Fields Where They Lay Timothy Hallinan, 2016-10-25
Burglar Junior Bender may just be our favorite literary P.I.—Entertainment Weekly It’s three days until Christmas and Junior Bender, Hollywood’s fasttalking fixer for the felonious, is up to his ears in shopping mall Santas, Russian mobsters, desperate holiday shoppers, and (’tis the season) murder. The halls are decked, the deck is stacked, and here comes that jolly old elf. Junior Bender, divorced father of one and burglar extraordinaire, finds himself stuck inside the Edgerton Mall, and not just as a last-minute shopper (though he is that too). Edgerton isn’t exactly the epicenter of holiday cheer, despite its two Santas, canned Christmas music, chintzy bows, and festive lights. The mall is a fossil of an industry in decline; many of

its stores are closed, and to make matters worse, there is a rampant shoplifting problem. The murderous Russian mobster who owns the place has decided it takes a thief to catch a thief and hires Junior—under threat—to solve the shoplifting problem for him. But Junior's surveillance operation doesn't go well: as Christmas Eve approaches, two people are dead and it's obvious that shoplifting is the least of the mall's problems. To prevent further deaths, possibly including his own, Junior must confront his dread of Christmas—both present and past.

Blindsight Peter Watts, 2006-10-03 Hugo and Shirley Jackson award-winning Peter Watts stands on the cutting edge of hard SF with his acclaimed novel, *Blindsight* Two months since the stars fell... Two months of silence, while a world held its breath. Now some half-derelict space probe, sparking fitfully past Neptune's orbit, hears a whisper from the edge of the solar system: a faint signal sweeping the cosmos like a lighthouse beam. Whatever's out there isn't talking to us. It's talking to some distant star, perhaps. Or perhaps to something closer, something en route. So who do you send to force introductions with unknown and unknowable alien intellect that doesn't wish to be met? You send a linguist with multiple personalities, her brain surgically partitioned into separate, sentient processing cores. You send a biologist so radically interfaced with machinery that he sees x-rays and tastes ultrasound. You send a pacifist warrior in the faint hope she won't be needed. You send a monster to command them all, an extinct hominid predator once called vampire, recalled from the grave with the voodoo of recombinant genetics and the blood of sociopaths. And you send a synthesist—an informational topologist with half his mind gone—as an interface between here and there. Pray they can be trusted with the fate of a world. They may be more alien than the

thing they've been sent to find. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

A Stolen Life Jaycee Dugard, 2011-07-12 A raw and powerful memoir of Jaycee Lee Dugard's own story of being kidnapped as an 11-year-old and held captive for over 18 years On 10 June 1991, eleven-year-old Jaycee Dugard was abducted from a school bus stop within sight of her home in Tahoe, California. It was the last her family and friends saw of her for over eighteen years. On 26 August 2009, Dugard, her daughters, and Phillip Craig Garrido appeared in the office of her kidnapper's parole officer in California. Their unusual behaviour sparked an investigation that led to the positive identification of Jaycee Lee Dugard, living in a tent behind Garrido's home. During her time in captivity, at the age of fourteen and seventeen, she gave birth to two daughters, both fathered by Garrido. Dugard's memoir is written by the 30-year-old herself and covers the period from the time of her abduction in 1991 up until the present. In her stark, utterly honest and unflinching narrative, Jaycee opens up about what she experienced, including how she feels now, a year after being found. Garrido and his wife Nancy have since pleaded guilty to their crimes.

Strengthening Forensic Science in the United States National Research Council,Division on Engineering and Physical Sciences,Committee on Applied and Theoretical Statistics,Policy and Global Affairs,Committee on Science, Technology, and Law,Committee on Identifying the Needs of the Forensic Sciences Community,2009-07-29 Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and

regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. *Strengthening Forensic Science in the United States* gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

The Cannon Film Guide: Volume I, 1980-1984

Austin Trunick, "The Cannon Film Guide is the greatest book anyone could ever write about the greatest movie studio that ever was. And is." —Mike McPadden, author of *Teen Movie Hell* and *Heavy Metal Movies* The Cannon Film Guide Volume I explores forty films and franchises produced by The Cannon Group, the most prolific b-movie studio of the 1980s, during the company's first five years under the command of cult film legends Menahem Golan and Yoram Globus. Through in-depth studies and behind-the-scenes stories from the people who made them, this volume examines such beloved, VHS-era classics as the *Breakin'*, *Missing in Action*, *Hercules*, and *Death Wish* movies, *Revenge of the Ninja*, *Ninja III: The Domination*, *The Apple*, *Bolero*, *Exterminator 2*, *The Last American Virgin*, and many more. "If you're a fan of Cannon films, or even not a fan, you will be fascinated by Austin Trunick's deep dive into the studio's output. This is an under-reported part of cinema history and this book will delight both film buffs and casual devotees of action-packed movies. This book added to my knowledge, not to mention

my testosterone level.” —Frank Conniff, comedian, TV’s Mystery Science Theater 3000 A joyful, knowledgeable ode to one of the great film companies of all time, a sprawling epic full of fun stories, interviews, and images, and it delivers on its promise to be the ultimate guide to The Cannon Group and their releases. —david j. moore, author of The Good, the Tough, and the Deadly and World Gone Wild

We've Got People Ryan Grim,2019-05-23 Alexandria Ocasio-Cortez may seem like she came from nowhere, but the movement that propelled her to office - and to global political stardom - has been building for 30 years. *We've Got People* is the story of that movement, which first exploded into public view with the largely forgotten presidential run of the Rev. Jesse Jackson, a campaign that came dangerously close to winning. With the party and the nation at a crossroads, this timely and original book offers new insight into how we've gotten where we are - and where we're headed.
