Resisting Change in Suburbia James Zarsadiaz,2022-10-18 Between the 1980s and the first decade of the twenty-first century, Asian Americans in Los Angeles moved toward becoming a racial majority in the communities of the East San Gabriel Valley. By the late 1990s, their model minority status resulted in greater influence in local culture, neighborhood politics, and policies regarding the use of suburban space. In the country living subdivisions, which featured symbols of Western agrarianism including horse trails, ranch fencing, and Spanish colonial architecture, white homeowners encouraged assimilation and enacted policies suppressing unwanted changes—that is, increased density and influence of Asian culture. While some Asian suburbanites challenged whites' concerns, many others did not. Rather, white critics found support from affluent Asian homeowners who also wished to protect their class privilege and suburbia's conservative Anglocentric milieu. In *Resisting Change in Suburbia*, award-winning historian James Zarsadiaz explains how myths of suburbia, the American West, and the American Dream informed regional planning, suburban design, and ideas about race and belonging.

Higher Life Design Jefferson Santos,2014-09-21 I walked down the sidewalk on my way to the mailbox fearing the worst. Rather than a friend, the mailbox seemed more like an assassin. Its favorite target? My pride. My future. And most devastating - my credit score. I wasn't financially irresponsible, but then again Donald Trump wasn't sitting at my feet to learn any tips about money management either. Truth is I was broke. Worse than that, I was broke and in the hole. Yep. Twenty-three years old, \$70K in debt, and living with my mom in her apartment. I was the essence of a self-made man. Except that I hadn't made anything yet and I definitely didn't feel like a man at the moment. Despite a large amount of entrepreneurial ambition for my new business start-up, life had me in a choke hold and I felt close to tapping out. Life held Author Jefferson Santos up against the ropes until he discovered the answer, the 7 steps that now make up the Higher Life Design. Today a competent and confident entrepreneur, Jefferson earns over 7 figures. A quarter of a million strong, his international team grows daily. He's trained teams from A to Z from Amsterdam to Zimbabwe and everywhere else in between. His house and car are both paid for by his company and in the past 84 months he's taken 107 vacations. In this transformational book Jefferson will show you the 7 step model that changed his life. What if you had vibrant health, abundant wealth, and unending happiness? What if you got the exact results you wanted? Think it's too good to be true? Think again. Think Higher Life Design.
