AU-18 Space Primer Air Command Staff College,2012-08-01 The US National Space Policy released by the president in 2006 states that the US government should develop space professionals. As an integral part of that endeavor, AU-18, Space Primer, provides to the joint war fighter an unclassified resource for understanding the capabilities, organizations, and operations of space forces. This primer is a useful tool both for individuals who are not space aware-unacquainted with space capabilities, organizations, and operations-and for those who are space aware, especially individuals associated with the space community, but not familiar with space capabilities, organizations, and operations outside their particular areas of expertise. It is your guide and your invitation to all the excitement and opportunity of space. Last published in 1993, this updated version of the Space Primer has been made possible by combined efforts of the Air Command and Staff College's academic year 2008 Jointspacemindedness and Operational Space research seminars, as well as select members of the academic year 2009 Advanced Space research seminar. Chemistry and Significance of Condensed Tannins Richard W. Hemingway,Joseph J. Karchesy,2012-12-06 This book was developed from the proceedings of the first North American Tannin Conference held in Port. Angeles, Washington, August 1988. The objective of the conference was to bring together people with a common interest in condensed tannins and to promote interdisciplinary interactions that will lead to a better understanding of these important substances. Anot. her objective was the publicat. ion of this book because there has not been a monograph devoted to the chemistry and significance of tannins for several decades. The book is organized into sections dealing with the biosynthesis, structure, re actions, complexation with other biopolymers, biological significance, and use of tannins as specialty chemicals. The authors made a special attempt to focus on what we don't know as well as to provide a summary of what we do know in an effort to assist in planning future research. Our thanks go to the authors who so kindly contributed chapters and so pa tiently responded to our requests. We also thank Rylee Geboski and the Conference Assist. ance Staff, College of Forestry, Oregon State University, for their assistance in planning and conducting t. he conference, and Julia Wilson, Debbie Wolfe, Helen Coletka, and Nancy Greene of the Southern Forest Experiment Station, Pineville, Louisiana, who typed the chapt. ers. Linda Chalker-Scott was especially helpful in assisting us wit. h editing. Dick Hemingway is indebted t. o the staff of the Alexandria Forest.

Microsoft Windows Vista Unleashed Paul McFedries,2004-04-03 Microsoft® Windows Vista™ Unleashed, Second Edition Paul McFedries Second Edition Includes coverage of Windows Vista Service Pack 1! Microsoft Windows Vista Unleashed, Second Edition, is a book for people, like you, who don't consider themselves to be "average users." It's a book for anyone who finds that doing things the official way is slower, less efficient, and less powerful because Windows Vista was designed from the ground up to avoid confusing novice users. The result is default settings that restrict flexibility, interminable wizards that turn 2-step tasks into 12-step sagas, and the hiding of powerful and useful programs behind layers of menus and dialog boxes. To unleash the potential of Windows Vista, you need a different approach that blows away Vista's novice features and scorns the standard way of doing things. This book goes beyond the standard-issue techniques sanctioned by Microsoft and parroted in other Windows Vista books. Instead, this book offers shortcuts for boosting your productivity, customizations for making Windows Vista work the way you do, workarounds for known Windows Vista problems, and warnings for avoiding Windows Vista pitfalls. Along the way, you'll learn about all kinds of insider details, undocumented features, powerful tools, and background facts that help put everything into perspective. Paul McFedries is the president of Logophilia Limited, a technical writing company. He has been working with computers for more than 30 years and has been using Microsoft Windows since version 1. Paul has written more than 50 books that have sold more than 3 million copies worldwide. Learn what's new in Windows Vista Service Pack 1 Customize Windows Vista startup Troubleshoot software and hardware problems Tune Windows Vista's performance Automate Windows Vista with powerful and flexible scripts Implement Internet security and privacy features Configure and administer a small network Get the most out of Control Panel, group policies, the Registry, Device Manager, and other powerful tools Set up a complete maintenance program to keep Windows Vista running smoothly Discover a complete list of Windows Vista shortcut keys, a detailed look at the Command Prompt, and a batch file primer Master the new desktop search engine and learn how to group, stack, and filter files Understand and work with Windows Vista's User Account Control security feature Get the most out of your Tablet PC Take advantage of new Internet features such as RSS feeds, multiple home pages, and tabbed browsing Category: Microsoft Operating Systems Covers: Microsoft Windows Vista User Level: Intermediate—Advanced

