitted usage reports.

How Libraries Should Manage Data Brian Cox, 2015-09-04 Have you ever looked at your Library's key performance indicators and said to yourself so what!? Have you found yourself making decisions in a void due to the lack of useful and easily accessible operational data? Have you ever worried that you are being left behind with the

emergence of data analytics? Do you feel there are important stories in your operational data that need to be told, but you have no idea how to find these stories? If you answered yes to any of these questions, then this book is for you. *How Libraries Should Manage Data* provides detailed instructions on how to transform your operational data from a fog of disconnected, unreliable, and inaccessible information – into an exemplar of best practice data management. Like the human brain, most people are only using a very small fraction of the true potential of Excel. Learn how to tap into a greater proportion of Excel's hidden power, and in the process transform your operational data into actionable business intelligence. Recognize and overcome the social barriers to creating useful operational data Understand the potential value and pitfalls of operational data Learn how to structure your data to obtain useful information quickly and easily Create your own desktop library cube with step-by-step instructions, including DAX formulas

Maximizing Google Analytics Tabatha Farney, Nina McHale, 2013 Are you getting your money's worth out of Google Analytics? Investing time in customizing your settings in Google Analytics helps you get the most out of the detailed data it offers, particularly if your library's web presence spans multiple platforms. In this issue of *Library Technology Reports*, experienced trainers Farney and McHale point you to the high-payoff priorities, with specific advice on such topics as How to implement Google Analytics in common content management systems, OPACs, discovery layers, and institutional repositories Cross-domain tracking, including guidance on when and how to combine or separate data across multiple domains or subdomains Identifying your website's purpose and using Goal Reports to measure results Using filters to exclude activity by library staff from your data Using event tracking to get data on use of PDFs, video player widgets, and other non-HTML objects Sample easy-to-implement HTML code is included in this issue, making it even more valuable.

Data Visualization Lauren Magnuson, 2016-09-15 *Data Visualization: A Guide to Visual Storytelling for Libraries* is a practical guide to the skills and tools needed to create beautiful and meaningful visual stories through data visualization. Learn how to sift through complex datasets to better understand a variety of metrics, such as trends in user behavior and electronic resource usage, return on investment (ROI) and impact metrics, and data about library collections and repositories. Sections include: ·Identifying and interpreting datasets for visualization ·Tools and technologies for creating meaningful visualizations ·Case studies in data visualization and dashboards *Data Visualization* also features a 20-page color insert showcasing a wide variety of visualizations generated using an array of data visualization technologies and programming languages that can serve as inspiration for creating your own visualizations. Understanding and communicating trends from your organization's data is essential. Whether you are looking to make more informed decisions by visualizing organizational data, or to tell the story of your library's impact on your community, this book will give you the tools to make it happen.

Using Digital Analytics for Smart Assessment Tabatha Farney, 2018-12-13 Tracking the library user's journey is no simple task in the digital world; users can often navigate through a series of different websites, including library websites, discovery tools, link resolvers, and more just to view a single journal article. Your library collects massive amounts of data related to this journey—probably more than you realize, and almost certainly more than you analyze. Too often library analytic programs simplify data into basic units of measurements that miss useful insights. Here, data expert Farney shows you how to maximize your efforts: you'll learn how to improve your data collection, clean your data, and combine different data sources. Teaching you how to identify and analyze areas that fit your library's priorities, this book covers case studies of library projects with digital analytics; ways to use email campaign data from MailChimp or ConstantContact; how to measure click-through rates from unavailable items in the catalog to the ILL module; getting data from search tools such as library catalogs, journal search portals, link resolvers, and digital repositories; using COUNTER compliant data from your electronic resources; techniques for using Google Tag Manager for custom metrics and dimensions; descriptions of analytics tools ranging from library analytics tools like Springshare's LibInsights and Orangeboy's Savannah to more focused web analytics tools like Google Analytics, Piwik, and Woopra; and data visualization tools like Tableau or Google Data Studio. Focusing on digital analytics principles and concepts, this book walks you through the many tools available, including step-by-step examples for typical library needs.

