Fabulous Finn Dave Wardell,2018-02-08 THE TOP TEN BESTSELLER: The Inspirational Life of Finn, Britain's Bravest Dog, Winner of the 2017 Daily Mirror Animal Hero of the Year Award Hertfordshire, October 5th 2016. At around 2 a.m., PC Dave Wardell and his dog, PD Finn, were trying to apprehend a robbery suspect when he turned around and attacked them. Finn was stabbed with a ten-inch-bladed knife, both through his chest, via his armpit and then - the knife bound for Dave - through the top of his head. Finn no doubt saved Dave's life, but the race was on to try and save Finn's. Dave Wardell's heartfelt memoir charts an incredible journey of friendship and loyalty. It is a celebration of the bond between one man and his dog, from when Dave collected Finn from his kennels at just nine months old, all the way through to Finn's recent and hard-earned retirement. The book charts the career of a highly trained, highly decorated dog. In his time on the job Finn tracked offenders of all kinds; found missing children; tackled armed offenders; saved lives. But Finn isn't just a police dog - he's also a cherished family pet and this is his remarkable, life-affirming story.

The Wug Test Jean Berko Gleason,2019-12-09 The Wug Test is a picture book for children and adults that uses invented nouns, verbs, and adjectives to illuminate what children know about their own language. This book includes the original delightful Wug Test drawings and test questions created by Professor Jean Berko Gleason in 1958. The Wug Test, first given in research settings, showed that children do not learn language simply by memorizing what they hear. Instead, they learn the rules of their language so that they are able to make plurals, past tenses and other forms when presented with words they have never heard before. This book has pictures and interesting questions to share with children, along with informative notes and commentary for adults. It provides a fascinating insight into what even very young children know about language, as well as a way to understand and observe a child's acquisition of the rules of language over time. Ages 3-7.

Development of Nominal Inflection in First Language Acquisition Ursula Stephany,Maria D. Voeikova,2009-07-14 This book deals with the emergence of nominal morphology from a cross-linguistic perspective and is closely related to Development of Verb Inflection in First Language Acquisition (ed. by D. Bittner, W. U. Dressler, M. Kilani-Schoch) both methodologically and theoretically. Each of the fourteen contributions studies the early development of the fundamental inflectionally expressed categories of the noun (number, case, gender) in one of the languages belonging to different morphological types (isolating, fusional-inflecting, agglutinating, root inflecting) and families (Germanic, Romance, Slavic/Baltic, Greek, Finnic, Turc, Semitic, Indian American). The analyses are based on parallel longitudinal observations of children in their second and early third year of life as well as their input. The focus lies on the transition from a pre-morphological to a proto-morphological stage in which grammatical oppositions and so-called mini-paradigms begin to develop. The point at which children start to discover the morphological structure of their language and the speed with which they develop inflectional distinctions of lexical items has been found to be dependent on the morphological richness of the input language on the paradigmatic as well as the syntagmatic axis of linguistic structure. The findings are interpreted within non-
