*Adult Language Education and Migration* James Simpson, Anne Whiteside, 2015-03-27 *Adult Language Education and Migration: Challenging Agendas in Policy and Practice* provides a lively and critical examination of policy and practice in language education for adult migrants around the world, showing how opportunities for learning the language of a new country both shape and are shaped by policy moves. Language policies for migrants are often controversial and hotly contested, but at the same time innovative teaching practices are emerging in response to the language learning needs of today's mobile populations. This book: analyses and challenges language education policies relating to adult migrants in nine countries; provides a comparative study with separate chapters on policy and practice in each country; focuses on Australia, Canada, Spain (Catalonia), Finland, France, Ireland, the Netherlands, the UK and the US. *Adult Language Education and Migration* is essential reading for practitioners, students and researchers working in the area of language education in migration contexts.

Language, Society and Power Annabelle Mooney, Jean Stilwell Peccei, Suzanne LaBelle, Berit Engøy Henriksen, Eva Eppler, Anthea Irwin, Pia Pichler, Siân Preece, Satori Soden, 2010-12-14 *Language, Society and Power* is the essential introductory text for students studying language in a variety of social contexts. This book examines the ways in which language functions, how it influences thought and how it varies according to age, ethnicity, class and gender. It seeks to answer such questions as: How can a language reflect the status of children and older people? Do men and women talk differently? How can our use of language mark our ethnic identity? It also looks at language use in politics and the media and investigates how language affects and constructs our identities, exploring notions of correctness and attitudes towards language use. This third edition of this bestselling book has been completely revised to include recent developments in theory and

research and offers the following features: a range of new and engaging international examples drawn from everyday life: beauty advertisements, conversation transcripts, newspaper headlines reporting on asylum seekers, language themed cartoons, and excerpts from the television programme South Park and satirical news website The Onion new activities designed to give students a real understanding of the topic a new chapter covering 'Student Projects' – giving readers suggestions on how to further explore the topics covered in the book updated and expanded further reading sections for each chapter and a glossary. While it can be used as a stand-alone text, this edition of Language, Society and Power has also been fully cross-referenced with the new companion title: The Language, Society and Power Reader. Together these books provide the complete resource for students of English language and linguistics, media, communication, cultural studies, sociology and psychology.

**Information Needs of Communities** Steven Waldman, 2011-09 In 2009, a bipartisan Knight Commission found that while the broadband age is enabling an info. and commun. renaissance, local communities in particular are being unevenly served with critical info. about local issues. Soon after the Knight Commission delivered its findings, the FCC initiated a working group to identify crosscurrent and trend, and make recommendations on how the info. needs of communities can be met in a broadband world. This report by the FCC Working Group on the Info. Needs of Communities addresses the rapidly changing media landscape in a broadband age. Contents: Media Landscape; The Policy and Regulatory Landscape; Recommendations. Charts

and tables. This is a print on demand report.

**C, C++, Java, Python, PHP, JavaScript and Linux For Beginners** Manjunath.R,2020-04-13 An Introduction to

Programming Languages and Operating Systems for Novice Coders An ideal addition to your personal elibrary. With the aid of this indispensable reference book, you may quickly gain a grasp of Python, Java, JavaScript, C, C++, CSS, Data Science, HTML, LINUX and PHP. It can be challenging to understand the programming language's distinctive advantages and charms. Many programmers who are familiar with a variety of languages frequently approach them from a constrained perspective rather than enjoying their full expressivity. Some programmers incorrectly use Programmatic features, which can later result in serious issues. The programmatic method of writing programs—the ideal approach to use programming languages—is explained in this book. This book is for all programmers, whether you are a novice or an experienced pro. Its numerous examples and well paced discussions will be especially beneficial for beginners. Those who are already familiar with programming will probably gain more from this book, of course. I want you to be prepared to use programming to make a big difference. C, C++, Java, Python, PHP, JavaScript and Linux For Beginners is a comprehensive guide to programming languages and operating systems for those who are new to the world of coding. This easy-to-follow book is designed to help readers learn the basics of programming and Linux operating system, and to gain confidence in their coding abilities. With clear and concise explanations, readers will be introduced to the fundamental concepts of programming languages such as C, C++, Java, Python, PHP, and JavaScript, as well as the basics of the Linux operating system. The book offers step-by-step guidance on how to write and execute code, along with practical exercises that help reinforce learning. Whether you are a student or a professional, C, C++, Java, Python, PHP, JavaScript and Linux For Beginners provides a solid foundation in programming and

operating systems. By the end of this book, readers will have a solid understanding of the core concepts of programming and Linux, and will be equipped with the knowledge and skills to continue learning and exploring the exciting world of coding.

**Channelling Mobilities** Valeska Huber, 2013-08-01 The history of globalisation is usually told as a history of shortening distances and acceleration of the flows of people, goods and ideas. Channelling Mobilities refines this picture by looking at a wide variety of mobile people passing through the region of the Suez Canal, a global shortcut opened in 1869. As an empirical contribution to global history, the book asks how the passage between Europe and Asia and Africa was perceived, staged and controlled from the opening of the Canal to the First World War, arguing that this period was neither an era of unhampered acceleration, nor one of hardening borders and increasing controls. Instead, it was characterised by the channelling of mobilities through the differentiation, regulation and bureaucratisation of movement. Telling the stories of tourists, troops, workers, pilgrims, stowaways, caravans, dhow skippers and others, the book reveals the complicated entanglements of empires, internationalist initiatives and private companies.

Radio Revolten Knut Aufermann, Helen Hahmann, Sarah Washington, Ralf Wendt, 2019 This book documents Radio Revolten, the international radio-art festival in Halle, Germany, which took place in October 2016 and featured an independent station, installations, live performances, conferences, workshops and public interventions.

