Stop Paying Your Credit Cards Arthur V. Prosper,Didosphere,2018-01-08 ***SECOND EDITION***This book IS about negotiating forgiveness for your credit card debt by writing your creditor one simple negotiation letter and what to do if the creditor refuses to negotiate. If you owe money on your credit cards and cannot make payments anymore because of financial difficulty, this book is for you. I owed over \$100,000 in credit card debt and the debt was hurting my life. I had trouble sleeping at night thinking how long my ever-increasing debt would continue to gnaw at me. Even if I could afford to make the minimum payments and do not borrow anymore, with interest of 25% APR, I will still owe a lot of money after many years of making only minimum payments. The interest alone would total close to \$100,000. It took a year of trial and error, hours on the phone and writing meaningless letters most of which I copied from the internet before I saw the light at the end of the tunnel. None of the free advice and letters in the internet worked because the truth is I was not insolvent. I did not qualify for bankruptcy protection. I could have paid my credit card debt by liquidating my assets, selling my house, but that would have been devastating for my family. I kept on thinking of a way for my creditors to reduce my debt. I finally came up with The Letter that uniformly worked in negotiating down my debt. After mailing The Letter to my creditors, I received a reply from one of them offering to accept 50% of what I owed as full payment of my debt. I countered with 5%. We finally agreed on 10% of the original amount as full and final settlement of my balance. Considering I had not paid them for a year, I accumulated a little cash, so I was happy to grab the offer and pay the 10%. I had five credit cards with large balances and The Letter worked satisfactorily on four of the accounts. I settled the 4 accounts for between 5% and 15%. The last hold-out, surprisingly the account with the smallest balance at \$13,000 chose to take me to arbitration. This negotiation-resistant creditor perceived that they might collect more money from me that way but they were wrong. I was surprised that not one of the 4 creditors even referred to the contents of The Letter or attempted to verify what I had written in the letter. The Letter aims to convey this message: Take my final settlement offer or sue me. But if you sue me, you will lose. Ken Clark, author of The Complete Idiot's Guide to Getting Out of Debt: So many people are trying to get their balances reduced, you call and try to negotiate a balance, and it's 'Get in line.' The card company's attitude may be, Yeah, you and everybody else. My Comment - That's because you called to negotiate instead of sending them The Letter shown at the end of this chapter. Trust me there aren't that many accounts in default as a percentage of the whole or our banking system would collapse. If you write The Letter shown at the end of this chapter, the creditor will put you at the front of the line.Brian Tawney, Director of Clear One Advantage: Based on experience negotiating with creditors, debt settlement companies know what percentage of debt owed each creditor is likely to agree to. We use an algorithm that considers 140 different variables and tells us the accounts that have the highest opportunity to settle at any given time. We negotiate in bulk. We can negotiate thousands of cases and get a better settlement for everyone. Translation: Debt Settlement Agencies take only the easy cases that's why they negotiate in bulk. If they have to spend more time on your case because you have wages a creditor can garnish and assets they can put a lien on, they will not take your case. I like my system better. You write The Letter shown at the end of this chapter which begs creditors to forgive 85% to 95% of your debt. The creditors can take it or leave it. If they take it, you win. If they leave it, they lose. Author's website: www.didosphere.com

The White Coat Investor James M. Dahle,2014-01 Written by a practicing emergency physician, The White Coat Investor is a high-yield manual that specifically deals with the financial issues facing medical students, residents, physicians, dentists, and similar high-income professionals. Doctors are highly-educated and extensively trained at making difficult diagnoses and performing life saving procedures. However, they receive little to no training in business, personal finance, investing, insurance, taxes, estate planning, and asset protection. This book fills in the gaps and will teach you to use your high income to escape from your student loans, provide for your family, build wealth, and stop getting ripped off by unscrupulous financial professionals. Straight talk and clear explanations allow the book to be easily digested by a novice to the subject matter yet the book also contains advanced concepts specific to physicians you won't find in other financial books. This book will teach you how to: Graduate from medical school with as little debt as possible Escape from student loans within two to five years of residency graduation Purchase the right types and amounts of insurance Decide when to buy a house and how much to spend on it Learn to invest in a sensible, low-cost and effective manner with or without the assistance of an advisor Avoid investments which are designed to be sold, not bought Select advisors

who give great service and advice at a fair price Become a millionaire within five to ten years of residency graduation Use a Backdoor Roth IRA and Stealth IRA to boost your retirement funds and decrease your taxes Protect your hard-won assets from professional and personal lawsuits Avoid estate taxes, avoid probate, and ensure your children and your money go where you want when you die Minimize your tax burden, keeping more of your hard-earned money Decide between an employee job and an independent contractor job Choose between sole proprietorship, Limited Liability Company, S Corporation, and C Corporation Take a look at the first pages of the book by clicking on the Look Inside feature Praise For The White Coat Investor Much of my financial planning practice is helping doctors to correct mistakes that reading this book would have avoided in the first place. – Allan S. Dumping Debt Dave Ramsey, 2013-03 Debt is the most aggressively marketed product in history. And it isn't just sold by banks and credit card companies anymore. Many national retail chains make more money on the sale of credit applications than they do on the actual merchandise they sell. In Dumping Debt, Dave blows the lid off the credit game, debunking the leading myths about debt that have become ingrained in our natural way of thinking. Then he walks you right out of debt with his simple, clear and effective debt snowball technique.

The Total Money Makeover Dave Ramsey, 2009-12-29 The success stories speak for themselves in this book from money maestro Dave Ramsey. Instead of promising the normal dose of quick fixes, Ramsey offers a bold, no-nonsense approach to money matters, providing not only the how-to but also a grounded and uplifting hope for getting out of debt and achieving total financial health. Ramsey debunks the many myths of money (exposing the dangers of cash advance, rent-to-own, debt consolidation) and attacks the illusions and downright deceptions of the American dream, which encourages nothing but overspending and massive amounts of debt. Don't even consider keeping up with the Joneses, Ramsey declares in his typically candid style. They're broke! The Total Money Makeover isn't theory. It works every single time. It works because it is simple. It works because it gets to the heart of the money problems: you. This 3rd edition of The Total Money Makeover includes a fresh cover design, all new personal success stories, and naysayers, and more.