Information and Communication Technologies in Tourism 1997 A.Min Tjoa,2012-12-06 For the fourth time now, experts in tourism from various countries come to attend the ENTER conference in order to inform themselves and others about the current devel opments in the usage of information and communication technologies. The ENTER conference is thought as a platform for the exchange of ideas, experi ences, opinions, and visions among scientists and practitioners. The visions presented at the last three ENTER conferences have triggered many requirements of important on-going and planned projects in the application of communication and information technologies in tourism. The scope of the papers of this proceedings covers the most recent and relevant to pics in our area of interest. The sessions are primarily devoted to intelligent agents and systems, the future role of global (reservation) systems, the new. chances of data base applications due to the most recent technological developments. and above all the role of the Internet (and Intranet). I would like to express my cordial thanks to all institutions actively supporting this event, namely: • The Edinburgh & Lothian Tourist Board • The International Federation of Information Technology in Tourism (IFITT) Several people spent numerous hours organizing the scientific programme of EN TER. The names of most of them will appear in the following pages.

Dragon Ball Super, Vol. 7 Akira Toriyama,2019-12-03 Goku's adventure from the best-selling classic manga Dragon Ball continues in this new series written by Akira Toriyama himself! Ever since Goku became Earth's greatest hero and gathered the seven Dragon Balls to defeat the evil Boo, his life on Earth has grown a little dull. But new threats loom overhead, and Goku and his friends will have to defend the planet once again in this continuation of Akira Toriyama's best-selling series, Dragon Ball! The Tournament of Power is about to begin! Warriors from all the universes gather to fight for their lives and the lives of everyone in their universes! Many fighters are eliminated almost immediately while Goku tries to garner the attention of Universe 11's strongest fighter, Jiren. But Jiren doesn't seem to care one bit about Goku! Will Universe 7 survive?!

The Ascension of the Messiah in Lukan Christology Arie W. Zwiep,2014-04-09 Building on the form-critical assessment of the Lukan ascension story (LK 24:50-53; Acts 1:1-12) as a rapture story, and motivated by the consideration that the 'monotheistic principle' almost inevitably must have led to a reestimate of the meaning and function of rapture in comparison with heathen rapture stories (immortalisation and deification!), the present study seeks to investigate the Lukan ascension story in the light of the first-century Jewish rapture traditions (Enoch, Elijah, Moses, Baruch, Ezra, etc.). The author argues that first-century Judaism provides a more plausible horizon of understanding for the ascension story than the Graeco-Roman rapture tradition, and that Luke develops his 'rapture christology' not as a reinterpretation of the primitive exaltation kerygma (G. Lohfink), but as a response to the eschatological question, i.e. the delay of the parousia, so as to secure the unity of salvation history.

Wurmbrand Voice of Voice of the Martyrs,2023-06 On February 29, 1948, Richard Wurmbrand was arrested by the secret police. His crime? Leading Christian worship and witnessing - both of which were illegal under

Romania's atheistic Communist regime. Because of Richard's faithfulness to Christ, he endured 14 years of prison and torture, while his wife, Sabina, suffered three years in a labor camp. In spite of these hardships, Richard and Sabina had an unshakeable faith in Christ. Wurmbrand explores the inspiring lives of Richard and Sabina Wurmbrand, combining their complete stories into a single volume for the first time. Your faith will be inspired as you go deep inside the darkest prison cells to see how the light of Christ continues to shine from the heart of those totally committed to Him.

