The Making of Home Judith Flanders, 2014-10-02 The idea that 'home' is a special place, a separate place, a place where we can be our true selves, is so obvious to us today that we barely pause to think about it. But, as Judith Flanders shows in this revealing book, 'home' is a relatively new concept. When in 1900 Dorothy assured the citizens of Oz that 'There is no place like home', she was expressing a view that was a culmination of 300 years of economic, physical and emotional change. In *The Making of Home*, Flanders traces the evolution of the house across northern Europe and America from the sixteenth to the early twentieth century, and paints a striking picture of how the homes we know today differ from homes through history. The transformation of houses into homes, she argues, was not a private matter, but an essential ingredient in the rise of capitalism and the birth of the Industrial Revolution. Without 'home', the modern world as we know it would not exist, and as Flanders charts the development of ordinary household objects - from cutlery,

chairs and curtains, to fitted kitchens, plumbing and windows - she also peels back the myths that surround some of our most basic assumptions, including our entire notion of what it is that makes a family. As full of fascinating detail as her previous bestsellers, *The Making of Home* is also a book teeming with original and provocative ideas.

Indistractable Nir Eyal, 2019-09-10 *Indistractable* provides a framework that will deliver the focus you need to get results. —James Clear, author of *Atomic Habits* If you value your time, your focus, or your relationships, this book is essential reading. I'm putting these ideas into practice. —Jonathan Haidt, author of *The Righteous Mind* National Bestseller Winner of the Outstanding Works of Literature (OWL) Award Included in the Top 5 Best Personal Development Books of the Year by Audible Included in the Top 20 Best Business and Leadership Books of the Year by Amazon Featured in The Amazon Book Review Newsletter, January 2020 Goodreads Best Science & Technology of 2019 Finalist You sit down at your desk to work on an important project, but a notification on your phone interrupts your morning. Later, as you're about to get back to work, a colleague taps you on the shoulder to chat. At home, screens get in the way of quality time with your family.

Another day goes by, and once again, your most important personal and professional goals are put on hold. What would be possible if you followed through on your best intentions? What could you accomplish if you could stay focused? What if you had the power to become undistractable? International bestselling author, former Stanford lecturer, and behavioral design expert, Nir Eyal, wrote Silicon Valley's handbook for making technology habit-forming. Five years after publishing *Hooked*, Eyal reveals distraction's Achilles' heel in his groundbreaking new book. In *Indistractable*, Eyal reveals the hidden psychology driving us to distraction. He describes why solving the problem is not as simple as swearing off our devices: Abstinence is impractical and often makes us want more. Eyal lays bare the secret of finally doing what you say you will do with a four-step, research-backed model. *Indistractable* reveals the key to getting the best out of technology, without letting it get the best of us. Inside, Eyal overturns conventional wisdom and reveals: • Why distraction at work is a symptom of a dysfunctional company culture—and how to fix it • What really drives human behavior and why time management is pain management • Why your relationships (and your sex life) depend on you becoming undistractable • How to raise undistractable children in an increasingly distracting world Empowering and optimistic, *Indistractable* provides practical, novel techniques to control your time and attention—helping you live the life you really want.
