Destroy All Cars Blake Nelson, 2011 Through assignments for English class, seventeen-year-old James Hoff rants against consumerism and his classmates' apathy, puzzles over his feelings for his ex-girlfriend, and expresses disdain for his emotionally distant parents.

Destroy All Monsters Jeff Jackson, 2018-10-16 A wild roar of a novel . . . Writing about music is tricky. Ninety-nine percent of the time hearing the actual song or going to the actual concert is far more revealing than any paragraph describing it. But Jackson pulls off this near-impossible feat, pulling the reader past the velvet ropes into the black-box theaters and sweaty, sticky-floored stadiums. —Marisha Pessl, *The New York Times Book Review* An epidemic of violence is sweeping the country: musicians are being murdered onstage in the middle of their sets by members of their audience. Are these random copycat killings, or is something more sinister at work? Has music itself become corrupted in a culture where everything is available, everybody is a creative, and attention spans have dwindled to nothing? With its cast of ambitious bands, yearning fans, and enigmatic killers, *Destroy All Monsters* tells a haunted and romantic story of overdue endings and unlikely beginnings that will resonate with anybody who's ever loved rock and roll. Like a classic vinyl single, *Destroy All Monsters* has two sides, which can be read in either order. At the heart of Side A, "My Dark Ages," is Xenie, a young woman who is repulsed by the violence of the epidemic but who still finds herself drawn deeper into the mystery. Side B, *Kill City*, follows an alternate history, featuring familiar characters in surprising roles, and burrows deeper into the methods and motivations of the murderers. "At some point, I began to think of it as an ancient folk tale. It's fine work, with a kind of scattered narrative set within a tight frame. Fast-moving throughout—fragile characters who suggest a bleak inner world made in their own collective image." —Don DeLillo *Destroy All Monsters* has a distinct pulse—a kind of heartbeat—that comes out of the rhythm of the prose, the inventiveness of the form, and the willingness of Jeff Jackson to engage the mysterious alchemy of violence, performance, and authenticity. This accomplished, uncanny novel is simultaneously seductive and unsettling. —Dana Spiotta, author of *Innocents and Others* and *Eat the Document* "Surges with new-century anxiety and paranoia . . . A clear-eyed, stone-cold vision of what's to come." —Ben Marcus "Jeff Jackson is one of contemporary American fiction's most sterling and gifted new masters. *Destroy All Monsters* . . . is a wonder to behold." —Dennis Cooper

If He Had Been with Me Laura Nowlin, 2013-04-02 If he had been with me everything would have been different... I wasn't with Finn on that August night. But I should've been. It was raining, of course. And he and Sylvie were arguing as he drove down the slick road. No one ever says what they were arguing about. Other people think it's not important. They do not know there is another story. The story that lurks between the facts. What they do not know—the cause of the argument—is crucial. So let me tell you...

Recovery Road Blake Nelson, 2011 Because Madeline has a drinking problem and issues controlling her anger, she's sent away to Spring Meadows. It's not as fancy as it sounds—it's actually a pretty intense place. But there is a weekly movie night in town... where Madeline meets Stewart, who's at another rehab facility nearby. They fall for each other during a completely crazy time in their lives, and then sort of part ways. When Madeline gets out of rehab, she tries to get back on her feet, and waits for Stewart to join her. When he does, though, it's not the ideal recovery or reunion that Madeline dreamed of. Both of them still have serious problems. And Stewart's are only getting worse... True and insightful as only Blake Nelson can be, *Recovery Road* is a story about finding the right person at precisely the wrong time.

Last Car to Elysian Fields James Lee Burke, 2003-09-23 Sheriff Dave Robicheaux returns to New Orleans to investigate the beating of a controversial Catholic priest and murder of three teenage girls in this intense, atmospheric entry in the New York Times bestselling

series. For Dave Robicheaux, there is no easy passage home. New Orleans, and the memories of his life in the Big Easy, will always haunt him. So to return there means visiting old ghosts, exposing old wounds, opening himself up to new, yet familiar, dangers. When Robicheaux, now a police officer based in the somewhat quieter Louisiana town of New Iberia, learns that an old friend, Father Jimmie Dolan, a Catholic priest always at the center of controversy, has been the victim of a particularly brutal assault, he knows he has to return to New Orleans to investigate, if only unofficially. What he doesn't realize is that in doing so he is inviting into his life—and into the lives of those around him—an ancestral evil that could destroy them all. A masterful exploration of the troubled side of human nature and the darkest corners of the heart, and filled with the kinds of unforgettable characters that are the hallmarks of his novels, *Last Car to Elysian Fields* is Burke in top form in the kind of lush, atmospheric thriller that is “an outstanding entry in an excellent series” (Publishers Weekly).

Search & Destroy Scott Cleland,Ira Brodsky,2011 This is the other side of the Google story, the unauthorized book that Google does not want you to read. In it, the author, a Google expert shows that the world's most powerful company is not who it pretends to be. Google pretends to be a harmless lamb, but chose a full size model of a Tyrannosaurus Rex as its mascot. Beware the T Rex in sheep's clothing. Google has acquired far more information, both public and private, and has invented more ways to use it, than anyone in history. Information is power, and in Google's case, it is the power to influence and control virtually everything the Internet touches. Google's power is largely unchecked, unaccountable, and grossly underestimated. Google is the Internet's lone superpower, the new master of the digital information universe. And Google's power depends almost entirely on the blind trust it has gained through masterful duplicity. Google routinely says one thing and does another. The author proves the world's number one brand untrustworthy. He exposes the unethical company hiding behind a don't be evil slogan. He uncovers Google's hidden political agenda. And he reveals how Google's famed mission to organize the world's information is destructive and wrong. He critically examines where Google is

leading us, explain why we do not want to go there, and proposes solutions. Google's centralization of power over the world's information is corrupting both Google and the Internet, a natural result of unchecked power. Google is evolving from an information servant to master, from working for users, to making users work for the Internet behemoth. This book demonstrates that Google's goal is to change the world by influencing and controlling information access. Ultimately, Google's immense unchecked power is destructive precisely because Google is so political, unethical and untrustworthy. Learn how Google's pervasive tracking and profiling destroys privacy and individualism; Discover how Google Inc. uses its Don't be evil slogan to mask unethical business practices; Learn how Google's market dominance and free products threaten competition, innovation, job creation, and economic growth; Discover how Google's hidden political agenda threatens individual freedom, democracy, and national sovereignty; Understand the ramifications of Google imposing its radical values and ideology on the world.