Urban Europe Mariana M. Koceva, Teodóra Brandmüller, Iuliana Lupu, Åsa Önnarfors, Louise Corselli-Nordblad, Catherine Coyette, Annika Johansson, Helene Strandell, Pascal Wolff, 2016 Statistical information is an important tool for analysing changing patterns of urban development and the impact that policy decisions have on life in our cities, towns and suburbs. Urban Europe - statistics on cities, towns and suburbs provides detailed

information for a number of territorial typologies that can be used to paint a picture of urban developments and urban life in the EU Member States, as well as EFTA and candidate countries. Each chapter presents statistical information in the form of maps, tables and figures, accompanied by a description of the policy context and a set of main findings. The publication is broken down into two parts : the first treats topics under the heading of city and urban developments, while the second focuses on the people in cities and the lives they lead. Overall there are 12 main chapters, covering : the urban paradox, patterns of urban and city developments, the dominance of capital cities, smart cities, green cities, tourism and culture in cities, living in cities, working in cities, housing in cities, foreign-born persons in cities, poverty and social exclusion in cities, as well as satisfaction and the quality of life in cities.

### **The Elements of Academic Style** Eric Hayot, 2014-08-26

Eric Hayot teaches graduate students and faculty in literary and cultural studies how to think and write like a professional scholar. From granular concerns, such as sentence structure and grammar, to big-picture issues, such as adhering to genre patterns for successful research and publishing and developing productive and rewarding writing habits, Hayot helps ambitious students, newly minted Ph.D.'s, and established professors shape their work and develop their voices. Hayot does more than explain the techniques of academic writing. He aims to adjust the writer's perspective, encouraging scholars to think of themselves as makers and doers of important work. Scholarly writing can be frustrating and exhausting, yet also satisfying and crucial, and Hayot weaves these experiences, including his own trials and tribulations, into an ethos for scholars to draw on as they write. Combining psychological support with practical suggestions for composing introductions and conclusions, developing a schedule for writing, using notes and citations, and structuring paragraphs and essays, this guide to the elements of academic style does its part to

rejuvenate scholarship and writing in the humanities.

**Metrolingualism** Alastair Pennycook,Emi Otsuji,2015-03-05 This book is about language and the city. Pennycook and Otsuji introduce the notion of 'metrolingualism', showing how language and the city are deeply involved in a perpetual exchange between people, history, migration, architecture, urban landscapes and linguistic resources. Cities and languages are in constant change, as new speakers with new repertoires come into contact as a result of globalization and the increased mobility of people and languages. Metrolingualism sheds light on the ordinariness of linguistic diversity as people go about their daily lives, getting things done, eating and drinking, buying and selling, talking and joking, drawing on whatever linguistic resources are available. Engaging with current debates about multilingualism, and developing a new way of thinking about language, the authors explore language within a number of contemporary urban situations, including cafés, restaurants, shops, streets, construction sites and other places of work, in two diverse cities, Sydney and Tokyo. This is an invaluable look at how people of different backgrounds get by linguistically. *Metrolingualism: Language in the city* will be of special interest to advanced undergraduate/postgraduate students and researchers of sociolinguistics and applied linguistics.

*Studying Language* Urzula Clark,2007-02-15 *Studying Language* introduces key ideas and current critical debates about how English functions within its social and cultural contexts, and provides practical examples and guidance on how to approach

further work in these topics. It introduces the core topics of language study: language variation, pragmatics, stylistics, critical discourse analysis, language and gender, and language and education. Each chapter includes case studies providing worked analysis of sample texts, suggestions for further project work and research and an annotated further reading section.

**Serious Games and Edutainment Applications** Minhua Ma, Andreas Oikonomou, 2017-03-03 With the continued application of gaming for training and education, which has seen exponential growth over the past two decades, this book offers an insightful introduction to the current developments and applications of game technologies within educational settings, with cutting-edge academic research and industry insights, providing a greater understanding into current and future developments and advances within this field. Following on from the success of the first volume in 2011, researchers from around the world presents up-to-date research on a broad range of new and emerging topics such as serious games and emotion, games for music education and games for medical training, to gamification, bespoke serious games, and adaptation of commercial off-the shelf games for education and narrative design, giving readers a thorough understanding of the advances and current issues facing developers and designers regarding games for training and education. This second volume of Serious Games and Edutainment Applications offers further insights for researchers, designers and educators who are interested in using serious games for training and educational purposes, and gives game developers with detailed information on current topics and developments within this growing area.

**English - One Tongue, Many Voices** Jan Svartvik, Geoffrey Leech, 2016-01-19 This is the fully revised and expanded second edition of English - One Tongue, Many Voices, a book by three internationally distinguished English language scholars who tell the fascinating, improbable saga of English in time and space. Chapters trace the history of the language from its obscure beginnings over 1500 years ago as a collection of dialects spoken by marauding, illiterate tribes. They show how the geographical spread of the language in its increasing diversity has made English into an international language of unprecedented range and

variety. The authors examine the present state of English as a global language and the problems, pressures and uncertainties of its future, online and offline. They argue that, in spite of the amazing variety and plurality of English, it remains a single language.

Due to the COVID-19 situation, the conference was held fully online. The boost in digital education

worldwide as a result of the pandemic was also one of the main topics of this year’s EMOOCs. All institutions of learning have been forced to transform and redesign their educational methods, moving from traditional models to hybrid or completely online models at scale. The learnings, derived from practical experience and research, have been explored in EMOOCs 2021 in six tracks and additional workshops, covering various aspects of this field. In this publication, we present papers from the conference’s Experience Track, the Policy Track, the Business Track, the International Track, and the Workshops.
