Adult Language Education and Migration James Simpson, Anne Whiteside, 2015-03-27 *Adult Language Education and Migration: Challenging Agendas in Policy and Practice* provides a lively and critical examination of policy and practice in language education for adult migrants around the world, showing how opportunities for learning the language of a new country both shape and are shaped by policy moves. Language policies for migrants are often controversial and hotly contested, but at the same time innovative teaching practices are emerging in response to the language learning needs of today's mobile populations. This book: analyses and challenges language education policies relating to adult migrants in nine countries; provides a comparative study with separate chapters on policy and practice in each country; focuses on Australia, Canada, Spain (Catalonia), Finland, France, Ireland, the Netherlands, the UK and the US. *Adult Language Education and Migration* is essential reading for practitioners, students and researchers working in the area of language education in migration contexts.

Information Needs of Communities Steven Waldman, 2011-09 In 2009, a bipartisan Knight Commission found that while the broadband age is enabling an info. and commun. renaissance, local communities in particular are being unevenly served with critical info. about local issues. Soon after the Knight Commission delivered its findings, the FCC initiated a working group to identify crosscurrent and trend, and make recommendations on how the info. needs of communities can be met in a broadband world. This report by the FCC Working Group on the Info. Needs of Communities addresses the rapidly changing media landscape in a broadband age. Contents: Media Landscape; The Policy and Regulatory Landscape; Recommendations. Charts and tables. This is a print on demand report.

Channelling Mobilities Valeska Huber, 2013-08-01 The history of globalisation is usually told as a history of shortening distances and acceleration of the flows of people, goods and ideas. *Channelling Mobilities* refines this picture by looking at a wide variety of mobile people passing through the region of the Suez Canal, a global shortcut opened in 1869. As an empirical contribution to global history, the book asks how the passage between Europe and Asia and Africa was perceived, staged and controlled from the opening of the Canal to the First World War, arguing that this period was neither an era of unhampered acceleration, nor one of hardening borders and increasing controls. Instead, it was characterised by the channelling of mobilities through the differentiation, regulation and bureaucratisation of movement. Telling the stories of tourists, troops, workers, pilgrims, stowaways, caravans, dhow skippers and others, the book reveals the complicated entanglements of empires, internationalist initiatives and private companies.

Teaching the Indian Child Jon Allan Reyhner, 1986

C, C++, Java, Python, PHP, JavaScript and Linux For Beginners Manjunath.R, 2020-04-13 An Introduction to Programming Languages and Operating Systems for Novice Coders An ideal addition to your personal elibrary. With the aid of this indispensable reference book, you may quickly gain a grasp of Python, Java, JavaScript, C, C++, CSS, Data Science, HTML, LINUX and PHP. It can be challenging to understand the programming language's distinctive advantages and charms. Many programmers who are familiar with a variety of languages frequently approach them from a constrained perspective rather than enjoying their full expressivity. Some programmers incorrectly use Programmatic features, which can later result in serious issues. The programmatic method of writing programs—the ideal approach to use programming languages—is explained in this book. This book is for all programmers, whether you are a novice or an experienced pro. Its numerous examples and well paced discussions will be especially beneficial for beginners. Those who are already familiar with programming will probably gain more from this book, of course. I want you to be prepared to use programming to make a big difference. C, C++, Java, Python, PHP, JavaScript and Linux For Beginners is a comprehensive guide to programming languages and operating systems for those who are new to the world of coding. This easy-to-follow book is designed to help readers learn the basics of programming and Linux operating system, and to gain confidence in their coding abilities. With clear and concise explanations, readers will be introduced to the fundamental concepts of programming languages such as C, C++, Java, Python, PHP, and JavaScript, as well as the basics of the Linux operating system. The book offers step-by-step guidance on how to write and execute code, along with practical exercises that help reinforce learning. Whether you are a student or a professional, C, C++, Java, Python, PHP, JavaScript and Linux For Beginners provides a solid foundation in programming and operating systems. By the end of this book, readers will have a solid understanding of the core concepts of programming and Linux, and will be equipped with the knowledge and skills to continue learning and exploring the exciting world of coding.

