Deer Creek Drive Beverly Lowry,2023-08-01 The stunning true story of a murder that rocked the Mississippi Delta and forever shaped one author’s life and perception of home. “Mix together a bloody murder in a privileged white family, a false accusation against a Black man, a suspicious town, a sensational trial with colorful lawyers, and a punishment that didn’t fit the crime, and you have the best of southern gothic fiction. But the very best part is that the story is true.” —John Grisham In 1948, in the most stubbornly Dixiefied corner of the Jim Crow south, society matron Idella Thompson was viciously murdered in her own home: stabbed at least 150 times and left facedown in one of the bathrooms. Her daughter, Ruth Dickins, was the only other person in the house. She told authorities a Black man she didn’t recognize had fled the scene, but no evidence of the man's presence was uncovered. When Dickins herself was convicted and sentenced to life in prison, the community exploded. Petitions pleading for her release were drafted, signed, and circulated, and after only six years, the governor of Mississippi granted Ruth Dickins an indefinite suspension of her sentence and she was set free. In *Deer Creek Drive*, Beverly Lowry—who was ten at the time of the murder and lived mere miles from the Thompsons’ home—tells a story of white privilege that still has ramifications today, and reflects on the brutal crime, its aftermath, and the ways it clarified her own upbringing in Mississippi.

Tales of Whitetails Archibald Rutledge,2020-05-08 Thirty-five stirring, contemplative stories of deer hunting from a winner of the John Burroughs Medal. Archibald Rutledge—renowned outdoor writer, poet laureate, and authority on whitetails—lived a rich life at Hampton Plantation in South Carolina, and had a mystical attachment to deer that found fulfillment in hunting and writing. No American sporting writer has been more persuasive in capturing the myriad, and often elusive, meanings of the hunt. According to editor Jim Casada, Rutledge has an unrivaled knack for capturing the thrill of the chase, and his ability to set a scene is such that it places the reader squarely amidst the deep swamps, ridges of mixed pines and hardwoods, and dense thickets of palmetto and greenbrier. Rutledge considered deer, “that noble, elusive, crafty, wonderful denizen of the wilds,” to be the wisest of the game animals. His firm belief was that there was “much more to hunting than hunting.” He praised whitetails in poetry, found in them a basis for a sophisticated philosophy, and, most of all, immortalized the world of the hunter and the hunted in prose. *Tales of Whitetails* is the only book ever published devoted exclusively to Rutledge’s deer tales.

Hunting Deer Hines Lambert,2013-01-15 Readers are introduced to the exciting world of deer hunting. Sports Afield's Deer Hunter's Almanac Sid Evans, Sports Afield, 1996 From the Introduction: There is not a successful deer hunter in the world who has not come up with his own peculiar methods -- some of them secret, some not -- for beating the long odds of killing a deer. The Ojibwa Indians of the Great Lakes figured out they could attract deer by smoking wild aster in a pipe, the smell of which was like the scent of a deer's hooves. Other tribes -- such as the Choctaws and Cherokees in the Southeast -- would carry skinned-out deer heads on their belts, which they could wear over their heads whenever they needed to make a stalk (this is no longer an advisable, or legal, technique). They used decoys and calls, and they knew that banging a pair of antlers together could summon a buck during the rut. In this book we have tried to compile some of the best information and most interesting pieces written about deer in Sports Afield since the magazine was founded in 1887. There were not as many deer to hunt back then, but over the last quarter century deer populations have boomed in nearly every state but Alaska and Hawaii, and so have the articles written about them. Many of these pieces originally appeared in the Sports Afield Almanac, which was introduced by Editor Ted Kesting in 1972; others appeared as departments or short features. All told, more than 250 deer hunters contributed, making this, we hope, a very unique look at what is now America's favorite game animal. Some of the contributors-like Dwight Schuh and Peter Fiduccia, Tom McIntyre and Ted Kerasote-are what we would call pros. They have hunted, studied and written about deer all their lives. Others are just guys who wanted to share a couple of their best deer-hunting secrets. Do not be surprised if you turn up some contradictory views. There's more than one way to shoot, skin, and cook a deer; but it may be that the best way of all is the one you have to figure out on your own. This is the finest book on whitetail hunting that I have seen. -- Larry Myhre, Sioux City Journal

New Medieval Literatures 21 Wendy Scase, Laura Ashe, Philip Knox, Kellie Robertson, 2021-03-19 New Medieval Literatures is an annual of work on medieval textual cultures, aiming to engage with intellectual and cultural pluralism in the Middle Ages and now. Its scope is inclusive of work across the theoretical, archival, philological, and historicist methodologies associated with medieval literary studies, and embraces the range of European cultures, capaciously defined. Essays in this volume engage with a wide range of subject matter, from as far back as Livy (d.c.AD 12/18) to Erwin Panofsky (d. 1968). They demonstrate that medieval textual cultures is a radically negotiable category and that medieval understandings of the past were equally diverse and unstable. They reflect on relationships between history, texts, and truth from a range of perspectives, from Foucault to truthiness, a twenty-first-century media coinage. Materiality and the technical crafts with which humans engage with the natural world are recurrent themes, opening up new insights on mysticism, knighthood, and manuscript production and reception. Analysis of manuscript illuminations offers new understandings of identity and diversity, while a survey of every thirteenth-century manuscript that contains English currently in Oxford libraries yields a challenging new history of script. Particular texts discussed include Chrétien de Troyes's Conte du Graal, Richard Rolle's Incendium amoris and Melos amoris, and the Middle English verse romances Lybeaus Desconus, The Erle of Tolous, Amis and Amiloun, and Sir Gawain and the Green Knight.

The Age of Deer Erika Howsare, 2024-01-02 A masterful hybrid of nature writing and cultural studies that investigates our connection with deer—from mythology to biology, from forests to cities, from coexistence to control and extermination—and invites readers to contemplate the paradoxes of how humans interact with and shape the natural world Deer have been an important part of the world that humans occupy for millennia. They're one of the only large animals that can thrive in our presence. In the 21st century, our relationship is full of contradictions: We hunt and protect them, we cull them from suburbs while making them an icon of wilderness, we see them both as victims and as pests. But there is no doubt that we have a connection to deer: in mythology and story, in ecosystems biological and digital, in cities and in forests. Delving into the historical roots of these

tangled attitudes and how they play out in the present, Erika Howsare observes scientists capture and collar fawns, hunters show off their trophies, a museum interpreter teaching American history while tanning a deer hide, an animal-control officer collecting the carcasses of deer killed by sharpshooters, and a woman bottle-raising orphaned fawns in her backyard. As she reports these stories, Howsare’s eye is always on the bigger picture: Why do we look at deer in the ways we do, and what do these animals reveal about human involvement in the natural world? For readers of H is for Hawk and Fox & I, The Age of Deer offers a unique and intimate perspective on a very human relationship.
