George Rawlinson

Defending Our Faith Bert E. Park, MD, 2016-06-08 Have you ever felt a bit like the troubled man who professed to Jesus: Lord, I believe. Help me overcome my unbelief!? Do you want to dig deeper into your faith so as to become more sure of what you hope for, and certain of what you cannot see? Havent you questioned whether there is any scientific support for the Genesis creation account or historical evidence to confirm the ministry, crucifixion and, yes, post-resurrection of a man named Jesus? Will you not be challenged in the future by either a skeptical critic or genuine seeker to defend Christianity with facts and not simply faith? If you answered yes to any of these questions, then this handbook written in succinct outline form is just what youve been looking for!

Curriculum for Wales: History for 11-14 years Rob Quinn, R. Paul Evans, 2022-12-12 Tell the story of Wales over the last 1000 years, as you discover how Welsh history, cynefin, culture and language are connected, from the past to the present. Underpinned by the four purposes of the new Curriculum for Wales, this book empowers pupils with the knowledge and skills that they need for learning, life and work. b” Design a curriculum that is unique to your school. /bUse the content flexibly to craft a historical education that reflects your pupils and your local area, as well as covering 'What matters' statements within the Humanities AoLE.brbrb” Follow an enquiry-based approach. /bStarting in early medieval times, this book establishes a strong chronological spine, with later enquiries looking at changes in Wales thematically.brbrb” Develop analytical and evaluative skills. /bA wide range of sources and interpretations encourage pupils to think like historians, using evidence to consider change and continuity, cause and consequence.brbrb” Put progression at the heart of the curriculum. /bEnd-of-topic Activities build towards more in-depth end-of-enquiry Review and Research tasks. All activities and tasks enable each pupil to move through their

individual learning journey towards their next 'Progression step'.

Dracula's Bloodline Radu R. Florescu, Matei Cazacu, 2013-08-02 This engrossing book tells the story of the Florescu family, from its feudal blood ties, to the notorious 15th century figure Vlad Tepes (Count Dracula), right up to present day, touching on such diverse personalities as the Kennedys, Bill Clinton, and Michael Jackson. In the tradition of Alex Haley's *Roots*, *Dracula's Bloodline* relates a multi-generational saga through the prism of one family's narrative, from medieval Eastern Europe to the post-Communist era. The book provides an inside look at Romania's bloody and turbulent history—a mostly untold narrative that embraces the cruel Ottoman invasions, vying boyars seeking to change the political order at home, and the toppling of the Ceausescu regime. The story of each century is told through the eyes of one Florescu (or more) who had a unique perch from which to view his or her contemporary society. Florescu and Cazacu drew on research that had mostly been kept in family hands. To track the Florescu footprint down through the

centuries since the 1400s, they used many sources: the Brasov archives in Transylvania, select letters, unpublished diaries, and extensive family documents that have been scattered from Europe to the United States. This fully indexed book offers many photographs from family archives, as well as a glossary of terms and titles, and a full genealogy showing the Florescu's family links to Vlad Tepes.

Autumn in the Heavenly Kingdom Stephen R.

Platt,2012-02-07 A gripping account of China's nineteenth-century Taiping Rebellion, one of the largest civil wars in history. Autumn in the Heavenly Kingdom brims with unforgettable characters and vivid re-creations of massive and often gruesome battles—a sweeping yet intimate portrait of the conflict that shaped the fate of modern China. The story begins in the early 1850s, the waning years of the Qing dynasty, when word spread of a major revolution brewing in the provinces, led by a failed civil servant who claimed to be the son of God and brother of Jesus. The Taiping rebels drew their power from the poor and the disenfranchised, unleashing the ethnic rage of millions of Chinese against their Manchu rulers. This homegrown movement seemed all but unstoppable until Britain and the United States stepped in and threw their support behind the Manchus: after years of massive carnage, all opposition to Qing rule was effectively snuffed out for generations. Stephen R. Platt recounts these events in spellbinding detail, building his story on two fascinating characters with opposing visions for China's future: the conservative Confucian scholar Zeng Guofan, an accidental general who emerged as the most influential military strategist in China's modern history; and Hong Rengan, a brilliant Taiping leader whose grand vision of building a modern, industrial, and pro-Western Chinese state ended in tragic failure. This is an essential and enthralling history of the rise and fall of the movement that, a century and a half ago, might have launched China on an entirely different path into the modern world.

DEFENDING OLD TESTAMENT AUTHORSHIP Edward D. Andrews,2017-09-24

Defending National Treasures Elizabeth

Karlsgodt,2011-04-07 Defending National Treasures explores the fate of art and cultural heritage during the Nazi occupation of France. The French cultural patrimony was a crucial locus of power struggles between German and French leaders and among influential figures in each country. Karlsgodt examines the

preservation policy that the Vichy regime enacted in an assertion of sovereignty over French art museums, historic monuments, and archeological sites. The limits to this sovereignty are apparent from German appropriations of public statues, Jewish-owned art collections, and key Germanic works of art from French museums. A final chapter traces the lasting impact of the French wartime reforms on preservation policy. In *Defending National Treasures*, Karlsgodt introduces the concept of *patrimania* to reveal examples of opportunism in art preservation. During the war, French officials sought to acquire coveted artwork from Jewish collections for the Louvre and other museums; in the early postwar years, they established a complicated guardianship over unclaimed art recovered from Germany. A cautionary tale for our own times, *Defending National Treasures* examines the ethical dimensions of museum acquisitions in the ongoing noble quest to preserve great works of art.

Defending the Resurrection Ed James Patrick Holding, 2010-08 Did Jesus rise from the dead? The question is one on which the truth of the Christian faith turns (1 Cor. 15). If Jesus did not rise, you may as well close down your church! In this volume, prominent Internet apologist James Patrick Holding and a team of Christian authors provide a series of essays defending the Resurrection as a historical event, taking on criticisms from every angle - from that which is scholarly to that which is plain lunacy! With this book, you'll be prepared to meet many of today's greatest challenges to the core event of the Christian faith. Both the interested reader and especially the student of this subject should find many worthwhile discussions

that are easily worth the price of the book. - from the Foreword by Dr. Gary Habermas

The Seven Great Monarchies of the Ancient Eastern World George Rawlinson, 2024-02-02 Reprint of the original, first published in 1875.

The Australia-Japan Defence and Security Relationship 1945-2021 Peter McDermott, 2022-05-05 McDermott examines the origins, development and prospects for the Australia and Japan Defence and Security Relationship. In 1945, Japan and Australia were foes; today they are partners in security, defence and military matters, each the other's most important strategically, after the United States. As the region faces threats from an increasingly assertive China, there is a growing prospect of conflict, particularly in Northeast Asia. McDermott discusses how Japan and Australia may cooperate in military action. Using previously classified government documents, and interviews with those involved in the decisions, as well as his own experiences, McDermott examines how political imperatives have shaped the security side of the A-JDSR. He offers new insights into the history and future of the relationship. An essential read for students and scholars of Asia-Pacific and Indo-Pacific security.