Creating Smart Virtual Appliances with IBM Image Construction and Composition Tool Greg Hurlebaus, Rashed Ferdous, John Jacobson, Li-Fang Lee, Jarek Miszczyk, Pat Nickel, David Peraza, Moises Romo, Kerry Staples, IBM Redbooks, 2013-07-24 In a traditional deployment model, software is installed on a physical server, and it is configured for the particular data center environment. The cloud deployment model requires that the dependency on a specific hardware configuration is severed. This IBM® Redbooks® publication guides you through the transition from the traditional application deployment model to the cloud-friendly deployment model. It explains how to achieve these goals by packaging the software stacks into industry standard virtual appliances. A key part of this transition involves using the IBM Image Construction and Composition Tool. This tool is the IBM tool for creating virtualized workloads that target several private cloud deployment platforms, including platforms from IBM and not from IBM. In fact, this tool is unique in its ability to support such a wide range of cloud offerings. It is also the only tool in the marketplace that can create virtual appliances for both x86 and IBM Power hardware architectures. This book provides an in-depth look at the capabilities and internal workings of Image Construction and Composition Tool. It focuses on the capabilities of this tool, which target the virtualization and cloud offerings of IBM Systems and Technology Group. These offerings include IBM Systems Director VMControl™, IBM SmartCloud® Entry, and IBM PureFlex™ System with IBM Flex System Manager™ appliance. The Image Construction and Composition Tool also has a much richer set of capabilities. Specifically, it supports IBM Workload Deployer, IBM PureApplication™ Systems, and IBM SmartCloud Provisioning. This publication targets software architects, cloud solutions architects, and cloud administrators. Its goal is to provide you with the expert-level skills required to package the existing and newly created applications into self-configurable, smart virtual appliances. Related publication: Smart Virtual Appliances Made Easy with IBM Image Construction and Composition Tool, TIPS1037

Serious Games and Edutainment Applications Minhua Ma, Andreas Oikonomou, 2017-03-03 With the continued application of gaming for training and education, which has seen exponential growth over the past two decades, this book offers an insightful introduction to the current developments and applications of game technologies within educational settings, with cutting-edge academic research and industry insights, providing a greater understanding into current and future developments and advances within this field. Following on from the success of the first volume in 2011, researchers from around the world presents up-to-date research on a broad range of new and emerging topics such as serious games and emotion, games for music education and games for medical training, to gamification, bespoke serious games, and adaptation of commercial off-the shelf games for education and narrative design, giving readers a thorough understanding of the advances and current issues facing developers and designers regarding games for training and education. This second volume of *Serious Games and Edutainment Applications* offers further insights for researchers, designers and educators who are interested in using serious games for training and educational purposes, and gives game developers with detailed information on current topics and developments within this growing area.

Social Transformation – Digital Way Jyotsna Kumar Mandal, Devadatta Sinha, 2018-08-23 This book constitutes the refereed proceedings of the 52nd Annual Convention of the Computer Society of India, CSI 2017, held in Kolkata, India, in January 2018. The 59 revised papers presented were carefully reviewed and

selected from 157 submissions. The theme of CSI 2017, Social Transformation – Digital Way, was selected to highlight the importance of technology for both central and state governments at their respective levels to achieve doorstep connectivity with its citizens. The papers are organized in the following topical sections: Signal processing, microwave and communication engineering; circuits and systems; data science and data analytics; bio computing; social computing; mobile, nano, quantum computing; data mining; security and forensics; digital image processing; and computational intelligence.

Femicide and Global Accumulation Silvia Federici,Liz Mason-Deese,Susana Draper,Betty Ruth Lozano Lerma,2021 The global struggles against racism, capitalism, and patriarchy revealed by the Black and Indigneous women and trans communities leading its resistance.

