Locks and Keys Throughout the Ages Vincent J. M. Eras,2019 Locks and Keys throughout the Ages is widely considered the best book ever written on the history and development of locks. It is illustrated throughout with photos from the famous and extensive Lips' Collection. It was written in 1957 by Vincent J.M. Eras, the director of one of the most respected and important lock manufacturing companies in the world at that time, the Lips' Safe and Lock Manufacturing Company (now part of the ASSA ABLOY Group, along with Yale, Chubb, and many other once independent manufacturers). The author was not only a master locksmith who held several important patents, but he was also an avid collector and was passionate about the history and development of locking mechanisms. His extensive knowledge of the field comes across on every page. In fact, Eras had been in the lock manufacturing business for 58 years before he wrote this book. In the preface he states: I consider it a gratifying task to place on record my experiences and through this book save them from oblivion. At the same time an excellent opportunity is presented to show the reader my collection of antique and modern locks - the tangible result of more than 50 years travelling, searching and study in many countries. In over 280 black-and-white photos and drawings Vincent Eras brings us on a grand tour of the development of locks from prehistoric to modern times and also explains to us, in words and illustrations, how their mechanisms work. This is a high-quality hardcover reprint of the 1957 edition of the book done by special arrangement with ASSA ABLOY. The typeface has been completely re-done and the photographs have been corrected using the latest digital correction technology. The quality is equal to and, in many cases, better than the original 1957 edition. A reprint of this book was done in the UK in the 1970s but the quality was poor. Artisan Ideas is very glad to be able

to make this fascinating book available to the public again. Hardcover, 184 pages, 284 black-and-white photos and designs.

Emotional Design Don Norman,2007-03-20 Why attractive things work better and other crucial insights into human-centered design Emotions are inseparable from how we humans think, choose, and act. In Emotional Design, cognitive scientist Don Norman shows how the principles of human psychology apply to the invention and design of new technologies and products. In The Design of Everyday Things, Norman made the definitive case for human-centered design, showing that good design demanded that the user's must take precedence over a designer's aesthetic if anything, from light switches to airplanes, was going to work as the user needed. In this book, he takes his thinking several steps farther, showing that successful design must incorporate not just what users need, but must address our minds by attending to our visceral reactions, to our behavioral choices, and to the stories we want the things in our lives to tell others about ourselves. Good human-centered design isn't just about making effective tools that are straightforward to use; it's about making affective tools that mesh well with our emotions and help us express our identities and support our social lives. From roller coasters to robots, sports cars to smart phones, attractive things work better. Whether designer or consumer, user or inventor, this book is the definitive guide to making Norman's insights work for you.

Extraordinary Board Leadership: The Keys to Governing deals with an incredibly important topic — "high-impact governing" — which is at the heart not only of a nonprofit's effectiveness, but also the key to a positive, productive, and enduring board-CEO partnership. This text offers practical, hands-on guidance, which is based on in-depth real-life experience and can be put to immediate use. It goes beyond the old-fashioned "policy governance" approach — beyond the rules — in dealing with the board-CEO-executive staff partnership. The 2nd edition of this successful book includes more case studies and new information aimed at public governing bodies, as well as more tables and charts to accompany a fresh new text design.

How to Design Your Dream Home In 25 Years or Less! Jan Jones Evans,2014-02 Jan Evans and her husband are retired and living in their dream home on their favorite lake in the Ozark Mountains. They bought their lake lot in 1986, and Mrs. Evans really did spend nearly 25 years designing their dream home. She is the daughter of a Realtor/builder/developer, and has been drawing floor plans, just for fun, for 50 years. She started out in Interior Design and drafting in college, but later found her true calling in special education Mrs. Evans is now a retired speech pathologist and special education teacher. Therefore, she is obviously not an architect nor an engineer. However, she has either added on to, upgraded, or remodeled all the homes she has ever owned prior to designing their current home at the lake. Her father also remodeled all three of their family homes that she lived in as a child, so home design has always been a passion of hers After realizing her life-long dream of designing and building her dream home, Mrs. Evans decided to write a book about the whole experience, even if it was just for fun and family She has always been a prolific writer, but has never attempted to publish any of her writings until now. Some of her writings have been fictional, some educational, and some technical, all mostly for her children or her school Since Mrs. Evans has known many people over the years who shared her interest in designing their own custom home, she decided to share her mistakes as well as her successes with others who may be interested in doing the same.

The Invisible Architect: How to Design Your Perfect Life From Within John Novello,2021-05-01 What would it mean if your perfect life was awaiting your discovery? What if you knew the exact steps that would allow you to discover and achieve this perfect life? And what if you had an Invisible Architect-an all-powerful all-knowing best friend at your beckon call to help you discover, design, and achieve your perfect life? And what if your perfect life has already been achieved and is waiting for you to claim it? This is exactly what award-winning musician/author John Novello offers in the pages of his extraordinary new transformational book, the Invisible Architect. You'll learn that there is indeed a Perfect All-Knowing Power, an Invisible Architect, or to put it in more scientific terms, an Invisible Field of Intelligent Energy that permeates everything that exists, including you and me and all life, matter, energy, space, and time, and is available to us for information, advice, comfort, and assistance in designing our perfect Divine lives. The Invisible Architect is a rare look into the inner world of acclaimed jazz musician/composer/author John Novello by the author himself and based on his discovery of an inner power we all possess but rarely knowingly use. This book was written because of a Divine unsolicited conversation he had with the Invisible Architect one day. Here is the conversation... Invisible Architect: John, you now need

to spread the WORD! John, confused: What WORD? Invisible Architect: That everybody is one with the Invisible Architect and could be employing this miraculous energy to design their perfect lives from within! John: But there are already many books on this subject. Invisible Architect: True, but not from your unique perspective as a jazz musician who has experienced these wonderful miracles! End of conversation. And therein lies the genesis of this book. I cannot imagine operating without my mystical friend and advisor-the Invisible Architect. And it is now very clear to me that my duty is to spread the WORD to everyone so that they too can design their perfect lives from within, as long as they understand the spiritual mechanics involved-the relationship between the Universal Energy (the Invisible Architect) and its creations and the interactions thereof. But first you must become aware of the Architect, learn how to consciously commune with and employ the Architect, and finally trust the Architect to manifest your desires as only it knows how! The Invisible Architect is a captivating story of the aspirations and cognitions of the life of a now-famous jazz musician. Enlightening, inspirational, tragic, and miraculous, The Invisible Architect is a self-help program for designing your perfect life from within-the exact process of how our inner world creates our outer world. Spread the WORD...!