Dear Data Giorgia Lupi, Stefanie Posavec, 2016-09-13 Equal parts mail art, data visualization, and affectionate correspondence, *Dear Data* celebrates the infinitesimal, incomplete, imperfect, yet exquisitely human details of life, in the words of Maria Popova (Brain Pickings), who introduces this charming and graphically powerful book. For one year, Giorgia Lupi, an Italian living in New York, and Stefanie Posavec, an American in London, mapped the particulars of their daily lives as a series of hand-drawn postcards they exchanged via mail weekly—small portraits as full of emotion as they are data, both mundane and magical. *Dear Data* reproduces in pinpoint detail the full year's set of cards, front and back, providing a remarkable portrait of two artists connected by their attention to the details of their lives—including complaints, distractions, phone addictions, physical contact, and desires. These details illuminate the lives of two remarkable young women and also inspire us to map our own lives, including specific suggestions on what data to draw and how. A captivating and unique book for designers, artists, correspondents, friends, and lovers everywhere.

Data Clean-Up and Management Margaret Hogarth, Kenneth Furuta, 2012-10-22 Data use in the library has specific characteristics and common problems. *Data Clean-up and Management* addresses these, and provides methods to clean up frequently-occurring data problems using readily-available applications. The authors highlight the importance and methods of data analysis and presentation, and offer guidelines and recommendations for a data quality policy. The book gives step-by-step how-to directions for common dirty data issues. Focused towards libraries and practicing librarians Deals with practical, real-life issues and addresses common problems that all libraries face Offers cradle-to-grave treatment for preparing and using data, including download, clean-up, management, analysis and presentation

White Paper on Electronic Journal Usage Statistics M. Judy Luther, 2000 This paper provides a snapshot of developments in the electronic journal industry. The first section identifies issues affecting librarians and publishers, including: (1) issues of common concern to both publishers and librarians, e.g., lack of comparable data, lack of context, incomplete usage data, marketing, content provided, interface affecting usage, economic model, and user privacy; (2) library issues, e.g., budget justification and impact on selection; and (3) a publisher issue, internal applications. Quantitative measures are discussed in the second section, including what data elements should be collected and data reliability. The third section suggests a meeting at which publishers who have already implemented statistical functionality can share what they have learned, including producing useful data and interpreting the data. Appendices include summaries of interviews with librarians and publishers, the ICOLC (International Coalition of Library Consortia) Guidelines for Statistical Measures of Usage of Web-Based Indexed, Abstracted, and Full Text Resources, and descriptions of related industry initiatives. Library Linked Data Erik T. Mitchell,2014-01-01 Libraries are at a tipping point in adoption of linked data, and this issue of Library Technology Reports explores current research in linked open data, explaining concepts and pioneering services.

Freckle Report 2021 Tim Coates,2021-05-05 Freckle Report 2021 follows the Freckle Report 2020. It is an analysis of the performance and funding of public libraries in the United States, in Australia and in the United Kingdom It assesses the problems facing the service, the decline in use; the apparent denial of that problem; how library services can sensibly be measured; the pursuit of digital material and the increasingly diverse audiences. The reports contain original research of the most recently available figures about how the public make use of public libraries and how the libraries have responded to the demand for them in recent years In particular it reports how successful the library service in the United States has been in providing digital books, as audio and eBooks, during the Covid 19 Pandemic

Automated Library Systems and Document Tracking Systems John T. Phillips,P. M. Tarrant,Martin Marietta Energy Systems, Inc. Web Service APIs and Libraries Jason Paul Michel,2013 This book shows how to enhance an institution's presence on the Web with tools that integrate a variety of handy, popular programs. Application Programming Interfaces (APIs) are software tools that help different programs work together, and Michel shows readers how to integrate them into existing library websites as well as use them to launch new kinds of services. Offering step-by-step guidance, this book Uses real-world examples to show how APIs can be used to promote library materials and events, visualize data, educate patrons, and mobilize library services Demonstrates how to create and manage widgets for photo galleries, instant reporting on computer/printer availability, featured book titles and book reviews from library users, tracking usage data, and many other library functions Includes instructions for working with popular tools such as Flickr, YouTube, Vimeo, Twitter, Google Charts, OCLC, WordPress, Goodreads, LibraryThing, and the Hathi Trust Provides plentiful screenshots, snippets of HTML code, and easy-to-follow samples to ensure that even novices will feel comfortable integrating APIs into their marketing plans Focusing on widely adopted tools that all have immediate, useful applications, this practical book will help extend any library's reach.