Language, Society and Power Suzanne LaBelle,Berit Engy Henriksen,Eva Eppler,2011 'This all-new edition of a classic textbook provides a wide-ranging and up-to-date introduction to key concepts in sociolinguistics, written in an accessible and engaging style.' Michael Pearce, University of Sunderland, UK 'This is, without a doubt, the most engaging and accessible introduction to the social and political dimensions of language use available.' Brenda Farnell, University of Illinois at Urbana-Champaign, USA Language, Society and Power is the essential introductory text for students studying language in a variety of social contexts. This book examines the ways in which language functions, how it influences thought and how it varies according to age, ethnicity, class and gender. It seeks to answer such questions as: How can a language reflect the status of children and older people? Do men and women talk differently? How can our use of language mark our ethnic identity? It also looks at language use in politics and the media and investigates how language affects and constructs our identities, exploring notions of correctness and attitudes towards language use. While it can be used as a stand-alone text, this edition of Language, Society and Power has also been fully cross-referenced with the new companion title: The Language, Society and Power Reader. Together these books provide the complete resource for students of English language and linguistics, media, communication, cultural studies, sociology and psychology.

EMOOCs 2021 Julien Jacqmin,Paker Doğu Özdemir,Caroline Fell Kurban,Zelha Tunç Pekkan,Johanna Koskinen,Maija Suonpää,Cheyvuth Seng,May Kristine Jonson Carlon,John Maurice Gayed,Jeffrey S. Cross,Inger Langseth,Dan Yngve Jacobsen,Halvdan Haugsbakken,Joseph Bethge,Sebastian Serth,Thomas Staubitz,Tobias Wuttke,Oliver Nordemann,Partha-Pratim Das,Christoph Meinel,Eva Ponce,Sindhu Srinath,Laura Allegue,Shai Perach,Giora Alexandron,Paola Corti,Valeria Baudo,Carlos Turró,Ana Moura Santos,Charlotta Nilsson,Jorge Maldonado-Mahauad,Javier Valdiviezo,Juan Pablo Carvallo,Nicolay Samaniego-Erazo,Antonella Poce,Maria Rosaria Re,Mara Valente,Sa'ar Karp Gershon,José A. Ruipérez-Valiente,Ignacio Despujol,Jaime Busquets,John Kerr,Anja Lorenz,Sandra Schön,Martin Ebner,Andreas Wittke,Elaine Beirne,Mairéad Nic Giolla Mhichíl,Mark Brown,Conchúr Mac Lochlainn,Paraskevi Topali,Irene-Angelica Chounta,Alejandro Ortega-Arranz,Sara L. Villagrà-Sobrino,Alejandra Martínez-Monés,Virginia Katherine Blackwell,Mary Ellen Wilttrout,Mohamed Rami Gaddem,César Augusto Hernández Reyes,Toru Nagahama,Ilona Buchem,Ebru Okatan,Mohammad Khalil,Daniela Casiraghi,Susanna Sancassani,Federica Brambilla,Vlad Mihaescu,Diana Andone,Radu Vasii,Muhitin Şahin,Marc Egloffstein,Max Bothe,Tobias Rohloff,Nathanael Schenk,Florian Schwerer,Dirk Ifenthaler,Julia Hense,Mike Bernd,2021 From June 22 to June 24, 2021, Hasso Plattner Institute, Potsdam, hosted the seventh European MOOC Stakeholder Summit (EMOOCs 2021) together with the eighth ACM Learning@Scale Conference. Due to the COVID-19 situation, the conference was held fully online. The boost in digital education worldwide as a result of the pandemic was also one of the main topics of this year's EMOOCs. All institutions of learning have been forced to transform and redesign their educational methods, moving from traditional models to hybrid or completely online models at scale. The learnings, derived from practical experience and research, have been explored in EMOOCs 2021 in six tracks and additional workshops, covering various aspects of this field. In this publication, we present papers from the conference's Experience Track, the Policy Track, the Business Track, the International Track, and the Workshops.

Integrating Engineering Education and Humanities for Global Intercultural Perspectives Zhanna Anikina,2020-05-06 This book presents papers from the International Conference on Integrating Engineering Education and Humanities for Global Intercultural Perspectives (IEEHGIP 2020), held on 25–27 March 2020. The conference brought together researchers and practitioners from various disciplines within engineering and humanities to offer a range of perspectives. Focusing on, but not limited to, Content and Language Integrated Learning (CLIL) in Russian education the book will appeal to a wide academic audience seeking ways to initiate positive changes in education.

