

Desktopclocks Alarms48

Dennis Sagvold

English Domestic Clocks Herbert Cescinsky,Malcolm R. Webster,1913

The Timing of Biological Clocks Arthur T. Winfree,1987 Examines circadian rhythms, tells how biological clocks are reset, and discusses time zones, consciousness, and clocks

Clocks, Simon Fleet Simon Fleet,1961

Clocks in Colour Andrew Nicholls,Bob Loosemore,1975

The Living Clocks Ritchie R. Ward,1972

Body Clocks: The biology of time for sleep, education and work Paul Kelley,Sian Griffiths,2018-12-01 Our body's clocks make the difference between happiness and depression, health and illness, and even life and death. The brilliant scientist Paul Kelley makes a compelling case for all organisations to allow people to work and study the hours that suit their personal circadian rhythms. That way, Paul argues, we would all be more productive, a great deal of ill health would be avoided and the world would be a better and happier place.

The Rhythms Of Life Leon Kreitzman,Russell Foster,2011-09-30 Popular science at its most exciting: the breaking new world of chronobiology - understanding the rhythm of life in humans and all plants and animals. The entire natural world is full of rhythms. The early bird catches the worm -and migrates to an internal calendar. Dormice hibernate away the winter. Plants open and close their flowers at the same hour each day. Bees search out nectar-rich flowers day after day. There are cicadas that can breed for only two weeks every 17 years. And in humans: why are people who work anti-social shifts more illness prone and die younger? What is jet-lag and can anything help? Why do teenagers refuse to get up in the morning, and are the rest of us really 'larks' or 'owls'? Why are most people born (and die) between 3am-5am? And should patients be given medicines (and operations) at set times of day, because the body reacts so differently in the morning, evening and at night? The answers lie in our biological clocks the mechanisms which give order to all living things. They impose a structure that enables us to change our behaviour in relation to the time of day, month or year. They are reset at sunrise and sunset each day to link astronomical time with an organism's internal time.

Biological Clocks Susan Binkley,2020-08-26 Biological Clocks introduces the subject of human chronobiology. It describes biological clocks; why we have clocks; how biological clocks relate to sleep disorders, depression, and jet lag; and how the reader can measure his/her own rhythms.

Legged Alarm Clocks Dennis Sagvold,2004 For the first time, alarm clocks with legs, produced between 1880 and 1935, are brought together in a single volume. Over 375 black and white photos and catalog pages illustrate clocks from American clock makers Ansonia, Attleboro, Gilbert, Ingersoll, Ingraham, Lux, New Haven, Parker, Scott, Sessions, Seth Thomas, Waterbury, Welch, and Westclox, as well as international alarms. Private label dial alarm clocks are also featured. Values are found in the captions.

Of Time, Tides, and Inner Clocks Henry Still,1972

A Book of English Clocks R. Symonds,2010-07 Many of the earliest books, particularly those dating back to the 1900's and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

How to Repair 20 American Clocks Steven G. Conover,2004-01-01 The book describes and illustrates the complete repair of the movement, including time and strike functions, and where applicable, dial, hands, and case. Eighteen American striking clocks, one time-only wall clock with date function, and one electromechanical clock are included.
