Securing Citrix XenApp Server in the Enterprise Tariq Azad,2008-08-08

Citrix Presentation Server allows remote users to work off a network server as if they weren't remote. That means: Incredibly fast access to data and applications for users, no third party VPN connection, and no latency issues. All of these features make Citrix Presentation Server a great tool for increasing access and productivity for remote users. Unfortunately, these same features make Citrix just as dangerous to the network it's running on. By definition, Citrix is granting remote users direct access to corporate servers?..achieving this type of access is also the holy grail for malicious hackers. To compromise a server running Citrix Presentation Server, a hacker need not penetrate a heavily defended corporate or government server. They can simply compromise the far more vulnerable laptop, remote office, or home office of any computer connected to that server by Citrix Presentation Server. All of this makes Citrix Presentation Server a high-value target for malicious hackers. And although it is a high-value target, Citrix Presentation Servers and remote workstations are often relatively easily hacked, because they are often times deployed by overworked system administrators who haven't even configured the most basic security features offered by Citrix. The problem, in other words, isn't a lack of options for securing Citrix instances; the problem is that administrators aren't using them. (eWeek, October 2007). In support of this assertion Security researcher Petko D. Petkov, aka pdp, said in an Oct. 4 posting that his recent testing of Citrix gateways led him to tons of wide-open Citrix instances, including 10 on government domains and four on military domains. The most comprehensive book published for system administrators providing step-by-step instructions for a secure Citrix Presentation Server Special chapter by Security researcher Petko D. Petkov'aka pdp detailing tactics used by malicious hackers to compromise Citrix Presentation Servers Companion Web site contains custom Citrix scripts for administrators to install, configure, and troubleshoot Citrix Presentation Server

Hypotensive Syndromes in Geriatric Patients Kannayiram

Alagiakrishnan,Maciej Banach,2019-12-30 As the Baby Boomers age, concerns over healthcare systems abilities to accommodate geriatric patients grow increasingly challenging. The increased life expectancy of the population since the early 1900s had been built on the improvement of living conditions, diet, public health and advancement in medical care. With this we have seen a steady decline in the age-specific prevalence of vascular and heart diseases, stroke and even dementia. In addition, societies worldwide struggle to develop a large enough workforce to treat aging patients, which forces geriatric patients to rely on physicians in a wide array of specialties that are often not trained for their demographic. These trends have created a tremendous need for trustworthy resources, yet with regard to hypotensive syndromes, nothing of this nature exists. Hypotensive syndromes represent a heterogenous group of disease states. Hypotensive syndromes are characterized by low blood pressure following postural changes, meals and neck turning. These are common conditions seen in the elderly and could be due to blood pressure dysregulation. These syndromes frequently cause dizziness, syncope and falls in the elderly as well as a resultant decrease in function, and they are frequently mistaken for other conditions. This is especially true among physicians who are not trained to consider the unique needs of an aging patient. The proposed book is designed to present a comprehensive approach to the management of hypotensive syndromes in the elderly. Currently there are no guidelines or good resource to guide about these conditions. This book will also discuss the challenges of diagnosis and management of these conditions. The text introduces the concepts to set a clear foundation before covering the syndromes as they present in other comorbidities, including diabetes, heart failure, and a wide array of serious conditions that are common in older patients. As the Baby Boomers continue to age, this text will

prove a vital resource for a wide array of specialties that will be increasingly critical to meeting their needs.

Jott Sam Thompson,2018-06-14 In February of 1935, two young Irishmen walk in the grounds of a London mental hospital. Arthur Bourne, a junior psychiatrist, is about to jeopardise his future for his closest friend, an aspiring writer called Louis Molyneux. Arthur has been overshadowed since childhood by his brilliant, troubled friend. But after years of playing the unassuming companion, he is learning that loyalty has its costs: that old friendship may thwart new love, and perhaps even blur distinctions between the sane and the mad . . . Jott is a story about friendship, madness and modernism from the author of the Man Booker-longlisted Communion Town.

The Great Connection Arnie Warren,1996-12-31 As a former top CBS celebrity interviewer, Arnie Warren posed a question to himself, "How can you believe in that which you do not know?" His first book The Great Connection found its title reflective of the gift this book imparts; the reader finally understanding who they are, thus making the Great Connection! The Great Connection, is an uplifting and relatable short story designed to be read and reread as we grow through the seasons of our lives. It is a part auto-biographical story whose characters reflect one of the four DISC behavioral styles. As you read this fast moving story, you will see yourself, friends, family, colleagues or bosses interacting in multiple situations and finally begin to understand who you are, as well as others. Life long learners, entrepreneurs, human development professionals, leaders, as well as spiritual and life coaches have found this book to be a great resource to solidify a person's understanding of self, strengthen one's confidence, move through one's fears or insecurities to become the best they can be.