Urban Europe Mariana M. Koceva,Teodóra Brandmüller,Iuliana Lupu,Åsa Önnersfors,Louise Corselli-Nordblad,Catherine Coyette,Annika Johansson,Helene Strandell,Pascal Wolff,2016 Statistical information is an important tool for analysing changing patterns of urban development and the impact that policy decisions have on life in our cities, towns and suburbs. Urban Europe - statistics on cities, towns and suburbs provides detailed information for a number of territorial typologies that can be used to paint a picture of urban developments and urban life in the EU Member States, as well as EFTA and candidate countries. Each chapter presents statistical information in the form of maps, tables and figures, accompanied by a description of the policy context and a set of main findings. The publication is broken down into two parts : the first treats topics under the heading of city and urban developments, while the second focuses on the people in cities and the lives they lead. Overall there are 12 main chapters, covering : the urban paradox, patterns of urban and city developments, the dominance of capital cities, smart cities, green cities, tourism and culture in cities, living in cities, working in cities, housing in cities, foreign-born persons in cities, poverty and social exclusion in cities, as well as satisfaction and the quality of life in cities.

Thomas Register of American Manufacturers ,2002 This basic source for identification of U.S. manufacturers is arranged by product in a large multi-volume set. Includes: Products & services, Company profiles and Catalog file.

The Elements of Academic Style Eric Hayot,2014-08-26 Eric Hayot teaches graduate students and faculty in literary and cultural studies how to think and write like a professional scholar. From granular concerns, such as sentence structure and grammar, to big-picture issues, such as adhering to genre patterns for successful research and publishing and developing productive and rewarding writing habits, Hayot helps ambitious students, newly minted Ph.D.'s, and established professors shape their work and develop their voices. Hayot does more than explain the techniques of academic writing. He aims to adjust the writer's perspective, encouraging scholars to think of themselves as makers and doers of important work. Scholarly writing can be frustrating and exhausting, yet also satisfying and crucial, and Hayot weaves these experiences, including his own trials and tribulations, into an ethos for scholars to draw on as they write. Combining psychological support with practical suggestions for composing introductions and conclusions, developing a schedule for writing, using notes and citations, and structuring paragraphs and essays, this guide to the elements of academic style does its part to rejuvenate scholarship and writing in the humanities.

ICT, Pedagogy and the Curriculum Viv Ellis,Avril Loveless,2013-01-11 This book explores the impact new information and communication technologies are having on teaching and the way children learn. The book addresses key issues across all phases of primary and secondary education, both in the UK and internationally. ICT, Pedagogy and the Curriculum looks at the relationship between ICT, paradigms of teaching and learning, and the way in which curriculum subjects are represented. Three principal areas are addressed: * the wider perception of ICT in society, culture and schooling * the challenges to pedagogy * the way in which ICT not only supports learning and teaching but changes the nature of curriculum subjects. The tensions between the use of technology to replicate traditional practices, and the possibilities for transforming the curriculum and pedagogy are explored, offering an original and distinctively critical perspective on the way in which we understand ICT in education. It will be of interest to all primary and secondary teachers and those in

initial teacher training who are concerned about current technology initiatives in education and how to respond to them.

Handbook of Research on E-Learning Methodologies for Language Acquisition de C ssia Veiga Marriott, Rita,Lupion Torres, Patricia,2008-07-31 This book discusses the complete range of contemporary research topics such as computer modeling, geometry, geoprocessing, and geographic information systems-- Provided by publisher.

Poor People's Energy Outlook 2019 Practical Action,2019-11-15 With just a decade to go until the deadline for our 2030 Global Goals, universal energy access remains elusive. PPEO 2019 explores progress achieved to date - and considers what remains to be done, to ensure that we truly leave no one behind behind in our pursuit of SDG7.

English – One Tongue, Many Voices Jan Svartvik,Geoffrey Leech,2016-01-19 This is the fully revised and expanded second edition of English - One Tongue, Many Voices, a book by three internationally distinguished English language scholars who tell the fascinating, improbable saga of English in time and space. Chapters trace the history of the language from its obscure beginnings over 1500 years ago as a collection of dialects spoken by marauding, illiterate tribes. They show how the geographical spread of the language in its increasing diversity has made English into an international language of unprecedented range and variety. The authors examine the present state of English as a global language and the problems, pressures and uncertainties of its future, online and offline. They argue that, in spite of the amazing variety and plurality of English, it remains a single language.