Regionalism in Hellenistic and Roman Asia Minor Hugh Elton, 2019-01-22 Regions and regionalism have been staples of historical analysis for the Greek world for a very long time. What is meant by a region, however, is not always obvious. The contributions in this volume seek to address the question of defining regions and working out the implications of regionalism along different dimensions of analysis for Asia Minor in the Hellenistic and Roman periods. Looking at culture, coinage, political institutions, the papers explore different markers of regional identity, consider ways in which these identities may remain stable or change over time, review the character of the interaction between regional entities and hegemonic powers, and challenge the usefulness in some cases of regional analysis. Questions of ethnicity are also addressed. This volume will be of interest to historians working in Asia Minor and also to anyone concerned with the conceptual questions around regions and regionalism in the Mediterranean world.

Internationalization and Localization Using Microsoft .NET Nick Symmonds, 2008-01-01 Internationalization and Localization Using Microsoft .NET shows how to localize code using Visual Studio .NET. Author Nick Symmonds is an experienced developer and project manager of Windows applications intended for use worldwide. Symmonds knows the advantages of localization in the design stage and the disadvantages of localizing a project after the fact. Both methods of localizing code are discussed in this book. VS .NET has quite a few tools available for the developer to aid in the localization process. These tools are discussed in depth, and the pros and cons of each are presented to the reader. Symmonds includes a comprehensive example of a resource editor that takes readers through writing this editor in both C# and VB .NET. This project is not only useful as a product in itself, but is also instructive in how to write fairly complicated code in both .NET languages.

Upgrading and Repairing Laptops Scott Mueller, 2004 Beyond cutting edge, Mueller goes where no computer book author has gone before to produce a real owner's manual that every laptop owner should have. This book shows the upgrades users can perform, the ones that are better left to the manufacturer, and more.

Wong Kar-wai's Ashes of Time Wimal Dissanayake, 2003-06-01 Ashes of Time, by the internationally acclaimed director Wong Kar-wai, has been considered to be one of the most complex and self-reflexive of Hong Kong films. Loosely based on the stories by renowned martial arts novelist Jin Yong, Wong Kar-wai has created a very different kind of martial arts film, which invites close and sustained study. This book presents the nature and significance of Ashes of Time, and the reasons for its being regarded as a landmark in Hong Kong cinema. Placing the film in historical and cultural context, Dissanayake discusses its vision, imagery, visual style, and narrative structure. In particular, he focuses on the themes of mourning, confession, fantasy, and kung fu movies, which enable the reader to gain a deeper and more comprehensive understanding of the film.

Handbook of Space Security Kai-Uwe Schrogl, Peter L. Hays, Jana Robinson, Denis Moura, Christina Giannopapa, 2014-10-31 Space Security involves the use of space (in particular communication, navigation, earth observation, and electronic intelligence satellites) for military and security purposes on earth and also the maintenance of space (in particular the earth orbits) as safe and secure areas for conducting peaceful activities. The two aspects can be summarized as space for security on earth and "the safeguarding of space for peaceful endeavors." The Handbook will provide a sophisticated, cutting-edge resource on the space security policy portfolio and the associated assets, assisting fellow members of the global space community and other interested policy-making and academic audiences in keeping abreast of the current and future directions of this vital dimension of international space policy. The debate on coordinated space security measures, including relevant 'Transparency and Confidence-Building Measures,' remains at a relatively early stage of development. The book offers a comprehensive description of the various components of space security and how these challenges are being addressed today. It will also provide a number of recommendations concerning how best to advance this space policy area, given the often competing objectives of the world's major space-faring nations. The critical role to be played by the United States and Europe as an intermediary and middle diplomat in promoting sustainable norms of behavior for space will likewise be highlighted. In providing a global and coherent analytical approach to space security today, the Handbook focuses on four areas that together define the entire space security area: policies, technologies, applications, and programs. This structure will assure the overall view of the subject from its political to its technical aspects. Internationally recognized experts in each of

the above fields contribute, with their analytical synthesis assured by the section editors.
