Oracle Programming with Visual Basic Nick Snowdon,1999 Despite repeated attempts, including failed products, Oracle has been unable to create a development tool which will solve the problem with getting information out of the database and into the hands of managers and users. But, now here is a source to build quick and effective programs for inputting information into an Oracle database or creating reports. The book has been technically reviewed by the Microsoft developer support team and by an Oracle employee to insure the highest possible level of technical accuracy.

Expert One-on-One Oracle Thomas Kyte,2010-11-16 * A proven best-seller by the most recognized Oracle expert in the world. * The best Oracle book ever written. It defines what Oracle really is, and why it is so powerful. * Inspired by the thousands of questions Tom has answered on his <http://asktom.oracle.com> site. It tackles the problems that developers and DBAs struggle with every day. * Provides everything you need to know to program correctly with the database and exploit its feature-set effectively.

Communication and Learning Paul Witt,2016-09-12 In this volume, leading scholars from the fields of communication, educational psychology, and international education address what is known about the strategic role of interpersonal communication in the teaching/learning process. Instruction often involves spoken communication that carries information from teacher to learner, and in these instances the teacher's skillful and strategic use of language has a measurable impact on learning outcomes. Thus, the cumulative findings of instructional communication research are instrumental in maximizing the efficiency and effectiveness of both teaching and learning. Major sections of this volume include: Historical and Theoretical Foundations Instructor Characteristics and Behaviors Student Characteristics and Outcomes Pedagogy and Classroom Management Teaching and Learning Communication Across the Life-span This handbook serves researchers, professors, and graduate students by surveying the collective findings of research and experience concerning the intentional activity of teaching and learning.

Nakshatra Exploration Partha Sarathi Rout, 2021-06-04 Nakshatra Exploration is written with the sole objective of enabling the readers to master the true concept of Predictive Stellar Astrology, what Gururji KSK wanted to interpret in his various monumental work. The present research work on the KP system is unique in its presentation and it has many, hitherto, untold secrets of predictive techniques in stellar astrology. In this work, the author has established so many rules with practical examples, enabling him to grasp the logic in applying the original methodologies of KP principles, by his extensive research in this field for a decade. Apart from giving a detailed method to study the horoscope, the author has compiled 125 significant KP rulings, 26 prime Muhurath rulings and a detailed KP house grouping along with 44 most comprehensive know-how which bears witness to the author's expertized knowledge in the field of KP astrology. Another noteworthy point is that, through a few practical examples written at the end of the Practical Stellar Astrology section of this book, the author sheds light on his researched 'Modified KP (MKP)' principles. The author is optimistic that these principles will create a new benchmark in the history of Krishnamurti Padhdhati soon. This book is a treasure of knowledge and worth a prime place in your library.

Order out of Chaos David Siddhartha Patel, 2022-12-15 Order out of Chaos explains why Iraqis turned to the mosque after state collapse. In 2003, the

US-led invasion of Iraq destroyed the Bathist state. Despite this the citizens of Basra established predictable routines of daily life and social order as the familiar and customary structures of state-imposed order collapsed. What enabled individuals in Basra to work together to produce order amid anarchy? The answer: the Friday mosque. A week after the regime fell, Shii imams introduced Friday congregational prayers and associated sermons for the first time in most places since the 1950s. These sermons facilitated the spread of common knowledge and coordination, both locally and nationally, and contributed to the emergence of a relatively cohesive imagined community of Iraqi Shia that came to dominate Iraq's political order. Combining rational choice approaches, ethnographic understanding, and GIS analysis, David Siddhartha Patel reveals the interconnectedness of the enduring problem of how societies create social order in a stateless environment, the origins and limits of political authority and leadership, and the social and political salience of collective identity.

Group Theory in Physics Wu-Ki Tung, 1985 An introductory text book for graduates and advanced undergraduates on group representation theory. It emphasizes group theory's role as the mathematical framework for describing symmetry properties of classical and quantum mechanical systems. Familiarity with basic group concepts and techniques is invaluable in the education of a modern-day physicist. This book emphasizes general features and methods which demonstrate the power of the group-theoretical approach in exposing the systematics of physical systems with associated symmetry. Particular attention is given to pedagogy. In developing the theory, clarity in presenting the main ideas and consequences is given the same priority as comprehensiveness and strict rigor. To preserve the integrity of the mathematics, enough technical information is included in the appendices to make the book almost self-contained. A set of problems and solutions has been published in a separate booklet.

Foxlogic, Fireweed Jennifer K. Sweeney, 2020-09-01 Winner of the Backwaters Prize in Poetry, Jennifer K. Sweeney's *Foxlogic, Fireweed* follows a lyrical sequence of five physical and emotional terrains—floodplain, coast, desert, suburbia, and mesa—braiding themes of nature, domesticity, isolation, and human relationships. These are poems of the earth's wild heart, its searing mysteries, its hollows, and its species, poems of the complex domestic space, of before and after motherhood, gun terror, the election, of dislocation and home, and of how we circle toward and away from our centers. Sweeney is not afraid to take up the domestic and inner lives of women, a nuanced relationship with the natural world that feels female or even maternal, or a duty to keeping alive poetry's big questions of transcendence, revelation, awe, and deep presence in the ordinary.
